Biennial Report of the Commissioner of Public Lands and Buildings to the Governor of the State of Nebraska Mar 08 2020

Translation and Minority Sep 06 2022 The premise of this volume is a question: What can the concept of minority bring to the practice and study of translation? Minority is understood here to mean a cultural or political position that is subordinate, whether the social context that so defines it is local, national or global. This position is occupied by languages and literatures that lack prestige or authority, the non-standard and the non-canonical, what is not spoken or read much by a hegemonic culture. Yet minorities also include the nations and social groups that are affiliated with these languages and literatures, the politically weak or underrepresented, the colonized and the disenfranchised, the exploited and the stigmatized. Translation today is itself a minor use of language, a lesser art, an invisible craft that commands less cultural capital and fewer legal privileges than original composition. Yet the focus in this collection is not on what translators worldwide have in common but on the distinctive forms that translating takes when it is done by or on behalf of minorities. The articles in this volume present a variety of case studies that illuminate the linguistic and cultural problems posed by such translating, as well as the economic and political agendas it has served. Together, these pieces show that the concept of minority is worth exploring because it inspires innovation in translation practice and research. Minor cultures are coincident with new translation strategies, new translation theories, and new syntheses of the diverse methodologies that constitute the discipline of translation studies.

Human-Machine Interaction in Translation Oct 15 2020 Includes 19 papers which were selected for presentation at the workshop and the text of invite keynote lectures. The workshop provided an attractive interdisciplinary forum for fostering interactions among researchers and practitioners in Natural Language Processing (NLP) working within the paradigm of Cognitive Science (CS)

Computational Linguistics and Intelligent Text Processing Jul 12 2020 This two-volume set, consisting of LNCS 7816 and LNCS 7817, constitutes the thoroughly refereed proceedings of the 13th International Conference on Computer Linguistics and Intelligent Processing, CICLING 2013, held on Samos, Greece, in March 2013. The total of 91 contributions presented was carefully reviewed and selected for inclusion in the proceedings. The papers are organized in topical sections named: general techniques; lexical resources; morphology and tokenization; syntax and named entity recognition; word sense disambiguation and coreference resolution; semantics and discourse; sentiment, polarity, subjectivity, and opinion; machine translation and multilingualism; text mining, information extraction, and information retrieval; text summarization; stylometry and text simplification; and applications.

Chinese Lexical Semantics Feb 16 2021 This book constitutes carefully reviewed and revised selected papers from the 13th Chinese Lexical Semantics Workshop, CLSW 2012, held in Wuhan, China, in July 2012. The 67 full papers and 17 short papers presented in this volume were carefully reviewed and selected from 169 submissions. They are organized in topical sections named: applications on natural language processing; corpus linguistics; lexical computation; lexical resources; lexical semantics; new methods for lexical semantics; and other topics.

A Ready Reckoner of the new customs' duties on wines and spirits, in wood and bottle. To which is added, tables, shewing the over-proof chargeable or under proof allowable, on spirits in bottles Nov 15 2020

The First Two Quartos of Hamlet Aug 13 2020 It is nearly two centuries since the first quarto of Hamlet was rediscovered, yet there is still no consensus about its relationship to the second quarto. Indeed, the first quarto, the least frequently read Hamlet, has been dismissed as "corrupt," "inferior" or like "a mutilated corpse," even though in performance it has been described as "the absolute dynamo behind the play." Currently one hypothesis dominates explanations about the quartos' interrelationship, supposing that the first quarto (published 1603) was reconstructed from memory by one or more actors who had performed minor roles in a version of the second quarto (published 1604-5). The present study reports on a detailed linguistic reassessment of the principal arguments for memorial reconstruction. The evidence--including a three way comparison between the underlying French source in Les Histoires Tragiques and the two quartos, and the informal features and specific grammatical aspects, and a documented memorial reconstruction in 1779--does not support the dominant hypothesis. The cumulative evidence suggests that the earliest scholars to examine the first quarto were right: the 1603 Hamlet came first, and the second quarto is a substantial, later revision.

A Dictionary of Shakespeare's Sexual Puns and Their Significance Aug 01 2019 '...Rubinstein is far from innocent and comes to our aid with a lot of learning...and is quite right to urge that not to appreciate the sexiness of Shakespeare's language impoverishes our own understanding of him. For one thing, it was a strong element in his appeal to Elizabethans, who were much less woolly-mouthed and smooth-tongued than we are. For another, it has constituted a salty preservative for his work, among those who can appreciate it...an enlightening book.' A.L.Rowse, The Standard.

Natural Language Processing and Chinese Computing May 02 2022 This two-volume set of LNAI 13028 and LNAI 13029 constitutes the refereed proceedings of the 10th CCF Conference on Natural Language Processing and Chinese Computing, NLPCC 2021, held in Qingdao, China, in October 2021. The 66 full papers, 23 poster papers, and 27 workshop papers presented were carefully reviewed and selected from 446 submissions. They are organized in the following areas: Fundamentals of NLP; Machine Translation and Multilinguality; Machine Learning for NLP; Information Extraction and Knowledge Graph; Summarization and Generation; Question Answering; Dialogue Systems; Social Media and Sentiment Analysis; NLP Applications and Text Mining; and Multimodality and Explainability.

The Palgrave Handbook of Humour, History, and Methodology Jul 04 2022 This handbook addresses the methodological problems and theoretical challenges that arise in attempting to understand and represent humour in specific historical contexts across cultural history. It explores problems involved in applying modern theories of humour to historically-distant contexts of humour and points to the importance of recognising the divergent assumptions made by different academic disciplines when approaching the topic. It explores problems of terminology, identification, classification, subjectivity of viewpoint, and the coherence of the object of study. It addresses specific theories, together with the needs of specific historical case-studies, as well as some of the challenges of presenting historical humour to contemporary audiences through translation and curation. In this way, the handbook aims to encourage a fresh exploration of methodological problems involved in studying the various significances both of the history of humour and of humour in history.

Courtesans at Table Aug 05 2022 First published in 2003. Routledge is an imprint of Taylor & Francis, an informa company.

Generating Creative Language - Theories, Practice and Evaluation Sep 01 2019 This thesis presents approaches to computationally creative natural

language generation focusing on theoretical foundations, practical solutions and evaluation. I defend that a theoretical definition is crucial for computational creativity and that the practical solution must closely follow the theoretical definition. Finally, evaluation must be based on the underlying theory and what was actually modelled in the practical solution. A theoretical void in the existing theoretical work on computational creativity is identified. The existing theories do not explicitly take into account the communicative nature of natural language. Therefore, a new theoretical framework is elaborated that identifies how computational creativity can take place in a setting that has a clear communicative goal. This introduces a communicative-creative trade off that sets limits to creativity in such a communicative context. My framework divides creativity in three categories: message creativity, contextual creativity and communicative creativity. Any computationally creative NLG approach not taking communicativity into account is called mere surface generation. I propose a novel master-apprentice approach for creative language generation. The approach consists of a genetic algorithm, the fitness functions of which correspond to different parameters defined as important for the creative task in question from a theoretical perspective. The output of the genetic algorithm together with possible human authored data are used to train the apprentice, which is a sequence-to-sequence neural network model. The role of the apprentice in the system is to approximate creative autonomy. Evaluation is approached from three different perspectives in this work: ad-hoc and abstract, theory-based and abstract, and theory-based and concrete. The first perspective is the most common one in the current literature and its shortcomings are demonstrated and discussed. This starts a gradual shift towards more meaningful evaluation by first using proper theories to define the task being modelled and finally reducing the room for subjective interpretation by suggesting the use of concrete evaluation questions.

Sociolinguistics Research in the Journey of Time Nov 08 2022 Sir BudiYana, we dedicate this book to you. It mostly contains your ideas and inspiration to your students which hopefully be the lasting memory of our coolest friend and our source of inspiration who has a high taste of humor and has better knowledge and understanding. You have been a constant source of support and encouragement during the moments of challenges and predicament of our faculty. We are truly thankful for having you in our school. You have been the source of our strength throughout the journey of our faculty and it is you who have encouraged us all the way through and whose encouragement has made us sure that we will give it all it takes to finish that which you have started as it is you whose good examples have taught us to work hard for the things that you aspire to achieve. On behalf of FLA Lecturers Anton Suratno

The Indian Ready Reckoner, Containing Tables for Ascertaining the Value of Any Number of Articles, Etc. from 3 Pies to 5 Rupees. Also Tables of Wages from 4 Annas to 25 Rupees and Other Useful Tables Jun 22 2021

Nag Hammadi, Gnosticism, and Early Christianity Dec 29 2021 [This] book acquaints the beginner with the topic of gnosticism and early Christianity and presents to the specialist some of the new frontiers their colleagues are exploring. For the beginner there is a concise introduction to gnosticism. It covers the issues of origin, literature, leading ideas, and possible links with early Christianity. Each contributor has prepared a preface to his or her paper that points to its salient features and explains how the essay fits into the overall subject of the book. --from the Preface

Natural Language Processing and Chinese Computing Sep 25 2021 This two-volume set of LNAI 12340 and LNAI 12341 constitutes the refereed proceedings of the 9th CCF Conference on Natural Language Processing and Chinese Computing, NLPCC 2020, held in Zhengzhou, China, in October 2020. The 70 full papers, 30 poster papers and 14 workshop papers presented were carefully reviewed and selected from 320 submissions. They are organized in the following areas: Conversational Bot/QA; Fundamentals of NLP; Knowledge Base, Graphs and Semantic Web; Machine Learning for NLP; Machine Translation and Multilinguality; NLP Applications; Social Media and Network; Text Mining; and Trending Topics.

The Routledge Handbook of Language and Humor Jun 03 2022 The Routledge Handbook of Language and Humor presents the first ever comprehensive, in-depth treatment of all the sub-fields of the linguistics of humor, broadly conceived as the intersection of the study of language and humor. The reader will find a thorough historical, terminological, and theoretical introduction to the field, as well as detailed treatments of the various approaches to language and humor. Deliberately comprehensive and wide-ranging, the handbook includes chapter-long treatments on the traditional topics covered by language and humor (e.g., teasing, laughter, irony, psycholinguistics, discourse analysis, the major linguistic theories of humor, translation) but also cutting-edge treatments of internet humor, cognitive linguistics, relevance theoretic, and corpus-assisted models of language and humor. Some chapters, such as the variationist sociolinguistics, stylistics, and politeness are the first-ever syntheses of that particular subfield. Clusters of related chapters, such as conversation analysis, discourse analysis and corpus-assisted analysis allow multiple perspectives on complex trans-disciplinary phenomena. This handbook is an indispensable reference work for all researchers interested in the interplay of language and humor, within linguistics, broadly conceived, but also in neighboring disciplines such as literary studies, psychology, sociology, anthropology, etc. The authors are among the most distinguished scholars in their fields.

Marketing and Consumer Behavior: Concepts, Methodologies, Tools, and Applications Nov 27 2021 As marketing professionals look for ever more effective ways to promote their goods and services to customers, a thorough understanding of customer needs and the ability to predict a target audience's reaction to advertising campaigns is essential. Marketing and Consumer Behavior: Concepts, Methodologies, Tools, and Applications explores cutting-edge advancements in marketing strategies as well as the development and design considerations integral to the successful analysis of consumer trends. Including both in-depth case studies and theoretical discussions, this comprehensive four-volume reference is a necessary resource for business leaders and marketing managers, students and educators, and advertisers looking to expand the reach of their target market.

Using Technologies for Creative-Text Translation Oct 07 2022 This collection reflects on the state of the art of research into the use of translation technologies in the translation of creative texts, encompassing literary texts but also extending beyond to cultural texts, and charts their development and paths for further research. Bringing together perspectives from scholars across the discipline, the book considers recent trends and developments in technology that have spurred growing interest in the use of computer-aided translation (CAT) and machine translation (MT) tools in literary translation. Chapters examine the relationships between translators and these tools—the extent to which they already use such technologies, the challenges they face, and prevailing attitudes towards these tools—as well as the ethical implications of such technologies in translation practice. The volume gives special focus to drawing on examples with and beyond traditional literary genres to look to these technologies' use in working with the larger group of creative texts, setting the stage for many future research opportunities. The book will be of particular interest to students and scholars in translation studies, especially those with an interest in literary translation, translation technology, translation practice, and translation ethics. Chapter 3 of this book is freely available as a downloadable Open Access PDF under a Creative Commons Attribution-Non Commercial-No Derivatives 4.0 license available at <http://www.taylorfrancis.com>

Jewish Studies at the Turn of the Twentieth Century, Volume 1: Biblical, Rabbinical, and Medieval Studies Jan 18 2021 169 papers from the Toledo Congress of the European Association for Jewish Studies, offering a broad, realistic perspective on the advances, achievements and anxieties of Judaic Studies, from the Bible to our days, on the eve of the new millennium.

Gagged and Bound Dec 17 2020 Gagged and Bound is a riotous, rapid-fire collection of over 500 original gags written by pun-loving jokesmith Nick Jones. With a mixture of witty one-liners, playful puns and dubious dad jokes, coupled with some great visual gags illustrated by Tiffany Sheely, Gagged and Bound will leave you grinning like a maniac - so probably best not to read it while travelling on public transport. "It's what it says on the tin: a succession of one-liners, puns and dad jokes going at your laughing muscles in a joyously pell-mell, headlong way. It's irresistible." - The Bookbag "I would recommend this book to anyone looking for a joke book that's varied and full of easy one-liners." - Reader's Favorite "This is a very funny book" - Red City Review Jokes include: When I'm in the kitchen with my wife and I ask her for the sieve, she always throws it at me. She's pass-sieve aggressive. What happens when herbs get into debt? They receive a visit from the bay leaf. Every dog has its day. It's called International Dog Day. I've written a self-help book for people trying to lose weight but it hasn't been very successful. It's called Help Yourself.

Humour in Self-Translation Aug 25 2021 This book explores an important aspect of human existence: humor in self-translation, a virtually unexplored area of research in Humour Studies and Translation Studies. Of the select group of international scholars contributing to this volume some examine literary texts from different perspectives (sociological, philosophical, or post-colonial) while others explore texts in more extraneous fields such as standup comedy or language learning. This book sheds light on how humour in self-translation induces thoughts on social issues, challenges stereotypes, contributes to recast individuals in novel forms of identity and facilitates reflections on our own sense of humour. This accessible and engaging volume is of interest to advanced students of Humour Studies and Translation Studies.

CONCUR 2002 - Concurrency Theory Jan 30 2022 Presents a collection of papers that were presented at the International Conference on

Concurrency Theory covering such topics as logic, probabilistic systems, models of computation, and Petri nets.

Handbook of Research on the Impact of Culture and Society on the Entertainment Industry May 22 2021 "This reference provides a review of the academic and popular literature on the relationship between communications and media studies, cinema, advertising, public relations, religion, food tourism, art, sports, technology, culture, marketing, and entertainment practices"--Provided by publisher.

Traductio Dec 05 2019 Nothing like wordplay can make difference between languages look so uncompromising, can give such a sharp edge to the dilemma between forms and effects, can so blur the line between translation and adaptation, or can cast such harsh light on our illusion of complete semantic stability. In the pun the whole language system may resonate, and so may literary traditions and ideological discourses. It follows that the pun does not only put translators to the test, it also poses a challenge to the views and concepts of those who study translation. This book brings together experts on translation and the pun, as well as researchers representing a variety of other relevant disciplines and schools of thought, ranging from theology to deconstruction and from contrastive linguistics to feminism. It can be read as a companion volume to *Wordplay and Translation*, a special issue of *The Translator* (Volume 2, Number 2, 1996), also edited by Dirk Delabastita

The Temple of Ramesses II in Abydos Jun 30 2019 Of all the enormous monuments throughout Egypt and Nubia that Ramesses II (the Great; ca. 1279-1212 BCE) left behind, his temple at Abydos, built early in his reign, stands as one of his most elegant, with its simple architectural layout and dramatic and graceful painted relief scenes. Though best known for its dramatic reliefs depicting the battle of Kadesh, the temple also offers a wealth of information about religious and social life in ancient Egypt. It reflects, for example, the strenuous efforts of the early Ramessides to reestablish the Osiris cult in Egypt-and particularly at Abydos-in the aftermath of the Amarna period. Building on the comprehensive photographic and epigraphic documentation of the temple presented in *The Temple of Ramesses II at Abydos* volumes 1 (Wall Scenes) and 2 (Pillars, Niches, and Miscellanea), volume 3 (Architectural and Inscriptional Features) offers a detailed analysis of the overall architectural layout and decorative program of the temple and its symbolism. This discussion approaches the religious history of the site through its archaeology, its inscriptions-both planned and secondary (graffiti)-and its situation in the complex religious landscape of Abydos. Of particular interest are the temple's role as a staging point for the great Osiris Festival and its procession, among the most important of all ritual events in the Egyptian religious calendar during the Ramesside period; the promotion of an active, unbound form of Osiris; and the evidence for important cult activities that took place on the rooftop of the temple, the presence of which is documented today by the staircase that accessed it from Court B.

Earth Science Success Feb 28 2022 Make ongoing, classroom-based assessment second nature to your students and you. *Everyday Assessment in the Science Classroom* is a thought-provoking collection of 10 essays on the theories behind the latest assessment techniques. The authors offer in-depth "how to" suggestions on conducting assessments as a matter of routine, especially in light of high-stakes standards-based exams, using assessment to improve instruction, and involving students in the assessment process. The second in NSTA's Science Educator's Essay Collection, *Everyday Assessment* is designed to build confidence and enhance every teacher's ability to embed assessment into daily classwork. The book's insights will help make assessment a dynamic classroom process of fine-tuning how and what you teach... drawing students into discussions about learning, establishing criteria, doing self-assessment, and setting goals for what they will learn.
