Routledge Handbook of Global Mental Health Nursing Oct 26 2019 Awarded second place in the 2017 AJN Book of the Year Awards in Psychiatric and Mental Health Nursing. "I welcome, at long last, a book on global mental health targeted to nurses, the front-line health worker for billions of people around the world. The roles that nurses can, and should, play in mental health care are diverse and this book addresses both well-trod as well as emerging concerns across the continuum of care from promotion to prevention to treatment. Importantly, at the heart of this diversity is the foundation of compassion and care, the hallmark of the nursing profession." – Vikram Patel, Professor of International Mental Health and Wellcome Trust Principal Research Fellow in Clinical Science, Centre for Global Mental Health, London School of Hygiene and Tropical Medicine, UK Psychiatric disorders have consistently been identified as serious and significant global burdens of disease, yet meeting the needs of people in mental distress has not often been a priority in health care. This important reference work sets out the knowledge base for understanding the state of mental health care globally, and translating that into effective practice. The Handbook provides a historical and contemporary context of mental health care, identifies and discusses evidence-based standards of care and strategies for mental health promotion and explores the need to deliver care from interdisciplinary and community-based models, placing these imperatives within a human rights and empowerment framework. It is made up of four core sections which look at: Key and emerging issues that affect global mental health practice and research, including the social context of health; Evidence-based health promotion strategies for major areas of practice internationally; A range of country studies, reflecting different problems and approaches to mental health and mental health care internationally; and What constitutes empowering practice. The only comprehensive work looking at global perspectives on mental health nursing, this is an invaluable reference for all students, academics and professionals involved in mental health research with an interest in global or cross-cultural issues.

Mental Health Nursing Case Book Feb 29 2020 "This is a modern multi-disciplinary text confronting a complex age and journey into recovery. It is a roadmap for every student of mental health who wants to put the most up-to-date practice fuel into their tank. The case study approach offers an authentic insight into life experiences of service users and allows the reader to re-think the relationship they have with vulnerable people in the middle of sensitive life challenges." Dr Dean-David Holyoake, University of Wolverhampton, UK This engaging book consists of 27 case studies which offer a realistic and insightful view into the experience of mental ill-health. A range of mental health problems are considered for people at different stages of the lifespan, from common problems such as anxiety or depression, through to severe and enduring conditions such as schizophrenia. Part of a new Case Book series, the book is written in an informative and clear style and utilises the latest evidence-based interventions and resources. The approach adopted: Incorporates recovery based principles Emphasizes the importance of collaborative working Values the person's perspective Actively empowers and advocates for the person to make their own decisions and choices Written and edited by academic experts and experienced clinicians, the cases all take a positive, person-centred approach focusing on recovery outcomes. The book addresses the biological, psychological, social and physical aspects in scenarios and includes areas of mental health which are often overlooked, such as alcohol and substance misuse amongst older adults. Mental health nurse training involves focusing on working with individuals one-to-one in a range of settings, and this case book will reflect and complement the skills and situations students face while training and on placement.
