Energy Independence Sep 24 2021 Energy Independence is the essential guide to the most viable and affordable alternative energy solutions for the everyday consumer—including solar panels, wind generators, hydrogen fuel cells, wood, hydro-electric, geothermal heat pumps, and more. For all those seeking either to supplement their traditional fuel-burning furnace or to revamp their home, this book has what they need to get started. They'll learn about the most progressive and advanced options as well as tried and true energy conservation techniques. They'll learn how much each method costs, and how quickly they will recoup any investment. Also including a chapter on alternative-fuel cars, this book has been revised and updated with the most recent stats, technology, costs, and advice. It is a must for anyone—urbanite, suburbanite, or rural dweller—who relies on traditional oil-burning sources but has decided it's high time to be proactive both about cutting fuel costs and achieving freedom from fossil fuel dependence.

Stolen Past Oct 14 2020 Doug Fletcher, a retired Minnesota detective, relocates to Arizona and a quiet life as a part-time National Park Service ranger. His plans change abruptly when a suspicious fall at a national monument plunges him into the world of stolen antiquities, ruthless drug smugglers, and shady antiques dealers. Working with Jamie Ballard of the Navajo Nation Police, Doug finds their investigation complicated by the demands of his visiting family, a new boss, an overly friendly neighbor, the FBI, and his new environment. Review Snippets “Hovey’s greatest strength is his artful use of suspense.” “Hovey writes a well-researched story with realistic characters who aren’t just cardboard cutouts like so many writers that crank out potboilers.”

Mathematics for Elementary School Teachers May 01 2022 Mathematics for Elementary School Teachers is designed to give you a profound understanding of the mathematical content that you are expected to know and be able to teach. The chapters integrate the National Council of Teachers of Mathematics (NCTM) Standards and Expectations and the new Common Core State Standards, as well as research literature. The five NCTM Process Standards of problem solving, reasoning and proof,

communication, connections, and representation highlight ways that teachers present content, the ways that students learn content, and various ways that students can demonstrate procedural and conceptual understanding. The worked examples and homework questions provide prospective elementary school teachers with opportunities to develop mathematical knowledge, understanding, and skills that they can apply in their own classrooms effectively. The learning path begins with the Where Are We Going? Chapter Openers, worked Examples with Yellow Markers that indicate the Process Standards throughout the text, to the Concept Maps, to the Section Question Sets with their refreshers of Process Standards, to the Chapter Organizers with Learning Outcomes and a list of the corresponding Review Questions, and finally, conclude at the Chapter Tests with their overarching Learning Outcomes.
