Surveying Fiberglass Sailboats: A Step-by-Step Guide for Buyers and Owners Aug 25 2021

Since the late 1950s, when the first "plastic" sailboat shocked the New York Boat Show, fiberglass boatbuilding has gone through classic growing pains. Longtime yacht broker and marine surveyor Henry Mustin has seen it all: the slow acceptance of those early, heavy boats; the market boom of the lighter boats of the 1970s; the "boat pox" scare of the 1980s; and the continued lack of industry standards that makes buying and owning a

fiberglass boat an adventure.

In *Surveying Fiberglass Sailboats* Mustin explains what to watch for in a used sailboat from each era, and how to ferret out the hidden defects in any boat. He shows how to estimate the cost of repairs and the value of a boat. And he addresses the question: When is a fiberglass boat too used up to save? Mustin's part-by-part look at hull, deck, rig, and machinery is both a minicourse for transforming used-boat shopping from a game of craps to a science, and the first step in a holistic boat maintenance program. His discussion of the significance of cracks found in aging hulls and decks is the most thorough in print. He is not shy in assessing the lack of regulation of professional surveyors, nor does he shrink from pointing a finger at shoddy building practices. Having a used boat surveyed is a critical prelude to buying it. Yet a professional survey is expensive--several hundred dollars. *Surveying Fiberglass Sailboats* will enable you to conduct your

The Essentials of Living Aboard a Boat May 10 2020 The Essentials of Living Aboard educates both dreamers and explorers with information about this wonderful and rewarding lifestyle. Mark

Nicholas has combined his experience of life aboard with the advice of other liveaboards, marina owners, technicians, boat manufacturers and advocates in order to detail the challenges and offer real advice for success. This lifestyle, typically thought to be out of reach or "for other people," is now available to all who dream. Essentials explains, among other things how to:

- Figure out your needs
 - Choose the right boat
 - Buy your boat
 - Choose the right marina
 - Prepare for the lifestyle
 - Outfit your boat

sanitation issues, legal issues, tips, tricks, and techniques, and more. Of special interest are the warnings about search, seizure, and forfeiture ... An absolute "must-have" for anyone considering making a boat one's permanent dwelling.- Midwest Book Review - October 2004 As a lifelong boater, and one with Joanne, my wife of 48 years, we begin our second decade of living on board a boat. I feel Mark Nicholas has done extensive study in gaining a worldwide appreciation and understanding of what it takes, not only to buy a boat and maintain it, but what one can expect within that lifestyle.... the challenges, adjustments, financial expectations as well as the joys inherent in this experience. Mark has probably done the most complete investigation and reporting of any we know of. Maybe living aboard is not for everyone, but you are not signing your life away, even if you just want to enjoy it for a limited time. There is just no comparison to sitting within 4 walls when one

considers either cruising in open waters, or just sitting idly by on the deck or cockpit, with open breezes and the sun warming your back, listening to the birds, slap of the water on the hull, or other activities around you. This even works when rain is gently falling beyond. There are also those challenges with weather...you against the elements. You are both above and within nature at its best. God surely meant it to be that way.- Don Stonehill, Chairman, Liveaboard Assn of Puget Sound

RYA Boat Handling for Sail and Power (E-G68) Jul 12 2020 As most of us have discovered, really embarrassing bad boat handling moments happen when we are in a harbour or marina. Without fail there will always be an audience usually of fellow boaters (and your crew!) who, while initially being sympathetic are unlikely ever to let you forget it! Most boaters agree that "take offs and landings" are the most difficult and stressful areas of

boating but that once the general principles and rules are mastered you are soon able to deal safely and confidently with most common situations. The object of the eBook edition of the RYA Boat Handling for Sail and Power is to help you gain a fuller understanding of boat handling by dealing with a wide variety of situations in a thoughtful and logical way. Expert advice in easy to follow text combined with illustrations make this eBook an essential tool to everyone who takes a boat out on the water.

The Complete Guide to Choosing a Cruising

Sailboat Jan 18 2021 In this one-of-a-kind book, leading boat designer Roger Marshall walks you through the process of choosing the perfect boat for your sailing lifestyle. Along the way, you will acquire a deep understanding of the many factors that go into a boat's performance, comfort, and seaworthiness, and learn how to choose among them to meet your requirements and preferences. Best of all, you'll find Marshall's 12-page comparison table of production sailboats from all over the world, packed with information about 130 boats - length, beam, draft, displacement, ballast, sail area, fuel and water capacities, performance ratios, capsize and comfort ratios, and more, all tabulated for convenient and revealing comparisons.

Narrowboat Nomads Aug 13 2020 ' We were aware of a dreamlike quality to our trip. There was something far-fetched about it, something out of this world.' Austerity might

be getting everyone else down, but Steve is waving his worries goodbye on another of his light-hearted trips around the picturesque English waterways. This time it's a bit different, though. This time he's not just cruising with his cat, Kit, but with his long-suffering wife, Em, who's given up work and wants her share of easy living too. They've rented out their home for the ups and downs of a life afloat, and there's no going back now as they cruise from the historic River Thames, through the Midlands and westward into the hills of Wales, meeting a familiar cast of eccentrics and oddballs along the way, and experiencing one of the hottest summers of recent years. But how, after life in a four-bedroom house, do they manage to survive together squeezed into a space the size of a potting shed? Other books pretend to tell you about life afloat - this one shows you what it's really like.

Note: if your plans are to sail to the Arctic we'll have to skip the idea of physically meeting. We don't do cold...This is who we are...If you haven't bumped into us before - My family consists of my husband Simon (British), my daughter, Sienna (age 9 at the time of writing) and me - I'm Kim (American). In 2013 my family and I sold all our possessions, purchased our sailboat Britican (British and American put together) and headed out to sea. The rat race wasn't working for us so we

decided to find another way to live. We've been sailing around the world ever since. So far we've sailed over 30,000 miles and that includes circumnavigating the Mediterranean, crossing the Atlantic Ocean (took 18 days), enjoying our way up the Caribbean Islands, taking a break from sailing (but not the boat) in Charleston, South Carolina and we've most recently sailed back down the Caribbean island chain all the way to Trinidad and Tobago. And 'no' we did not have loads of sailing experience before we left land. So let me tell you why I wrote this guide for you...The sailing community is full of great people. The people who work in the sailing industry (boat brokers, sailing service professionals, marina managers, etc.), however, are often disingenuous, corrupt people. New and old sailors are getting ripped off all the time. And the place where they get ripped off the most is when they purchase a boat. So, a big issue that new sailboat owners have to contend with is paying

way too much for a boat and/or getting a boat that isn't in the condition as advertised or expected. The next biggest issue is information overload. There's so much information nowadays that it's hard to figure out what you need to know and when you need to know it. That goes for buying a sailboat and transitioning into the cruising lifestyle. Buying a sailboat is NOT like buying a car or a house. In both those cases, the consumer is far more protected. And changing lifestyles from land to sea is not something that most people have done before. There's a massive learning curve on both accounts! That being stated, this guide will outline ten steps to buying a boat for the purposes of cruising long term (6 months +). This guide will help you to clarify your thought process, avoid making mistakes and it will certainly help to save you money. Ultimately it will provide you with a clearer perspective about some of the issues involved with buying a boat and transitioning to a life on the sea.
