[Staffing Organizations Feb 25 2022](#) "This edition has been the beneficiary of major restructuring and updating to ensure continuing alignment of the material with current in-the-field business practices. The changes range from small inclusions of new stand-ards to major chapter revisions. The new structure will make it easier for students to see how each part of the staffing process proceeds from begin-ning to end, and it will also help them see how the topics fit together to create a cohesive staffing management system. The human resources landscape continues to be transformed by technolo-gy, and this edition of the textbook reflects this influence. The use of human resources information systems for tasks like recruitment, selection, and forecasting is now thoroughly integrated into all sections. The role of social media, the Internet, and other information management tools is emphasized in several chapters, and new examples from companies keep the application of concepts fresh and current"--

[Daring to Excel Oct 04 2022](#) More than a centennial celebration of Missouri's second-largest public university, Daring to Excel charts the history of Missouri State University through a tumultuous century of wars and peace, economic booms and busts, and the many cultural, political, technological, and media revolutions that have impacted the Ozarks, Missouri, and the nation as a whole. Some of the book's subjects belong to the university uniquely: its stories of influential teachers and alumni, its triumphs and challenges in pedagogy, varsity sports, public entertainments and in community relations generally. In the research and writing of so expansive a history, Landon has relied on numerous essayist-contributors, including Robert H. Bradley, Robert Flanders, Albert R. Gordon, John H. Keiser, Arthur Mallory, Andrea Mostyn, Jon Moran, Don Payton, Mark Stillwell, Tina Stillwell, and Tom Strong.

[Letters from the Future Dec 02 2019](#) If, fundamentally, education is about change and transformation, this is all the more true where teaching and learning about diversity is concerned. Yet teachers rarely know what influence their instruction has had on the lives of their students. Given the social importance of this enterprise, there is a compelling need to evaluate diversity education and student outcomes. This edited volume provides insights into the teaching and learning experiences of diversity educators and their students. College-level teachers from such disciplines as biology, social work, sex education, communication, political science, English literature, and criminology share their general philosophy of teaching and how teaching diversity offers insights and challenges in the classroom. This book uniquely integrates revealing letters from former students within each teacher's chapter. These letters offer observations and reflections upon key lessons learned or ideas that were challenged in the teacher's classroom and how these lessons are connected to or disconnected from their professional and/or personal lives. We also see how the teachers in turn have modified their practice in the light of their students' feedback. The editors revisit the chapters to find the emergent Best Practices as take-aways for the reader. This book will be useful to college teachers who currently teach courses with a diversity-focused content, and to instructors who plan to incorporate diversity content within an existing course. Directors of teaching and learning centers, coordinators of doctoral programs, and TA centers will also find helpful information and insights about pedagogy, process, and learning outcomes.

[The Cambridge Companion to the Lied Jul 21 2021](#) Beginning several generations before Schubert, the Lied first appears as domestic entertainment. In the century that follows it becomes one of the primary modes of music-making. By the time German song comes to its presumed conclusion with Richard Strauss's 1948 Vier letzte Lieder, this rich repertoire has moved beyond the home and keyboard accompaniment to the symphony hall. This is a 2004 introductory chronicle of this fascinating genre. In essays by eminent scholars, this Companion places the Lied in its full context - at once musical, literary, and cultural - with chapters devoted to focal composers as well as important issues, such as the way in which the Lied influenced other musical genres, its use as a musical commodity, and issues of performance. The volume is framed by a detailed chronology of German music and poetry from the late 1730s to the present and also contains a comprehensive bibliography.

Unlikely Allies in the Academy Oct 24 2021 A CHOICE Outstanding Academic Title 2012! *Unlikely Allies in the Academy* brings the voices of women of Color and White women together for much-overdue conversations about race. These well-known contributors use narrative to expose their stories, which are at times messy and always candid. However, the contributors work through the discomfort, confusion, and frustration in order to have honest conversations about race and racism. The narratives from Chicanas, Indigenous, Asian American, African American, and White women academicians explore our past, present, and future, what separates us, and how to communicate honestly in an effort to become allies. Chapters discuss the need to interrupt and disrupt the norms of interaction and engagement by allowing for the messiness of discomfort in frank discussion. The dialogues model how to engage in difficult dialogues about race and begin to illuminate the unspoken misunderstandings about how White women and women of Color engage one another. This valuable book offers strategies, ideas, and the hope for moving toward true alliances in the academy and to improve race relations. This important resource is for Higher Education administrators, faculty, and scholars grappling with the intersectionality of race and gender as they work to understand, study, and create more inclusive climates.
