Asahi Pentax and Pentax SLR 35mm Cameras Aug 30 2022 The Asahi Optical company rightly claimed that the history of Pentax cameras is the history of the 35mm SLR. More than any other manufacturer, Asahi has been responsible for the 35mm SLR becoming the universal camera for all serious amateurs and many professionals. They pioneered many of the technical advances that make the SLR the near perfect instrument it is today. This story is told by Danilo Cecchi through the many models produced during nearly forty years.

Photography the F Manual Sep 30 2022 The book contains the essential basic concepts to understand the photographic process. The author is explaining all the concepts and rules photography is based on, giving a general theory. Luigi's book talks about everything from f stops to file formats, the difference between JPG and TIF and how image scaling and DPI relate. His section on how camera, computer monitor and printer color calibration works is explained so well, you'll never forget it (just think toast). It even has in-depth explanations on photo composition, HDR (High Dynamic Range) photography, depth of field, printing your images, publishing, and more. Luigi's English is pretty good yet his lovely Italian flavor and sense of humor still come through.

Captain on the High Seas Jan 23 2022 11 Book Synopsis "Only sixty candidates were to be selected from more than fifty thousand boys who had written the qualifying examination. One hundred and twenty candidates who got the highest marks in the examination would be called for interview in Bombay out of which sixty unfortunate boys would have to return home. Two seats were booked for boys from Ceylon - Sri Lanka. Our state of Travancore-Cochin of those days, later named Kerala, had a quota of six cadets." In 1957, author Augustine Varghese was one of those boys chosen for a career in the Indian Merchant Marine. His life from the time of getting selected on the merchant training ship Dufferin covers his life through the ranks from apprenticeship as officer cadet, to getting Certificates of Competency, passing the final Master (Foreign-Going) Certificate, working on merchant ships as junior officer, senior officer, and finally as master (captain). The ship Dufferin was named in honour of Lord Dufferin, who had been a highly respected viceroy of the British Government to India. After being chosen from those fifty thousand applicants so many years ago, the author says, "It was almost miraculous that I stepped on that ship." Here then is his exciting story of his life spent at sea.

Secret Green Beret Commandos in Cambodia Jan 11 2021 We could call this book Special Operations Recon Mission Impossible. A small group of highly trained, resourceful US Special Forces (SF) men is asked to go in teams behind the enemy lines to gather intelligence on the North Vietnamese Army units that had infiltrated through Laos and Cambodia down the Ho Chi Minh trails to their secret bases inside the Cambodian border west of South Vietnam. The covert reconnaissance teams, of only two or three SF men with four or five experienced indigenous mercenaries each, were tasked to go into enemy target areas by foot or helicopter insertion. They could be 15 kilometers beyond any other friendly forces, with no artillery support. In sterile uniforms - with no insignia or identification, if they were killed or captured, their government would deny their military connection. The enemy had placed a price on their heads and had spies in their Top Secret headquarters known as SOG. SOG had three identical recon ground units along the border areas. This book tells the history of Command and Control Detachment South (CCS). The CCS volunteer warriors and its Air Partners the Army and Air Force helicopter transport and gunship crews who lived and fought together and sometimes died together. This is the first published history of CCS as compiled by its last living commander, some forty years after they were disbanded. It tells of the struggles and intrigue involved in SOGs development as the modern-day legacy of our modern Special Operations Commands. Forbidden to tell of their experiences for over twenty years; their After Action Reports destroyed even before they were declassified surviving veterans team together to tell how Recon men wounded averaged 100 percent; and SOG became the most highly decorated unit in Vietnam and all were awarded the Presidential Unit Citation.
