[The War of the Motor Gun Boats Mar 19 2022](#) Tony Chapman was born in Southampton in 1924. Aged 16 he watched with horror as the historic High Street of Southampton burnt to the ground in a firestorm caused by a heavy German bombing raid on the night of 30 November 1940. He vowed to join up and fight back. Tony joined the Navy. Within hours of being posted to his first Motor Gun Boat, Telegraphist Tony Chapman was involved in an epic Coastal Forces engagement when his flotilla took on a force of thirty E-boats. Although their unit of two MGBs sank three E-boats, it was at a high cost. Half of Tony's shipmates were killed or injured. This was the start of an eventful and dramatic wartime service with these little warships. Tony's flotilla operated in the Mediterranean and Aegean where the Motor Gun Boats played a key role in this important but often neglected theatre. Daily life on these small ships is vividly described. The flotilla had a busy time showing the flag in the Levant and on combined operations in the Aegean with the Greek Sacred Regiment of Commandos. The culmination of their efforts was when Tony's boat, ML838, took the surrender of the Island of Kos in 1945. Written from the perspective of one of the other ranks, War of the Motor Gun Boats fills an important gap in the literature of the Second World War. As featured in the North Devon Journal and Exmoor Magazine.

**American Shooter Nov 15 2021** Gun ownership has long been a hot-button topic in the United States, and the National Rifle Association has the reputation of being an organization of primarily politically conservative members. American Shooter provides a unique look at gun ownership, handgun bans, shooting sports, and the controversy over how to interpret the Second Amendment from the point of view of a liberal gun owner and enthusiast. Gerry Souter examines the history of firearms in the United States, from the settlers who carried matchlock muskets ashore at Jamestown to the citizens who purchase guns in record numbers today. Recent Supreme Court decisions that uphold the right to bear arms have galvanized citizens on both sides of the debate, making the gun issue hotter than ever. To provide a personal view, Souter weaves in tales of his own experiences with guns, including sport shooting as a young man, hunting and bonding with his father, and facing the smoking end of a muzzle as an international photojournalist. American Shooter is both a history and a personal journey that traces the path of American gun ownership culture from the Revolution to today. It recounts how the country has lived with guns from the flintlock hung over the fireplace to the concealed-carry, laser-sighted Glock semiautomatic pistol tucked away in the hidden pocket of a mom's purse.

**Johnny Get Your Gun Oct 26 2022** At the age of seventeen-and-a-half, full of idealism and patriotism, John Tucker enlisted as an Infantryman in the London Kensington Regiment and reached France, after training, in August 1915. Against all odds he survived three years of bitter trench warfare, was seriously wounded, and returned to Blighty a few months before Armistice Day. During those years he took part in the Battle of the Somme, the battles of Arras and Cambrai, and the Third Battle of Ypres. Yet though his patriotism remained unflinching, his idealism gave way to the grim realities of day to day survival in the trenches and, as he began to understand what constitutes courage, he grew from boyhood to manhood. The author contrasts the beauties of the French countryside with the ugliness of widespread death and destruction, and paints a picture of French country life hardly less squalid than the soldiers' own lot. But above all, he makes the reader realise what it was like to fight in the war to end all wars. These are the memoirs of one Infantryman, but through his eyes a vivid canvas of the whole war gradually unfolds.

**Adolescent Gun Violence Prevention Jul 31 2020** Each year, gun violence kills approximately 2,700 and injures approximately 14,500 children in the U.S.; the overwhelming majority of child gun deaths are among teenagers who die by homicide or suicide. Gun violence is the leading cause of death for Black teens. A recent spate of high-profile tragedies involving children, such as the Newtown mass shooting in 2012 and the Parkland mass shooting in 2018, have reinvigorated a national debate about the role of guns in our private and public spaces. Physicians, and in particular pediatricians, have become increasingly vocal about the need to address the epidemic of gun violence in the U.S. This book serves as an in-depth, comprehensive guide to adolescent gun violence prevention. It describes the epidemiology of teen gun violence in the U.S. by focusing on the parallel epidemics that claim the most lives: gun suicide among rural white males, and gun homicide among urban Black males. It offers in-depth reviews of key concepts that are crucial to reaching a meaningful understanding of gun violence. The text also addresses specific methods of intervention at various levels of society, from the individual; to the local community; and finally to the entire nation. This first of its kind book is a valuable reference for physicians, public health scientists, policy-makers, gun reform advocates, and anyone interested in working towards a safer future for young people.
