**The Mayor of Mogadishu** Nov 07 2020 The Mayor of Mogadishu tells the story of one family's epic journey through Somalia's turmoil, from the optimism of independence to its spectacular unravelling. Mohamud 'Tarzan' Nur was born a nomad, and became an orphan, then a street brawler in the cosmopolitan port city of Mogadishu - a place famous for its cafes and open-air cinemas. When Somalia collapsed into civil war, Tarzan and his young family joined the exodus from Mogadishu, eventually spending twenty years in North London. But in 2010 Tarzan returned to the unrecognisable ruins of a city largely controlled by the Islamist militants of Al-Shabaab. For some, the new Mayor was a galvanising symbol of defiance. But others branded him a thug, mired in the corruption and clan rivalries that continue to threaten Somalia's revival. The Mayor of Mogadishu is an uplifting story of survival, and a compelling examination of what it means to lose a country and then to reclaim it.

Where was he during the time of the murder? Joined by journalist Clarence Abernathy and their friend Jake Woods, Ollie pushes the investigation forward. Soon all three are drawn deep into corruption and political tensions that threaten to destroy them—and anyone who tries to help. But they’re in too deep to quit. They’ve got no choice. **What Fresh Lunacy is This?** Jul 04 2020 Oliver Reed may not have been Britain's biggest film star - for a period in the early 70s he came within a hairsbreadth of replacing Sean Connery as James Bond - but he is an august member of that small band of people, like George Best and Eric Morecambe, who transcended their chosen medium, became too big for it even, and grew into cultural icons. For the first time Reed's close family has agreed to collaborate on a project about the man himself. The result is a fascinating new insight into a man seen by many as merely a brawling, boozing hellraiser. And yet he was so

much more than this. For behind that image, which all too often he played up to in public, was a vastly complex individual, a man of deep passions and loyalty but also deep-rooted vulnerability and insecurities. Why was a proud, patriotic, intelligent, successful and erudite man so obsessed about proving himself to others, time and time again? Although the Reed myth is of Homeric proportions, he remains a national treasure and somewhat peculiar icon. Praise for other books by Robert Sellers: *Hellraisers: The Life and Inebriated Times of Richard Burton, Richard Harris, Peter O'Toole, and Oliver Reed*: 'So wonderfully captures the wanton belligerence of both binging and stardom you almost feel the guys themselves are telling the tales.' GQ. Vic Armstrong: *The True Adventures of the World's Greatest Stuntman*: 'This is the best and most original behind-the-scenes book I have read in years, gripping and revealing.' Roger Lewis, Daily Mail. *Don't Let the Bastards Grind You Down*: '...a rollicking good read... Sellers has done well to capture a vivid snapshot of this exciting time.' Lynn Barber, Sunday Times.

**Anthropocene Islands** Dec 21 2021 ‘A must read ... a new analytical agenda for the Anthropocene, coherently drawing out the power of thinking with islands.’ – Elena Burgos Martinez, Leiden University ‘This is an essential book. [The] analytics they propose ... offer both a critical agenda for island studies and compass points through which to navigate the haunting past, troubling present, and precarious future.’ – Craig Santos Perez, University of Hawai’i, Manoa ‘All academic books should be like this: hard to put down. Informative, careful, sometimes devastating, yet absolutely necessary - if you read one book about the Anthropocene let it be this. You will never think of islands in the same way again.’ – Kimberley Peters, University of Oldenburg ‘... a unique journey into the Anthropocene. Critical, generous and compelling’. — Nigel Clark, Lancaster University The island has become a key figure of the Anthropocene – an epoch in which human entanglements with nature come increasingly to the fore. For a long time, islands were romanticised or marginalised, seen as lacking modernity’s capacities for progress, vulnerable to the effects of catastrophic climate change and the afterlives of empire and coloniality. Today, however, the island is increasingly important for both policy-oriented and critical imaginaries that seek, more positively, to draw upon the island’s liminal and disruptive capacities,

especially the relational entanglements and sensitivities its peoples and modes of life are said to exhibit. *Anthropocene Islands: Entangled Worlds* explores the significant and widespread shift to working with islands for the generation of new or alternative approaches to knowledge, critique and policy practices. It explains how contemporary Anthropocene thinking takes a particular interest in islands as 'entangled worlds', which break down the human/nature divide of modernity and enable the generation of new or alternative approaches to ways of being (ontology) and knowing (epistemology). The book draws out core analytics which have risen to prominence (Resilience, Patchworks, Correlation and Storiation) as contemporary policy makers, scholars, critical theorists, artists, poets and activists work with islands to move beyond the constraints of modern approaches. In doing so, it argues that engaging with islands has become increasingly important for the generation of some of the core frameworks of contemporary thinking and concludes with a new critical agenda for the Anthropocene.
