**Mountain Madness:** Jan 26 2022 "An extraordinary life."—The New York Times Book Review "A fitting homage to one of the great outdoor extremists."—Kirkus Reviews Legendary climber Scott Fischer found in Mount Everest a perfect landscape for his fearless spirit. Scaling the world's highest peak tested his skills, his courage, and his endurance. His legendary final expedition—and its tragic outcome—are portrayed in Everest, the 3-D movie adaptation starring Jake Gyllenhaal as Scott Fischer. Robert Birkby, one of Scott's close friends, captures in this intimate and stirring portrait who Scott Fischer really was and what led him to climb to the top of the world—before he left it altogether. "A personal, uncritical biography that rounds out the portrait of Fischer sketched in Krakauer's best-seller *Into Thin Air*."—The New York Times Book Review "A much fuller picture of a climber widely critiqued in the high-profile coverage after the Everest tragedy."—Seattle Post Intelligencer "A vivid portrait of a superb athlete whose love of mountain climbing drove everything he did."—Ed Viesturs, author of *No Shortcuts to the Top* "Birkby succeeds in illuminating the power mountains can exert over the human soul.—Publishers Weekly Updated with a New Introduction and Epilogue Plus new photos exclusive to the digital edition!

**Facing Up** Aug 09 2020 *Facing Up* tells the remarkable story of Bear Grylls' ascent of Everest, making him, at the age of 23, the youngest British climber to survive the adventure.

**The Mountain** Oct 03 2022 In national bestseller *The Mountain*, world-renowned climber and bestselling author Ed Viesturs and cowriter David Roberts paint a vivid portrait of obsession, dedication, and human achievement in a true love letter to the world's highest peak. In *The Mountain*, veteran world-class climber and bestselling author Ed Viesturs—the only American to have climbed all fourteen of the world's 8,000-meter peaks—trains his sights on Mount Everest in richly detailed accounts of expeditions that are by turns personal, harrowing, deadly, and inspiring. The highest mountain on earth, Everest remains the ultimate goal for serious high-altitude climbers. Viesturs has gone on eleven expeditions to Everest, spending more than two years of his life on the mountain and reaching the summit seven times. No climber today is better poised to survey Everest's various ascents—both personal and historic. Viesturs sheds light on the fate of Mallory and Irvine, whose 1924 disappearance just 800 feet from the summit remains one of mountaineering's greatest mysteries, as well as the multiply tragic last days of Rob Hall and Scott Fischer in 1996, the stuff of which *Into Thin Air* was made. Informed by the experience of one who has truly been there, *The Mountain* affords a rare glimpse into that place on earth where Heraclitus's maxim—"Character is destiny"—is proved time and again.

**Touching My Father's Soul** Mar 04 2020 A book of adventure, wisdom and spiritual enlightenment. *Touching My Father's Soul* recounts Tenzing's son, Jamling Norgay's treacherous climb to the world's most forbidding summit. As retold in Krakauer's *Into Thin Air*, the 1996 IMAX climb

**Coronation Everest** Oct 11 2020 'Exquisite, powerful . . . I can think of no better way of commemorating British exploration's culminating triumph.' Simon Winchester? *Coronation Everest* offers a breathtakingly intimate evocation of the most famous of all mountaineering exploits - and of perhaps the last great old-fashioned Fleet Street scoop. 'It was Morris who broke the news that a British-led expedition had conquered Mount Everest the day before the Queen's coronation in 1953 . . . Allied to physical courage in getting down the mountain and a dogged resourcefulness in getting the news home, Morris scooped the world and was launched on one of the most remarkable literary careers in the second half of the twentieth century.' Guardian Jan Morris's collection of travel writing and reportage spans over five decades and includes such titles as *Venice*, *Coronation Everest*, *Hong Kong*, *Spain*, *Manhattan '45*, *A Writer's World* and the *Pax Britannica* Trilogy. Hav, her novel, was shortlisted for the Booker Prize and the Arthur C. Clarke Award.

**The Climb** Aug 21 2021 In May 1996 a number of expeditions attempted to climb Mount Everest on the Southeast Ridge route. Each group contained world class climbers and relative novices, some of whom had paid tens of thousands of pounds for the climb. As they neared the summit twenty-three men and women, including the expedition leaders, were caught in a ferocious blizzard. Disorientated, out of oxygen and depleted of supplies, the climbers struggled to find their way to safety. Experienced high-altitude guide Anatoli Boukreev led an exhausted and terrified group of climbers back to safety before going back out into the blizzard to help others stranded on the mountain. Rescuing a number of people from certain death, he emerged a hero. *The Climb* by Anatoli Boukreev is an honest and gripping account of true endurance and contains interviews with most of the surviving climbers, medical personnel, Sherpa guides, and families of the dead who experienced the tragedy. This edition also includes the transcript of the *Mountain Madness* debriefing, recorded five days after the tragedy, as well as G. Weston de Walt's response to Jon Krakauer.

**One Man's Everest** May 30 2022 Kenton Cool has summited Everest 11 times; is the first person in history to climb the three Everest peaks, the so-called Triple Crown, in one climb, a feat previously thought impossible; and was nominated for the prestigious piolet d'Or in 2004 for climbing a previously unclimbed route on Annapurna III. In 2012 he fulfilled the Olympic Games pledge of placing a 1924 gold medal on the Everest summit. His accomplishments are all the more extraordinary considering a 1996 incident when, while climbing in Wales, he broke a handhold and fell to the ground, shattering his heel bones. Initially told he would never walk unaided again, Kenton spent four weeks in hospital, had three operations, three and a half months in a wheelchair, and months of rehab. Today he is still in pain, and after a long day in the mountains it's not uncommon to see him struggling to walk or moving around on his hands and knees. Yet he still climbs. This book tells why.

**Dark Summit** May 18 2021 Everest - the highest mountain in the world and the ultimate climbing challenge. In 2006, 11 people died attempting to reach the summit, the most fatalities since 1996. But unlike 1996, 2006 saw no surprise blizzard, only the constant dangers posed by unstable ice, merciless cold, thin air - and human nature. Nick Heil tells the shocking true stories of David Sharp, a young British solo climber, who was passed by 40 mountaineers as he lay dying on the slopes of the mountain, and Lincoln Hall who was left for dead yet miraculously survived, and asks: what does climbing the world's highest peak really mean for those who take on the challenge? And how far will they go in their single-minded pursuit of the ultimate mountaineering prize?

**Everest Sep 02 2022** Everest - It's not about the summit, is a remarkable account of a lifelong goal crushed in spectacular fashion two years running by the two worst disasters in Mount Everest's history. Throughout it all the author displays a sense of humility and compassion sharing a heartfelt and emotional twenty year journey. From the streets of northern England through to the valleys and high mountains of Nepal, Ellis Stewart shared his story with thousands of followers on social media, winning over the hearts and minds of many. A ground swell of support sent Ellis to achieve his dream, not once but twice. Nobody could have anticipated the events that would follow. Events that would define the author in ways he couldn't possibly have imagined.

**The Next Everest Nov 11 2020** A dramatic account of the deadly avalanche on Everest—and a return to reach the summit. On April 25, 2015, Jim Davidson was climbing Mount Everest when a 7.8-magnitude earthquake released avalanches all around him and his team, destroying their only escape route and trapping them at nearly 20,000 feet. It was the largest earthquake in Nepal in eighty-one years and killed nearly 8,900 people. That day also became the deadliest in the history of Everest, with eighteen people losing their lives on the mountain. After spending two unsettling days stranded on Everest, Davidson's team was rescued by helicopter. The experience left him shaken, and despite his thirty-three years of climbing and serving as an expedition leader, he wasn't sure that he would ever go back. But in the face of risk and uncertainty, he returned in 2017 and finally achieved his dream of reaching the summit. Suspenseful and engrossing, *The Next Everest* portrays the experience of living through the biggest disaster to ever hit the mountain. Davidson's background in geology and environmental science makes him uniquely qualified to explain why the seismic threats lurking beneath Nepal are even greater today. But this story is not about "conquering" the world's highest peak. Instead, it reveals how embracing change, challenge, and uncertainty prepares anyone to face their next "Everest" in life.

**Into Thin Air Mar 28 2022** Journalist Krakauer, standing on the summit of Mt. Everest, saw nothing that "suggested that a murderous storm was bearing down." He was wrong. The storm, which claimed five lives and left countless more in guilt-ridden disarray, would also provide the impetus for this epic account of the May 1996 disaster. Unabridged. 7 CDs.

**Into The Silence Dec 25 2021** WINNER OF THE 2012 SAMUEL JOHNSON PRIZE A monumental work of history, biography and adventure - the First World War, Mallory and Mount Everest 'The price of life is death' For Mallory, as for all of his generation, death was but 'a frail barrier that men crossed, smiling and gallant, every day'. As climbers they accepted a degree of risk unimaginable before the war. What mattered now was how one lived, and the moments of being alive. While the quest for Mount Everest may have begun as a grand imperial gesture, it ended as a mission of revival for a country and a lost generation bled white by war. In a monumental work of history and adventure, Davis asks not whether George Mallory was the first to reach the summit of Everest, but rather why he kept climbing on that fateful day.

**Life and Death on Mt. Everest Apr 28 2022** The Sherpas were dead, two more victims of an attempt to scale Mt. Everest. Members of a French climbing expedition, sensitive perhaps about leaving the bodies where they could not be recovered, rolled them off a steep mountain face. One body, however, crashed to a stop near Sherpas on a separate expedition far below. They stared at the frozen corpse, stunned. They said nothing, but an American climber observing the scene interpreted their thoughts: Nobody would throw the body of a white climber off Mt. Everest. For more than a century, climbers from around the world have journe-eyed to test themselves on Everest's treacherous slopes, enlisting the expert aid of the Sherpas who live in the area. Drawing on years of field research in the Himalayas, renowned anthropologist Sherry Ortner presents a compelling account of the evolving relationship between the mountaineers and the Sherpas, a relationship of mutual dependence and cultural conflict played out in an environment of mortal risk. Ortner explores this relationship partly through gripping accounts of expeditions--often in the climbers' own words--ranging from nineteenth-century forays by the British through the historic ascent of Hillary and Tenzing to the disasters described in Jon Krakauer's *Into Thin Air*. She reveals the climbers, or "sahibs," to use the Sherpas' phrase, as countercultural romantics, seeking to transcend the vulgarity and materialism of modernity through the rigor and beauty of mountaineering. She shows how climbers' behavior toward the Sherpas has ranged from kindness to cruelty, from cultural sensitivity to derision. Ortner traces the political and economic factors that led the Sherpas to join expeditions and examines the impact of climbing on their traditional culture, religion, and identity. She examines Sherpas' attitude toward death, the implications of the shared masculinity of Sherpas and sahibs, and the relationship between Sherpas and the increasing number of women climbers. Ortner also tackles debates about whether the Sherpas have been "spoiled" by mountaineering and whether climbing itself has been spoiled by commercialism.

**Mountaineering Tourism Jan 02 2020** In May 1993 the British Mountaineering Council met to discuss the future of high altitude tourism. Of concern to attendees were reports of queues on Everest and reference was made to mountaineer Peter Boardman calling Everest an 'amphitheater of the ego'. Issues raised included environmental and social responsibility and regulations to minimize impacts. In the years that have followed there has been a surge of interest in climbing Everest, with one day in 2012 seeing 234 climbers reach the summit. Participation in mountaineering tourism has surely escalated beyond the imagination of those who attended the meeting 20 years ago. This

book provides a critical and comprehensive analysis of all pertinent aspects and issues related to the development and the management of the growth area of mountaineering tourism. By doing so it explores the meaning of adventure and special reference to mountain-based adventure, the delivering of adventure experience and adventure learning and education. It further introduces examples of settings (alpine environments) where a general management framework could be applied as a baseline approach in mountaineering tourism development. Along with this general management framework, the book draws evidence from case studies derived from various mountaineering tourism development contexts worldwide, to highlight the diversity and uniqueness of management approaches, policies and practices. Written by leading academics from a range of disciplinary backgrounds, this insightful book will provide students, researchers and academics with a better understanding of the unique aspects of tourism management and development of this growing form of adventure tourism across the world.

**Just for the Love of It** Apr 16 2021 At 8am on 29 May 1999, Cathy O'Dowd, a 30-year-old mountaineer from South Africa, stepped onto the summit of Everest and into history. She had become the first woman to climb the highest mountain in the world from both its south (Edmund Hillary) and north (George Mallory) sides. To achieve this, Cathy has had to face the ultimate risks of Everest. During her first ascent from the south in 1996, she and her team were trapped in the killer storm described in Jon Krakauer's best seller *Into Thin Air*. They finally reached the summit, only to have the thrill of success snatched away when a team member disappeared on the descent. In 1998 Cathy, attempting the north side of Everest, stopped only a few hundred metres from the summit to try and help a dying American climber. The woman's first words were 'don't leave me'. Yet Cathy eventually had to leave her to save her own life. Now Cathy has captured the drama of her Everest climbs, her passion for the challenge of climbing mountains and her love for wild places in this story of her four attempts on the mountain. Cathy tries to answer the question of why, if climbing Everest can be so dangerous, people still want to do it. In a new chapter, Cathy shares the previously untold story of her fourth Everest expedition, an attempt to climb a new route on the seldom visited and very risky east face of Everest. Storms, avalanches and crevasses all contributed to an expedition fraught with difficulty. This is a book of challenge, of adventure, of love and life and death. This is Everest, the world's highest mountain, climbed 'just for the love of it'.

From being kidnapped by a monk to performing a deadly ritual on Kala Pathar, the trio's mystical adventure slowly turns into a nightmare. Will Jay and Tobias be able to kill a ferocious mountain demon, before it kills Chris? Will they be able to fly back home on time, all in one piece?

**How to Climb Everest** May 06 2020 What does it take to climb the world's highest mountain? This delightful short book reveals everything you need to know about climbing Mount Everest - and who better to tell you than Kami Rita Sherpa, a Nepali guide who holds the record for most ascents to the summit of this extraordinary mountain. In May 2019 he scaled the mountain for the 24th time. From practical considerations to mental preparation, Kami Rita Sherpa leans on years of experience to disclose his secrets. He tells you what to pack, how to train, how to embrace pressure, how to persevere when exhaustion threatens to take over you, how to deal with panic, how to know when to stop and how to cope with defeat. Drawing on observations he's made from watching people fall apart, he delves into the human psyche to reveal what it takes to climb Earth's highest mountain. Along the way, he offers moments of spiritual wisdom, and explains why sherpas always pay homage to the mountain deity through the Purja ceremony. You will find out how to listen to what the mountains are saying, and how to appreciate the silence in this age of noise.

**The Lost Explorer** Jun 18 2021 In 1999, Conrad Anker found the body of George Mallory on Mount Everest, casting an entirely new light on the mystery of the lost explorer. On 8 June 1924, George Leigh Mallory and Andrew 'Sandy' Irvine were last seen climbing towards the summit of Everest. The clouds closed around them and they were lost to history, leaving the world to wonder whether or not they actually reached the summit - some 29 years before Edmund Hillary and Tensing Norgay. On 1 May 1999, Conrad Anker, one of the world's foremost mountaineers, made the momentous discovery - Mallory's body, lying frozen into the scree at 27,000 feet on Everest's north face. Recounting this day, the authors go on to assess the clues provided by the body, its position, and the possibility that Mallory had successfully climbed the Second Step, a 90-foot sheer cliff that is the single hardest obstacle on the north face. A remarkable story of a charming and immensely able man, told by an equally talented modern climber.

**Everest 1953** Oct 23 2021 [CLICK HERE](#) to download a sample from **Everest 1953** In the only book to tell the real story of Everest 1953, Mick Conefrey reveals that what has gone down in history as a supremely well-planned attempt was in fact beset by crises -- both on and off the mountain. To succeed, team leader Colonel John Hunt and his team had to draw on unimaginable skill and determination, as well as sheer British ingenuity. Everest 1953 is not only a gripping true story of courage and adventure, but a fascinating window into the media contest to cover this seminal event in coronation year. The Times had exclusive access to the team, but the Daily Mail and other papers used subterfuge and shenanigans to get their scoops. Revealing the answers to long-enduring controversies -- did Tenzing or Hillary actually reach the top first? -- and exploring the legacy of this great ascent, it is the perfect way to commemorate a year of British sporting triumph.

**The Call of Everest** Aug 01 2022 In 1963, the American Mount Everest Expedition made mountaineering history. It was the first American venture to successfully scale the legendary peak and the first successful climb up the hazardous West Ridge (a climb so difficult no one has yet repeated it). In 2012, adventurer Conrad Anker led a National Geographic/The North Face team up the mountain to enact a legacy climb. Environmental changes and overcrowding led to challenges and disappointments, but yet the mountain maintains its allure. Now, steely-eyed Anker leads a team of writers in a book designed to celebrate the world's most famous mountain, to look back over the years of climbing triumphs and tragedies, and to spotlight what has changed - and what remains eternal - on Mount Everest. Telltale signs of Everest's current state, never-before-published photography, and cutting-edge science expose the world's tallest peak - its ancient meaning, its ever-present challenges, and its future in a world of disappearing ice.

What emerges is a shocking story of fatal human errors, a twisting tale in which life and death decisions are distorted by ambition, ego and greed.

**The Third Pole** Jul 28 2019 \*\*\*NPR Books We Love selection\*\*\* "If you're only going to read one Everest book this decade, make it *The Third Pole*. . . . A riveting adventure."—*Outside* Shivering, exhausted, gasping for oxygen, beyond doubt . . . A hundred-year mystery lured veteran climber Mark Synnott into an unlikely expedition up Mount Everest during the spring 2019 season that came to be known as "the Year Everest Broke." What he found was a gripping human story of impassioned characters from around the globe and a mountain that will consume your soul—and your life—if you let it. The mystery? On June 8, 1924, George Mallory and Sandy Irvine set out to stand on the roof of the world, where no one had stood before. They were last seen eight hundred feet shy of Everest's summit still "going strong" for the top. Could they have succeeded decades before Sir Edmund Hillary and Tensing Norgay? Irvine is believed to have carried a Kodak camera with him to record their attempt, but it, along with his body, had never been found. Did the frozen film in that camera have a photograph of Mallory and Irvine on the summit before they disappeared into the clouds, never to be seen again? Kodak says the film might still be viable. . . . Mark Synnott made his own ascent up the infamous North Face along with his friend Renan Ozturk, a filmmaker using drones higher than any had previously flown. Readers witness first-hand how Synnott's quest led him from oxygen-deprivation training to archives and museums in England, to Kathmandu, the Tibetan high plateau, and up the North Face into a massive storm. The infamous traffic jams of climbers at the very summit immediately resulted in tragic deaths. Sherpas revolted. Chinese officials turned on Synnott's team. An Indian woman miraculously crawled her way to frostbitten survival. Synnott himself went off the safety rope—one slip and no one would have been able to save him—committed to solving the mystery. Eleven climbers died on Everest that season, all of them mesmerized by an irresistible magic.

The Third Pole is a rapidly accelerating ride to the limitless joy and horror of human obsession.

**Dead Lucky** Jul 08 2020 'A gripping, almost unbelievable story of survival that offers insight into a largely misunderstood domain.' The Sun Herald Lincoln Hall set off for Everest in early May 2006. Five weeks after reaching Base Camp in Tibet, he began his push for the summit. After three days of climbing higher into the oxygenless air, he was blessed with a perfect summit day. For a few minutes, Hall was the highest man on the planet. His Sherpa companions arrived, photos were taken, and the climbers commenced their long descent. Then things began to go horribly wrong. Hall was struck by cerebral oedema - high-altitude sickness - in the aptly named 'death zone'. Drowsiness quickly became overpowering lethargy, and he collapsed in the snow. Two Sherpas spent hours trying to revive him, but as darkness fell he was pronounced dead. The expedition's leader ordered the Sherpas to descend to save themselves. The news of Hall's death travelled rapidly from mountaineering websites to news media around the world, and by satellite phone to Hall's family in Australia. Early the next day, Dan Mazur, an American mountaineering guide with two clients and a Sherpa, was startled to find Hall sitting cross-legged on the knife-edged crest of the summit ridge. Hall's first words - 'I imagine you are surprised to see me here' - were a massive understatement. Much was reported in the press about Hall's resurrection, but only he has real insight into what happened, and how he survived that longest night. **Dead Lucky** is Lincoln Hall's own account of climbing Everest during a deadly season in which eleven people perished on the world's highest mountain.

**Killer Storm** Dec 01 2019 **Killer Storm: the third and final book in the Everest Files trilogy** by Matt Dickinson. His obsession with summiting Mount Everest is as strong as ever, but a climbing accident puts his plans on hold. As soon as Ryan recovers, he and Tashi journey deep into the Himalaya. Old friends have come back into their lives and invited them on the adventure. On the way they discover disturbing news: Nepal's summer rains have failed and the country is in chaos. There are riots in the cities. Bandits roam the hills. As they arrive at Base Camp, a violent terrorist attack kicks off. Ryan and his friends are held hostage. Escape is their only option, but all the trails are guarded. They must head for Everest's deadly slopes. The friends battle against the elements to keep one step ahead of the terror leader as the chase intensifies ... Storm clouds gather high on the mountain. The scene is set for the ultimate Everest adventure.

**Ghosts of Everest** Jul 20 2021 Did Mallory and Irvine reach Everest's summit 30 years before Hillary and Tenzing? Until now, clues about what happened to these two Everest pioneers had been scant and misleading. Until now, no one has known whether they reached the summit. Until now, no one has known where or how they perished. This is a detective story of the first order. It is the story not just of Mallory and Irvine's last climb, but of the team of climbers and researchers who, together, found the body of perhaps Britain's greatest mountaineer and uncovered the startling story he had waited so long to reveal. Written by the three key members of the team, and incorporating extensive interviews with other team members, **GHOSTS OF EVEREST** is the dramatic unfolding of both the 1999 and 1924 expeditions, woven together into a compelling narrative. This book is the definitive account and has become an instant classic.

**Scale Your Everest** Oct 30 2019 While Erik Z. Severinghaus has been to the top of the physical world (literally climbing Everest) and the business world (exiting companies for hundreds of millions of dollars), what has defined his journey is not the successes...but rather, the hard times of loneliness and self-doubt that nearly cost him his accomplishments and his life. Every entrepreneur experiences these same crippling challenges but no one talks about them, and consequently, entrepreneurs have three times the rate of addiction and twice the rate of suicide of the general population. This guidebook passes along the lessons needed in those dark times, with the hope that it will help every entrepreneur who is going through this struggle understand their journey and build the mental resiliency to succeed.

**Everest 1922** Sep 21 2021 Though it remains by far the world's most famous mountain, in recent years Everest's reputation has changed radically, with long queues of climbers on the Lhotse Face, lurid tales of frozen corpses and piles of high altitude trash. It wasn't always like this though. Once Everest was remote and inaccessible, a mysterious place, where only the bravest and most heroic dared to tread. The first attempt on Everest in 1922 by George Leigh Mallory and a British team is an extraordinary story full of controversy, drama and incident, populated by a set of larger than life characters straight out of Boys Own and Indiana Jones. The expedition ended in tragedy when, on their third bid for the top, Mallory's party was hit by an avalanche that left seven men dead. Using diaries, letters, published and unpublished accounts, Mick Conefrey creates a rich character driven narrative, exploring the motivations and private dramas of key individuals and detailing the back room politics and bitter rivalries that lay behind this epic adventure.

**MOUNT EVEREST** Feb 24 2022 "The Mount Everest Committee of the Royal Geographical Society and the Alpine Club desire to express their thanks to Colonel Howard-Bury, Mr. Wollaston, Mr. Mallory, Major Morshead, Major Wheeler and Dr. Heron for the trouble they have taken to write so soon after their return an account of their several parts in the joint work of the Expedition. They have thereby enabled the present Expedition to start with full knowledge of the results of the reconnaissance, and the public to follow the progress of the attempt to reach the summit with full information at hand." -Preface

**Seven Steps from Snowdon to Everest** Feb 01 2020 As he teetered on a narrow rock ledge a yak's bellow short of the stratosphere, with a rubber mask strapped to his face, a pair of mittens the size of a sealion's flippers, and a drop of two kilometres below him, it's fair to say Mark Horrell wasn't entirely happy with the situation he found himself in. He had been an ordinary hiker who had only read books about mountaineering. When he signed up for an organised trek in Nepal with a group of elderly ladies, little did he know that ten years later he would be attempting to climb the world's highest mountain. But as he travelled across the Himalayas, Andes, Alps and East Africa, following in the footsteps of the pioneers, he dreamed up a seven-point plan to gain the skills and experience which could turn a wild idea into reality. Funny, incisive and heartfelt, his journey provides a refreshingly honest portrait of the joys and torments of a modern-day Everest climber.

**The Other Side of Everest** Jun 06 2020 May 1996 began like most other climbing seasons on Mount Everest. The arrival of spring brought the usual pre-monsoon period, with teams of hopeful mountaineers ready to reach for the roof of the world. Among the dozens of climbers were Jon Krakauer and Anatoli Boukreev (who would both later write their own accounts of what followed) and Matt Dickinson. But on May 10, with ten different expeditions strung out along the mountain, the usual turned deadly. Suddenly, the temperature dropped from merely frigid

to 40 degrees below zero. A killer storm with howling winds swept in and climbers were soon blinded in white-out conditions. Before it was over, the blizzard would claim a dozen lives, the worst loss of life in the modern history of climbing on Everest. Dickinson, an adventure filmmaker, was part of an expedition challenging the treacherous North Face of Everest, on the Tibetan side. Of the nearly 700 people who have scaled Everest since the first ascent in 1953, barely 230 have managed to ascend via the colder and technically more difficult route up the North Face. In addition to climbing through the storm, which would test him beyond his imagining, Dickinson also filmed the ascent. He and his team watched in awe as violent clouds gathered over the mountain and swept them all up in a frightening white force. Dickinson was a relative novice who had never climbed at this crushing altitude, and the storm preyed on his mind, throwing into question his entire mission. Despite this uncertainty and the treacherous conditions, Dickinson and his partner Alan Hinkes continued their climb, compelled to reach the summit. Dickinson's first-person narrative--the only account of the killer storm written by a climber who was on the North Face--places the reader amid the swirl of the catastrophe, while providing rare insight into the very essence of mountaineering. *The Other Side of Everest* is a portrait of personal triumph set against the most disastrous storm to ever befall the world mountaineering community. Anyone who has ever pushed beyond familiar limits of physical and psychological endurance will cherish this book.
