Low-Carb Express Dec 02 2019 We would all love to eat less carbohydrates and switch to a low-carb diet, but many of us think we just do not have the time. We believe that low-carb cooking and baking are time consuming, because you have to start from scratch, and it involves specialised ingredients which may be expensive or hard to find. Not so, says Vickie de Beer, who believes the problem lies in the fact that we have become afraid of the kitchen and lost the knowhow of basic cooking techniques. The truth is that you can still cook nutritional and flavourful meals without refined carbohydrates even when you are pressed for time. In *Low-Carb Express*, Vickie shows that with a little planning and better time management, you can cook healthy meals in a cinch that will not only benefit you and your family’s overall health, but might also benefit your budget.

The New Essentials Cookbook Mar 17 2021 Take your cooking skills to the next level while developing a knockout repertoire of 200 essential dishes that satisfy what our modern palates crave, from simple meals to dinner-party centerpieces. We've made improvements to well-loved dishes by incorporating innovative techniques in recipes such as Butter-Basted Rib-Eye Steak and added modern classics such as Vegetable Bibimbap and Olive Oil-Yogurt Bundt Cake. In this book, you'll find the perfect roast chicken and a killer banana bread but also a Turkish-inspired tomato soup, luscious Chinese braised short ribs, and a set of wholesome grain bowls. A chapter on weeknight dinners offers smart paths to great flavor--from Bucatini with Peas, Kale, and Pancetta that cooks in one pot to a pizza that bakes in a skillet--including plenty of vegetarian options. Other chapters turn up the volume on breakfast and dessert standbys; try the 100 Percent Whole-Wheat Pancakes and Brown Sugar Cookies and you may never go back to the regular versions. We'll also help you pull off your next--or even your first!--dinner party with recipes guaranteed to impress (and to work), such as Braised Lamb Shanks with Bell Peppers and Harissa, Miso-Marinated Salmon, and Roasted Zucchini and Eggplant Lasagna. Most of us--not just newbies--could stand to bone up on certain culinary basics, and our methods may surprise even more experienced cooks, from seeding fresh chiles (we use a measuring spoon) to hulling strawberries (a plastic straw works well). And that's just the tip of the iceberg of what these recipes teach. You'll discover how to "reverse sear" thick pork chops so they turn out juicy all the way through, grind meat in a food processor for the ultimate burger, and shape fresh corn tortillas without a tortilla press or rolling pin. As you progress through this book, you will also gain a deeper understanding of ingredients, better techniques, and the secrets we use in the test kitchen via sidebars called "Think Like a Cook," which offers insights that can help in your larger culinary life. For example: How to Be an Avocado Whisperer: Squeezing that avocado is just going to bruise it. Learn a better way to tell when it's ripe. Improvising a Pan Sauce: After searing a steak, chop, or chicken breast, don't clean the pan! We show you how to use these browned bits to make a rich, deeply flavored sauce. How Cheese Melts: Learn why some cheeses melt smoothly while others turn greasy--plus a trick to help cheddar melt without breaking. The Egg-Doneness Continuum: See the difference between soft-, hard-, and overcooked eggs and find a foolproof method for nailing it every time (and removing the shells more easily).

Un-Junk Your Diet Jul 21 2021 We don't need to be instructed to eat apples instead of potato chips. What we need is someone to inspire us to eat well and to show us just how powerful eating that apple can be. This person must be a trusted voice, one that can calm the informational clutter instead of adding yet another discordant voice to the pile. Desiree Nielsen is a registered dietitian, one of the public's most trusted sources of nutrition information. In *Un-Junk Your Diet*, she teaches readers about anti-inflammatory dieting in a way that's engaging, funny, and approachable. This book begins with a call to action to help shake up perceptions of what food means to our bodies and illuminate all the ways that marketers co-opt healthy eating messages to coerce us into choosing food that is unworthy. In addition, an in-depth look at the fundamentals of nutrition—with a splash of myth busting—strengthens readers' abilities to resist the latest nutrition headline and continue making healthier choices. Because there is no one right way for every individual eater, Nielsen offers a brief exercise in self-discovery before providing four distinct plans for becoming healthier. They range from the gentle and gradual to the two-week kick start that appeals to both detox seekers and vacation slimmers.
