The Practicing Mind Jan 15 2021 In those times when we want to acquire a new skill or face a formidable challenge we hope to overcome, what we need most are patience, focus, and discipline, traits that seem elusive or difficult to maintain. In this enticing and practical book, Thomas Sterner demonstrates how to learn skills for any aspect of life, from golfing to business to parenting, by learning to love the process. Early life is all about trial-and-error practice. If we had given up in the face of failure, repetition, and difficulty, we would never have learned to walk or tie our shoes. So why, as adults, do we often give up on a goal when at first we don't succeed? Modern life's technological speed, habitual multitasking, and promises of instant gratification don't help. But in his study of how we learn (prompted by his pursuit of disciplines such as music and golf), Sterner has found that we have also forgotten the principles of practice — the process of picking a goal and applying steady effort to reach it. The methods Sterner teaches show that practice done properly isn't drudgery on the way to mastery but a fulfilling process in and of itself, one that builds discipline and clarity. By focusing on “process, not product,” you'll learn to live in each moment, where you'll find calmness and equanimity. This book will transform a sense of futility around learning something challenging into an attitude of pleasure and willingness.

God's Feminist Movement Sep 30 2019 Experience True Liberation by Seeing Your Beauty, Femininity, and Freedom From Heavens Point of View Has Christianity kept women trapped in the stone age? In many ways, yes; but this is not by Gods design. As society offers women opportunities to explore outer-space and govern nations, the church often stifles and limits them. The tide is changing, though. Amber Picotas Gods Feminist Movement is a new covenant manifesto calling women to embrace their true identity in Christ and fulfill their destiny as revolutionaries who shape the course of history with the Kingdom of God. There is a powerful new feminist movement emerging in the body of Christ. Its not politically driven and its not being championed by an uprising of angry man-haters. Based on an intense study of Scripture, factoring in historical and contextual hermeneutics and original languages, Picota shares a practical, non-legalistic, and non-traditional (yet deeply Biblical) look at topics that women commonly face, such as: Dating and Modesty Female Leaders in the Church Submission in Marriage Beauty and Self-Image Celebrate the power and beauty of womanhood. God has given you permission to change the worldby being you! Break off religious traditions that keep women trapped in old school legalism and move beyond Christian clichs that minimize a womans true position in Christ!

A Mind For Numbers Oct 31 2019 The companion book to COURSERA®'s wildly popular massive open online course "Learning How to Learn" Whether you are a student struggling to fulfill a math or science requirement, or you are embarking on a career change that requires a new skill set, A Mind for Numbers offers the tools you need to get a better grasp of that intimidating material. Engineering professor Barbara Oakley knows firsthand how it feels to struggle with math. She flunked her way through high school math and science courses, before enlisting in the army immediately after graduation. When she saw how her lack of mathematical and technical savvy severely limited her options—both to rise in the military and to explore other careers—she returned to school with a newfound determination to re-tool her brain to master the very subjects that had given her so much trouble throughout her entire life. In A Mind for Numbers, Dr. Oakley lets us in on the secrets to learning effectively—secrets that even dedicated and successful students wish they'd known earlier. Contrary to popular belief, math requires creative, as well as analytical, thinking. Most people think that there's only one way to do a problem, when in actuality, there are often a number of different solutions—you just need the creativity to see them. For example, there are more than three hundred different known proofs of the Pythagorean Theorem. In short, studying a problem in a laser-focused way until you reach a solution is not an effective way to learn. Rather, it involves taking the time to step away from a problem and allow the more relaxed and creative part of the brain to take over. The learning strategies in this book apply not only to math and science, but to any subject in which we struggle. We all have what it takes to excel in areas that don't seem to come naturally to us at first, and learning them does not have to be as painful as we might think.

Can't Hurt Me May 19 2021 New York Times Bestseller Over 2.5 million copies sold For David Goggins, childhood was a nightmare - poverty, prejudice, and physical abuse colored his days and haunted his nights. But through self-discipline, mental toughness, and hard work, Goggins transformed himself from a depressed, overweight young man with no future into a U.S. Armed Forces icon and one of the world's top endurance athletes. The only man in history to complete elite training as a Navy SEAL, Army Ranger, and Air Force Tactical Air Controller, he went on to set records in numerous endurance events, inspiring Outside magazine to name him The Fittest (Real) Man in America. In this curse-word-free edition of Can't Hurt Me, he shares his astonishing life story and reveals that most of us tap into only 40% of our capabilities. Goggins calls this The 40% Rule, and his story illuminates a path that anyone can follow to push past pain, demolish fear, and reach their full potential.

Breathe Out Jun 27 2019 From the publishers of the bestselling The Wellbeing Journal comes the follow-up, Breathe Out, specifically designed for teenagers and the unique challenges younger people face.

How to Make Disease Disappear Dec 02 2019 A much-needed program to prevent and reverse disease, and discover a path to sustainable, long-term health from an acclaimed international doctor and star of the BBC program Doctor in the House. How to Make Disease Disappear is Dr. Rangan Chatterjee's revolutionary, yet simple guide to better health—a much-needed, accessible plan that will help you take back control of your health and your life. A physician dedicated to finding the root cause of ill health rather than simply suppressing symptoms with drugs, Dr. Chatterjee passionately advocates and follows a philosophy that lifestyle and nutrition are first-line medicine and the cornerstone of good health. Drawing on cutting edge research and his own experiences as a doctor, he argues that the secret to preventing disease and achieving wellness revolves around four critical pillars: food, relaxation, sleep, and movement. By making small, incremental changes in each of these key areas, you can create and maintain good health—and alleviate and prevent illness. As Dr. Chatterjee, reveals we can

reverse and make disease disappear without a complete overhaul of our lifestyle. His dynamic, user-friendly approach is not about excelling at any one pillar. What matters is balance in every area of your life, which includes: Me-time every day An electronic-free Sabbath once a week Retraining your taste buds Daily micro-fasts Movement snacking A bedtime routine Practical and life-changing, How to Make Disease Disappear is an inspiring and easy-to-follow guide to better health and happiness.

Secrets of the Millionaire Mind Jan 03 2020 Secrets of the Millionaire Mind reveals the missing link between wanting success and achieving it! Have you ever wondered why some people seem to get rich easily, while others are destined for a life of financial struggle? Is the difference found in their education, intelligence, skills, timing, work habits, contacts, luck, or their choice of jobs, businesses, or investments? The shocking answer is: None of the above! In his groundbreaking Secrets of the Millionaire Mind, T. Harv Eker states: "Give me five minutes, and I can predict your financial future for the rest of your life!" Eker does this by identifying your "money and success blueprint." We all have a personal money blueprint ingrained in our subconscious minds, and it is this blueprint, more than anything, that will determine our financial lives. You can know everything about marketing, sales, negotiations, stocks, real estate, and the world of finance, but if your money blueprint is not set for a high level of success, you will never have a lot of money—and if somehow you do, you will most likely lose it! The good news is that now you can actually reset your money blueprint to create natural and automatic success. Secrets of the Millionaire Mind is two books in one. Part I explains how your money blueprint works. Through Eker's rare combination of street smarts, humor, and heart, you will learn how your childhood influences have shaped your financial destiny. You will also learn how to identify your own money blueprint and "revise" it to not only create success but, more important, to keep and continually grow it. In Part II you will be introduced to seventeen "Wealth Files," which describe exactly how rich people think and act differently than most poor and middle-class people. Each Wealth File includes action steps for you to practice in the real world in order to dramatically increase your income and accumulate wealth. If you are not doing as well financially as you would like, you will have to change your money blueprint. Unfortunately your current money blueprint will tend to stay with you for the rest of your life, unless you identify and revise it, and that's exactly what you will do with the help of this extraordinary book. According to T. Harv Eker, it's simple. If you think like rich people think and do what rich people do, chances are you'll get rich too!

A Beautiful Mind Oct 12 2020 A Beautiful Mind is Sylvia Nasar's award-winning biography about the mystery of the human mind, the triumph over incredible adversity, and the healing power of love. At the age of thirty-one, John Nash, mathematical genius, suffered a devastating breakdown and was diagnosed with schizophrenia. Yet after decades of leading a ghost-like existence, he was to re-emerge to win a Nobel Prize and world acclaim. A Beautiful Mind has inspired the Oscar-winning film directed by Ron Howard and featuring Russell Crowe in the lead role of John Nash.

Arc of Justice Jul 29 2019 An electrifying story of the sensational murder trial that divided a city and ignited the civil rights struggle In 1925, Detroit was a smoky swirl of jazz and speakeasies, assembly lines and fistfights. The advent of automobiles had brought workers from around the globe to compete for manufacturing jobs, and tensions often flared with the KKK in ascendancy and violence rising. Ossian Sweet, a proud Negro doctor-grandson of a slave-had made the long climb from the ghetto to a home of his own in a previously all-white neighborhood. Yet just after his arrival, a mob gathered outside his house; suddenly, shots rang out: Sweet, or one of his defenders, had accidentally killed one of the whites threatening their lives and homes. And so it began-a chain of events that brought America's greatest attorney, Clarence Darrow, into the fray and transformed Sweet into a controversial symbol of equality. Historian Kevin Boyle weaves the police investigation and courtroom drama of Sweet's murder trial into an unforgettable tapestry of narrative history that documents the volatile America of the 1920s and movingly re-creates the Sweet family's journey from slavery through the Great Migration to the middle class. Ossian Sweet's story, so richly and poignantly captured here, is an epic tale of one man trapped by the battles of his era's changing times. Arc of Justice is the winner of the 2004 National Book Award for Nonfiction.

It's All in the Mind Apr 05 2020 The body of a dancer is found in a flat a stone's throw away from the house where Mitchell Brooks lives, but it might just as well be a million miles away. Traumatized by events he experienced as a news cameraman Mitch is trapped in his house where every day becomes the same. He spends his days living through the lives of others, his sister, his doctor, and the friends who call to see him, until one day a stranger rings his bell. Afterwards, it seems he can't avoid being sucked in to the events surrounding the murder until he makes a disturbing discovery.
