**Green Boating** Oct 14 2021 The coastal and archipelago areas in the Baltic Sea are popular destinations for a number of tourists. An important group of tourists is boaters, who visit the coastal areas during a short summer period. Boat owners are sometimes pictured as having a great interest for the nature and a willingness to do right. Pollution from pleasure boats such as discharges of oil and fuel, antifouling paints and cleaning agents have a negative impact on the coastal environment. Environmentally sound alternatives exist to some extent, but are not very common. Sustainable alternatives for boaters are lacking behind. One of the underlying purposes of this study was to understand how we can help boat owners change their behaviour and decrease the negative impact on the marine environment. The survey among boaters has been conducted in Finland, Sweden and

Denmark with a web based survey ordered by the Keep Sweden Tidy Foundation together with Keep the Archipelago Tidy Association in Finland and the Danish Outdoor Council. The research was performed by SIFO Research International.

**Physical Methods in Heterocyclic Chemistry** Apr 08 2021 Physical Methods in Heterocyclic Chemistry, Volume IV, discusses the application of physical methods to organic chemistry, and in particular to heterocyclic chemistry. Since the publication in 1963 of the first two volumes of this treatise, the application of physical methods to organic chemistry, and in particular to heterocyclic chemistry, has proceeded apace. The importance of physical methods to structure determination and to the understanding of inter- and intramolecular interactions has increased no less than the flood of new work. Heterocyclic chemists are thus faced with the necessity of having more to comprehend for the efficient execution of their own work. The present volume includes chapters on electric dipole moments and heteroaromatic reactivity, which originally appeared in Volume I, and chapters on nuclear quadrupole resonance, nuclear magnetic resonance, and infrared spectra, which originally formed part of Volume II. Also included is one new topic: dielectric absorption.

**Swansong 1945** Nov 22 2019 A monumental work of history that captures the last days of the Third Reich as never before. Swansong 1945 chronicles the end of Nazi Germany and World War II in Europe through hundreds of letters, diaries, and autobiographical accounts covering four days that fateful spring: Hitler's birthday on April 20, American and Soviet troops meeting at the Elbe on April 25, Hitler's suicide on April 30, and finally the German surrender on May 8. Side by side, we encounter vivid, first-person accounts of civilians fleeing Berlin, ordinary German soldiers determined to fight to the bitter end, American POWs dreaming of home, concentration-camp survivors' first descriptions of their horrific experiences, as well as the intimate thoughts of figures such as Eisenhower, Churchill, Stalin, Joseph Goebbels, and Hitler himself. These firsthand accounts, painstakingly collected and organized by renowned German author Walter Kempowski, provide the raw material of history and present a panoramic view of those tumultuous days. The more than 1,000 extracts include a British soldier writing to his parents to tell them there are no baths but plenty of eggs and chocolate, an American soldier describing "the tremendous burst of lilacs" as he approaches the Elbe, Mussolini wishing Hitler a happy birthday, Eva Braun bragging to a girlfriend about what a "crack shot" she's become, and much more. An extraordinary account of suffering and survival, Swansong 1945 brings to life the end of Nazi Germany and the war in Europe.

**Young Jesus Chronicles** Jan 17 2022 Though biblical scholars have searched for centuries, little is known about the childhood of Jesus. Fortunately, this incomplete picture gives Spencer Smith and Mark Penta ample room for their entertaining and highly imaginative cartoon book Young Jesus Chronicles. With a tongue-in-cheek premise that the book is the result of a recently unearthed account of Jesus's formative years as deciphered by Vatican-authorized experts (that is, cartoonists Smith and Penta), Young Jesus Chronicles is a clever and lighthearted collection of cartoons that celebrates the joy of puns and wordplay as much as it rewards you for paying attention in Sunday Bible school. We may never know the answer to the question, WWJD (What Would Jesus Draw)? But there's a chance (albeit very slim) the answer might be a cartoon memoir of His childhood similar to Young Jesus Chronicles.

[Marine Diesel Engines](#) Aug 12 2021 The diesel engine is by far the most popular powerplant for boats of all sizes, both power and sail. With the right care and maintenance it is twice as reliable as the petrol engine as it has no electrical ignition system, which in the marine environment can suffer from the effects of damp surroundings. Self-sufficiency at sea and the ability to solve minor engine problems without having to alert the lifeboat is an essential part of good seamanship. Marine Diesel Engines, explains through diagrams and stage-by-stage photographs everything a boat owner needs to know to keep their boat's engine in good order; how to rectify simple faults and how to save a great deal of money on annual service charges. Unlike a workshop manual that explains no more than how to perform certain tasks, this book offers a detailed, step-by-step guide to essential maintenance procedures whilst explaining exactly why each job is required.

**Boat Mechanical Systems Handbook** Feb 18 2022 The First Ever Guide for Optimizing Boat Systems This guide is invaluable for anyone designing or installing mechanical systems on a new boat, retrofitting an existing boat, or evaluating a boat's operating condition. Writing for designers, builders, owners, buyers, mechanics, surveyors, and insurers of sailboats, powerboats, and commercial vessels, Dave Gerr provides design and installation guidance for each major mechanical system plus pragmatic guidelines and real-world interpretations of American Boat & Yacht Council (ABYC) and European standards. No marine professional or serious boater should be without Boat Mechanical Systems Handbook. "Dave Gerr has a knack for breaking down the more esoteric concepts of naval architecture into language that's easily understood by the layman, which is one of the reasons why his writing often appears in the pages of SAIL. Another reason is his deep practical knowledge of the intricacies and subtleties of boat construction and systems, and the way they relate to each other. The subhead of Boat Mechanical Systems Handbook says it all--'how to design, install and recognize proper systems in boats.' Light reading this isn't, but if you're about to refit your boat or upgrade outdated systems, perhaps with some serious voyaging in mind, this book is a worthwhile investment. This is a unisex book, for both powerboaters and sailors; there's no

mention of sailing rigs, but every other conceivable system is covered more or less exhaustively." --PETER NIELSEN, SAIL, November 2009 Praise for Dave Gerr's previous books: *The Elements of Boat Strength*: "Certain books, because of their thoroughness, tend to become industry standards; such is the case with *The Elements of Boat Strength*." --*Ocean Navigator Propeller Handbook*: "The best layman's guide we've ever read." --*Practical Sailor* "Gerr made a complicated topic understandable and put it into a handbook that is easy to use." --*WoodenBoat The Nature of Boats*: "Offers, in a disarmingly charming fashion, a look at all aspects of what makes a boat work. If you are not nautically obsessed prior to reading this book, you most certainly will be afterward." --*Sailing*

*The Penta Millionaire* Mar 07 2021 Baby did not want to go with Whip, but she was afraid to refuse. She had borne the brunt of his temper, and she

knew he just as soon hit her as look at her. "Oh, well. OK. I guess I can," she said. She hoped Cecil would take up for her and send Whip off on his own. That didn't happen. She decided she would buy a blow pop at the Quik Stop when they got to Main Street. Whip spit in the yard as they left it; this time he had a real gun with him. Baby was quiet all the way to town. She said, "What'cha gonna do now?" "What difference does it make? You wouldn't understand if I told ya. You not only the dumbest girl in town, you the ugliest too." Baby was used to abuse; she thought it was normal. She knew she could not argue with Whip or she would get even worse treatment. "So why did you want me to go along with ya tonight?" "I'm teaching ya how to stand up for ya'self. No one else will. You're hopeless!" Whip sneered. When they got to the Quik Stop, she went in and bought her sucker. He got a beer and drank it while they walked toward Ms. Grey's house. It was dark, and when they got there, they eased around to the back of the house. No lights were on, and no cars were parked on the street. "This is gonna be easy. We'll wait and see when she comes home, and then when she goes inside, we'll get her." Whip knew Thursday night she always went out around seven and came home around nine thirty. "How we gonna do that? We can't just go in and get her," Baby said. Whip pulled out the key from his pocket. "Jus' like this," he said. Baby didn't want to harm Ms. Grey. "No, I won't help you," she said and ran as fast as she could around the corner of the house. He hunkered down behind the bushes and sipped on his beer.
