**Asian Sources Gifts & Home Products** Sep 13 2021

**Catalog of Sears, Roebuck and Company** Sep 01 2020

**Flow Equalization** May 09 2021 Discusses equalization of wastewater flows at municipal wastewater treatment plants. Focuses on equalization of dry weather flows. Includes performance and case histories.

**Plumbing Engineer** Nov 15 2021

*Manual práctico de sistemas de riego localizado* Mar 19 2022 Este libro pertenece a la colección de Manuales Prácticos de Agricultura de Mundi-Prensa. Es una obra clara y práctica, que, sin perder rigor, ofrece toda la información para que el lector, principiante o profesional, pueda diseñar y gestionar un riego por goteo, tanto al aire libre

como en cultivo protegido. Este manual describe los procedimientos necesarios para definir cada elemento del riego localizado, todos ellos ilustrados mediante numerosas figuras y ejemplos de cálculo para una mejor comprensión de los mismos. Se aporta un resumen amplio de conceptos básicos para la metodología presentada y se proporcionan casos resueltos y propuestos con la solución, para que el lector pueda comprobar si realmente ha comprendido el fenómeno. Antonio Jesús Zapata Sierra es Dr. Ingeniero Agrónomo por la Universidad de Córdoba y Profesor Titular de Ingeniería Hidráulica en la Universidad de Almería desde hace 25 años. Es autor de trabajos científicos e informes profesionales en el ámbito de la hidrología y el riego en zonas áridas.

*Contemporary Challenges in Cooperation and Coopetition in the Age of Industry 4.0* Nov 22 2019 This proceedings volume provides a fresh perspective on current challenges in cooperation and coopetition in the age of Industry 4.0. Featuring selected papers from the 10th Conference on Management of Organizations' Development (MOD) held in Zamek Gniew, Poland, this volume extends the knowledge of cooperation and coopetition, presents analytic tools used in the research, considers the potential impact of Industry 4.0 on collaboration, and provides recommendations for managerial practice. Interorganizational relations have been a relevant topic in the management sciences in recent years. Globalization, social, cultural, and technological progress are among the factors shaping the environment for collaboration, determining the conditions for development and defining a set of new challenges that managers have to face in today's knowledge-based economy. This book, therefore, explores emerging problems of organizational development in the light of the needs and challenges of Industry 4.0. Combining the latest theory and practice, the volume provides a realistic outlook on the network economy and interdependencies both within and between sectors.

**Domestic Wastewater Treatment in Developing Countries** Nov 03 2020 Affordable and effective domestic wastewater treatment is a critical issue in public health and disease prevention around the world, particularly so in developing countries which often lack the financial and technical resources necessary for proper treatment facilities. This practical guide provides state-of-the-art coverage of methods for domestic wastewater treatment and provides a foundation to the practical design of wastewater treatment and re-use systems. The emphasis is on low-cost, low-energy, low-maintenance, high-performance 'natural' systems that contribute to environmental sustainability by producing effluents that can be safely and profitably used in agriculture for crop irrigation and/or in aquaculture, for fish and aquatic vegetable pond fertilization. Modern design methodologies, with worked design examples, are described for waste stabilization ponds, wastewater storage and treatment reservoirs; constructed wetlands, upflow anaerobic sludge blanket reactors, biofilters, aerated lagoons and oxidation ditches. This book is essential reading for engineers, academics

and upper-level and graduate students in engineering, wastewater management and public health, and others interested in sustainable and cost-effective technologies for reducing wastewater-related diseases and environmental damage.
