Social Media in India Jul 01 2022 Social media is acutely prone to misuse—thanks to its independent and undisciplined nature—necessitating regulation. The book addresses this concern, analysing critical sociopolitical issues related to social media regulation and discussing the latest developments in India. Social Media in India: Regulatory Needs, Issues and Challenges reviews the values of freedom of expression, privacy and regulation, and proposes strategies to balance the triad, aiding policy formation, at a time when the Indian government and significant social media intermediaries are in a standoff over the newly ordained IT rules. This book covers all aspects that need to be examined for the overhaul of the regulatory framework including addiction, awareness, rampant misinformation, political applications and conflicts. Highlighting such social and user-centric challenges to the sustainability of online social networks, the book argues for the need of a robust regulatory framework and advocates an attitude adjustment about privacy and social media in the age of disinformation.

Handbook of Ethnic Conflict Jan 15 2021 Although group conflict is hardly new, the last decade has seen a proliferation of conflicts engaging intrastate ethnic groups. It is estimated that two-thirds of violent conflicts being fought each year in every part of the globe including North America are ethnic conflicts. Unlike traditional warfare, civilians comprise more than 80 percent of the casualties, and the economic and psychological impact on survivors is often so devastating that some experts believe that ethnic conflict is the most destabilizing force in the post-Cold War world. Although these conflicts also have political, economic, and other causes, the purpose of this volume is to develop a psychological understanding of ethnic warfare. More specifically, Handbook of Ethnopolitical Conflict explores the function of ethnic, religious, and national identities in intergroup conflict. In addition, it features recommendations for policy makers with the intention to reduce or ameliorate the occurrences and consequences of these conflicts worldwide.

It brings out the historical tendencies in so far as they affect the then state of the Press in the country, and serves as a background to the Press Commission enquiry.

A Study on the Usage of Internet by Working Women of Vadodara City for Performing Their Household Responsibilities Sep 10 2020 The internet is a system of enormous technical and social complexity. It comprises a gigantic but almost invisible universe that includes thousands of networks, millions of computers, and billions of users around the world. The internet has widened its reach among people by taking them away from just using it for emails and chat rooms to giving them more alternative media tools to use from. It has given power to the masses to speak about their rights, share their views on particular topics or events, and showcase their abilities to the world. It also provides an opportunity to learn an endless amount of different things, viz. different languages, cuisines, arts, crafts, and much more. The internet can be whatever we make of it. We can shape and form it. But most importantly, we can use it to connect people, communities, and countries around the world. In 2014, India was the third-largest online market with more than 198 million internet users, ranked only behind China and the United States and declaring itself as a market not to be ignored on the global stage. Furthermore, men dominated internet usage with 61 percent, while only 39 percent of women used it. The average daily online usage in India amounted 5.1 hours. There are 345 million users in India, counted in January 2016. With the growing needs of humans, it has become a challenge for women to fulfill all their responsibilities and to perform all their roles at the same time. Therefore, their dependency on family members, helpers/maids, friends, neighbors, and the media has increased. Media here includes print (i.e. newspaper, magazine, tabloids), electronic (i.e. television, radio), and new media (i.e. internet and mobile technology). This study evaluates how the internet can help working women to perform their household responsibilities.

The Goenka Letters Apr 17 2021

History Of Journalists Organisations In Madras May 31 2022 The Press in India had been a powerful force since its inception. It not only influenced the minds of the people but has also remained a guiding star in the lives of succeeding generations. During the Colonial era, journals and newspapers started and managed by the nationalist Indians rattled British authorities and forced them to introduce stringent measures against the Press, particularly against the Vernacular Press. Many a time, journals and newspapers were to face proscription from the imperial authorities, as fiery articles, they feared, would push the nation into great chaos. Such was the power of the Press. Since no journalist organisation in Chennai had all the documents related to the study, I made use of websites of different organisations, newspapers and magazines. However, a large chunk of information was culled out from the documents preserved in the office of the Madras Union of Journalists. I profusely thank its office bearers for permitting me the access. But for their help, the task of documentation and study would have been more strenuous. As indicated elsewhere in this book, the splits in journalist's unions has split their office records also. Hence a yawning gap is noticed in the history of different unions in Chennai. Some organisations have only limited records in the form of their constitution, occasional newsletters or handouts.

Srinivasa Ramanujan Oct 24 2021 This book offers a unique account on the life and works of Srinivasa Ramanujan—often hailed as the greatest “natural” mathematical genius. Sharing valuable insights into the many stages of Ramanujan's life, this book provides glimpses into his prolific research on highly composite numbers, partitions, continued fractions, mock theta functions, arithmetic, and hypergeometric functions which led the author to discover a new summation theorem. It also includes the list of Ramanujan's collected papers, letters and other material present at the Wren Library, Trinity College in Cambridge, UK. This book is a valuable resource for all readers interested in Ramanujan's life, work and indelible contributions to mathematics.

India 2020 Aug 10 2020 In this ground-breaking vision document, first published in 1998, Dr A.P.J. Abdul Kalam and Y.S. Rajan offer a blueprint for India to be counted among the world's top five economic powers by the year 2020. They cite growth rates and development trends to show that the goal is not unrealistic. Past successes—the green revolution and satellite-based communication linking remote regions of the country, for instance—bear them out. The same sense of purpose can make us a prosperous, strong nation in a matter of years, assert Kalam and Rajan. This is a book that every citizen who hopes for a better India must read.
