Why do all empires fail? Who decides what countries are allowed to participate in the Olympics? What makes Finland so great? Why do we have borders, what's the furthest you can get from the ocean, how do you qualify as a country, and why did Vikings wear those silly helmets? These are just a few of the strange questions that bounce around the head of YouTube sensation Joseph Pisenti, aka RealLifeLore. In his debut book, Pisenti explores the nonsensical humor of the universe with in-depth analysis of empires, economics, and ecosystems as he helps answer the ridiculous. Why, you ask? Because someone has to. Using line drawings, graphs, and charts, Pisenti not only details the absurd—he also provides explanations on why things are . . . and why they aren't.

Country size, flags, language currency, religion, climate and population. Flag, flag colors, other flag attributes. Physical Geography jargon. World record facts regarding geography. Challenging multiple choice questions: We have seen several quiz books that have a poor selection of multiple choice questions, such as example below... What is the highest mountain in Turkey? A Mt. Whitney B Mt. Everest C Mt. Ararat D Mt. Cook Whilst this question is somewhat tricky in itself, the answers given allow most geographers to eliminate the 3 wrong answers quickly to come up with answer C. Instead of this approach, we have kept the quiz more like shown below to make this strategy of quizzing harder for the challenger... What is the highest mountain in Turkey? A Mt. Elbrus B Mt. Davamond C Mt. Ararat D Mt. Bazarduzu Although it may be easy for some seasoned geographers, this question, by the choices given is harder for the most part, and will hopefully trigger more conversation/thought before answering.
