Turning This Thing Around Jul 29 2019 **Turning This Thing Around** is an inspiring memoir of overcoming personal struggles. This brutally honest, deeply personal account of redemption takes readers on a moving spiritual journey. Confronted with a myriad of obstacles—a debilitating arthritic disease, narcolepsy, anxiety and depression—the author was outwardly happy, but inwardly miserable. Pushed to the lowest point of his life, Maginn shares how he gradually turned things around and used

his experiences to grow as a person. Supplemented by heartfelt poetry by the author and with quotes from Gandhi to Dr. Wayne Dyer to Eckhart Tolle, *Turning This Thing Around* has universal themes that speak to nearly everyone, as we all must face challenges as part of being human. It is a self-help memoir of sorts: the author discusses not only what he overcame, but also how he did so—and how others can, too. Unlike many popular memoirs on the market, this is a story that more people can relate to. Maginn was not raised in an eccentric family (Jeannette Walls in *The Glass Castle*, memoirs by Augusten Burroughs), nor did he travel to Italy, India and Indonesia, as Elizabeth Gilbert did in *Eat, Pray, Love*. Rather, *Turning This Thing Around* is a story of a normal young man's resiliency when battling extraordinary circumstances.

Something Must Be Done About Prince Edward County Oct 31 2019 NEW YORK TIMES BESTSELLER Combining hard-hitting investigative journalism and a sweeping family narrative, this provocative true story reveals a little-known chapter of American history: the period after the *Brown v. Board of Education* decision when one Virginia school system refused to integrate. In the wake of the Supreme Court's unanimous *Brown v. Board of Education* decision, Virginia's Prince Edward County refused to obey the law. Rather than desegregate, the county closed its public schools, locking and chaining the doors. The community's white leaders quickly established a private academy, commandeering supplies from the shuttered public schools to use in their all-white classrooms. Meanwhile, black parents had few options: keep their kids at home, move across county lines, or send them to live with relatives in other states. For five years, the schools remained closed. Kristen Green, a longtime newspaper reporter, grew up in Farmville and attended Prince Edward Academy, which did not admit black students until 1986. In her journey to uncover what happened in her hometown before she was born, Green tells the stories of families divided by the school closures and of 1,700 black children denied an education. As she peels back the layers of this haunting period in our nation's past, her own family's role—no less complex and painful—comes to light. At once gripping, enlightening, and deeply moving, *Something Must Be Done About Prince Edward County* is a dramatic chronicle that

explores our troubled racial past and its reverberations today, and a timeless story about compassion, forgiveness, and the meaning of home.

The Little Blue Jar Oct 12 2020 The family saga behind favorite cold remedy Vicks VapoRub, the book reveals the story of an unlikely American Dream born in North Carolina.

Peninsula of Lies Mar 29 2022 Peninsula of Lies is an enthralling investigation of a bizarre life that begins in Kent, England with the birth of an illegitimate baby and ends in south Carolina, USA with a sex-change and a scandal. Edward Ball unwraps a mystery that has fascinated a succession of authors in the past decade. Who was Gordon Langley Hall, the illegitimate son of two servants at Sissinghurst Castle (home of author Vita Sackville-West and her husband Harold Nicolson, diplomat, author and politician)? Gordon becomes the recipient of the millions of an American heiress, author of biographies (including the eccentric English actress, Margaret Rutherford, the original screen 'Miss Marple'), and moves to Charleston, south Carolina. There Gordon changes sex and reinvents him/herself as Dawn Langley Hall. The mystery deepens when Dawn marries a young black mechanic (the matrons of the still-segregated Charleston are appalled), appears around the town apparently pregnant a few months later claims that the daughter she is seen pushing around the town in a pram is actually her own. Edward Ball, who won the American National Book Award for *Slaves in the Family*, investigates Hall's story and in the final chapter offers his solution.

The Complete Married With Children Book: TV's Dysfunctional Family

Phenomenon Mar 05 2020 Married . . . with Children premiered on Fox TV in 1987 and updated the Don Ameche and Frances Langford radio comedy series, *The Bickersons*, and Jackie Gleason's TV classic, *The Honeymooners*, with a raunchy, cutting-edge slant that focused on a lovable yet laughable family headed by endearingly flawed Al (Ed O'Neill), his housework-hating wife, sexy daughter, and randy son. For 11 seasons, the brilliant team of talent put the funk in dysfunctional. Rediscover the exhilarating humor and intellectual excitement in Denise Noe's first book. She delves behind-the-scenes with Michael Moyer, Ron Leavitt, Ed O'Neill, Katey Sagal, Christina Applegate, David Faustino, David Garrison, Amanda Bearse, E. E. Bell, and Ritch Shydner. You'll be fascinated by the story of how two rogue writers created a deliberately off-the-wall program; how it almost got derailed before production began; how a controversy could have plucked the series off the air but ended up injecting a much needed shot in the arm; how a reality-based show occasionally—and courageously—ventured into comedy with a fantasy, horror, and/or science fiction spin. Life of a Klansman Oct 04 2022 "A haunting tapestry of interwoven stories that inform us not just about our past but about the resentment-bred demons that are all too present in our society today . . . The interconnected strands of race and history give Ball's entrancing stories a Faulknerian resonance." —Walter Isaacson, *The New York Times* Book Review A 2020 NPR staff pick | One of *The New York Times'* thirteen books to

watch for in August | One of The Washington Post's ten books to read in August | A Literary Hub best book of the summer| One of Kirkus Reviews' sixteen best books to read in August The life and times of a militant white supremacist, written by one of his offspring, National Book Award–winner Edward Ball *Life of a Klansman* tells the story of a warrior in the Ku Klux Klan, a carpenter in Louisiana who took up the cause of fanatical racism during the years after the Civil War. Edward Ball, a descendant of the Klansman, paints a portrait of his family’s anti-black militant that is part history, part memoir rich in personal detail. Sifting through family lore about “our Klansman” as well as public and private records, Ball reconstructs the story of his great-great grandfather, Constant Lecorgne. A white French Creole, father of five, and working class ship carpenter, Lecorgne had a career in white terror of notable and bloody completeness: massacres, night riding, masked marches, street rampages—all part of a tireless effort that he and other Klansmen made to restore white power when it was threatened by the emancipation of four million enslaved African Americans. To offer a non-white view of the Ku-klux, Ball seeks out descendants of African Americans who were once victimized by “our Klansman” and his comrades, and shares their stories. For whites, to have a Klansman in the family tree is no rare thing: Demographic estimates suggest that fifty percent of whites in the United States have at least one ancestor who belonged to the Ku Klux Klan at some point in its history. That is, one-half of white Americans could write a Klan family memoir, if they wished. In an era when racist ideology and violence are again loose in the public square, *Life of a Klansman* offers a personal origin story of white supremacy. Ball’s family memoir traces the vines that have grown from militant roots in the Old South into the bitter fruit of the present, when whiteness is again a cause that can veer into hate and domestic terror.

The Memorable Thoughts of Socrates Feb 25 2022 Xenophon gives us an alternative to Plato’s accounts of the lessons of Socrates. As you probably know if you are reading

this, Socrates left nothing behind by way of written teachings. All we know of the great philosopher's teachings come from the accounts of his students. Xenophon's version (*Memorabilia of Socrates*) is stylistically different from Plato's dialogues (e.g. *Euthyphro*, *Apology*, *Crito*, and *Phaedo*), though Socrates' wisdom and method (questioning) remain consistent.

Partial Differential Equations Aug 22 2021 *Partial Differential Equations* presents a balanced and comprehensive introduction to the concepts and techniques required to solve problems containing unknown functions of multiple variables. While focusing on the three most classical partial differential equations (PDEs)—the wave, heat, and Laplace equations—this detailed text also presents a broad practical perspective that merges mathematical concepts with real-world application in diverse areas including molecular structure, photon and electron interactions, radiation of electromagnetic waves, vibrations of a solid, and many more. Rigorous pedagogical tools aid in student comprehension; advanced topics are introduced frequently, with minimal technical jargon, and a wealth of exercises reinforce vital skills and invite additional self-study. Topics are presented in a logical progression, with major concepts such as wave propagation, heat and diffusion, electrostatics, and quantum mechanics placed in contexts familiar to students of various fields in science and engineering. By understanding the properties and applications of PDEs, students will be equipped to better analyze and interpret central processes of the natural world.

The Inventor and the Tycoon Jul 01 2022 From the National Book Award-winning author of *Slaves in the Family*, a riveting true life/true crime narrative of the partnership between the murderer who invented the movies and the robber baron who built the railroads. One hundred and thirty years ago Eadweard Muybridge invented stop-motion photography, anticipating and making possible motion pictures. He was the first to capture time and play it back for an audience, giving birth to visual media and screen entertainments of all kinds. Yet the artist and inventor Muybridge was also a murderer who killed coolly and meticulously, and his trial is one of the early instances of a media sensation. His patron was railroad tycoon (and former California governor) Leland Stanford, whose particular obsession was whether four hooves of a running horse ever left the ground at once. Stanford hired Muybridge and his camera to answer that question. And between them, the murderer and the railroad mogul launched the age of visual media. Set in California during its frontier decades, *The Tycoon and the Inventor* interweaves Muybridge's quest to unlock the secrets of motion through photography, an obsessive murder plot, and the peculiar partnership of an eccentric inventor and a driven entrepreneur. A tale from the great American West, this popular history unspools a story of passion, wealth, and sinister ingenuity.

The Genetic Strand Aug 02 2022 *The Genetic Strand* is the story of a writer's investigation, using DNA science, into the tale of his family's origins. National Book Award winner Edward Ball has turned his probing gaze on the microcosm of the human genome, and not just any human genome -- that of his slave-holding ancestors. What is the legacy of such a family history, and can DNA say something about it? In

2000, after a decade in New York City, Ball bought a house in Charleston, South Carolina, home to his father's family for generations, and furnished it with heirloom pieces from his relatives. In one old desk he was startled to discover a secret drawer, sealed perhaps since the Civil War, in which someone had hidden a trove of family hair, with each lock of hair labeled and dated. The strange find propelled him to investigate: what might DNA science reveal about the people -- Ball's family members, long dead -- to whom the hair had belonged? Did the hair come from white relatives, as family tradition insisted? How can genetic tests explain personal identity? Part crime-scene investigation, part genealogical romp, *The Genetic Strand* is a personal odyssey into DNA and family history. The story takes the reader into forensics labs where technicians screen remains, using genetics breakthroughs like DNA fingerprinting, and into rooms where fathers nervously await paternity test results. It also summons the writer's entertaining and idiosyncratic family, such as Ball's antebellum predecessor, Aunt Betsy, who published nutty books on good Southern society; Kate Fuller, the enigmatic ancestor who may have introduced African genes into the Ball family pool; and the author's first cousin Catherine, very much alive, who donates a cheek swab from a mouth more attuned to sweet iced tea than DNA sampling. Writing gracefully but pacing his story like an old-fashioned whodunit, Edward Ball tracks genes shared across generations, adding suspense and personal meaning to what the scientists and Nobel laureates tell us. A beguiling DNA tale, *The Genetic Strand* reaches toward a new form of writing the genetic memoir.

Finding May 19 2021 Two years before adopting seven-year-old Keydell from a group home for young boys, Kim made a vow before the Dalai Lama to become a bodhisattva: one who cultivates an enlightened mind, is free from delusion, and practices kindness and compassion above all else. However, she struggles with this practice as her new son's challenged mind sends him into fits of rage and violence, while seemingly allowing him to feel no remorse for his actions. His behaviors go against everything Kim believes in, but she is determined to keep her chocolate-eyed boy safely in the home she has created with her husband and two biological children. As she tries everything she can to get Keydell the help he needs, she must also learn to accept him exactly as he is: a tiger in the home of elephants. This vulnerable and touching account highlights the interplay between desire and reality, denial and acceptance, struggle and enlightenment. As the minds of this mother and her extraordinary son awaken - Kim's through her Buddhist practice, and Keydell's through the science of neurofeedback - we witness the power of love and compassion to overcome even the greatest odds."

Slaves in the Family Sep 03 2022 Chronicles the slave-holding dynasty of the South Carolina plantation owner Elias Ball

The World for Sale Jun 19 2021 The modern world is built on commodities - from the oil that fuels our cars to the metals that power our smartphones. We rarely stop to consider where they have come from. But we should. In *The World for Sale*, two leading journalists lift the lid on one of the least scrutinised corners of the world economy: the workings of the billionaire commodity traders who buy, hoard and sell the earth's resources. It is the story of how a handful of swashbuckling businessmen became indispensable cogs in global markets: enabling an enormous expansion in international trade, and connecting resource-rich countries - no matter how corrupt or war-torn - with the world's financial centres. And it is the story of how some traders acquired untold political power, right under the noses of western regulators and politicians - helping Saddam Hussein to sell his oil, fuelling the Libyan rebel army during the Arab Spring, and funnelling cash to Vladimir Putin's Kremlin in spite of western sanctions. The result is an eye-opening tour through the wildest frontiers of the global economy, as well as a revelatory guide to how capitalism really works.

Family Destruction Aug 10 2020 This novel is just a figment of my imagination and does not depict the views of my personal opinion. In memory of the dearly departed, I would like to bow my head in a moment of silence for all the fallen soldiers who didn't get a chance to see life for the way it was meant to be viewed. For our predecessors who've been misguiding our young minds of the ghettos for far too long. For those who helped to prevent prosperity from ever reaching its full potential. For the many demons of their own destruction, who truly believe that genocide is the only way to properly represent their neighborhoods with pride. For the athletic, or intellectual being, who seem -to have missed their true calling for dedicating so much of their lives to the lost cause of gang violence, we say no more! If we don't stand for something, we will eventually start falling for anything. It's time to wake up, and build up to the expectation of our own greatness! If not, the very future of our children, and our children's, children's lives will one day depend on it...

Slave Counterpoint Apr 17 2021 On the eve of the American Revolution, nearly three-quarters of all African Americans in mainland British America lived in two regions: the Chesapeake, centered in Virginia, and the Lowcountry, with its hub in South Carolina. Here, Philip Morgan compares and contrasts African American life in these two regional black cultures, exploring the differences as well as the similarities. The result is a detailed and comprehensive view of slave life in the colonial American

South. Morgan explores the role of land and labor in shaping culture, the everyday contacts of masters and slaves that defined the possibilities and limitations of cultural exchange, and finally the interior lives of blacks--their social relations, their family and kin ties, and the major symbolic dimensions of life: language, play, and religion. He provides a balanced appreciation for the oppressiveness of bondage and for the ability of slaves to shape their lives, showing that, whatever the constraints, slaves contributed to the making of their history. Victims of a brutal, dehumanizing system, slaves nevertheless strove to create order in their lives, to preserve their humanity, to achieve dignity, and to sustain dreams of a better future.

Slightly Skewed May 07 2020 The author reveals both the good and bad facing our families today using his own unique brand of humor.

The Carriers Feb 02 2020 A tiny mutation on the X chromosome can shape a family's history. Passed down from a "carrier" parent to a child, fragile X syndrome is the most common inherited cause of intellectual disability and autism. Beyond that—and a rarity among genetic disorders—some fragile X carriers not only transmit the mutation but also experience related conditions themselves. In such cases, carriers can have tremors, infertility, and psychiatric disorders that complicate raising children with fragile X syndrome—and all too often, they suffer in silence. *The Carriers* investigates this common but still little-known genetic condition and its life-altering consequences. Anne Skomorowsky reveals how this disorder afflicts families across generations, telling the stories of the mothers and grandparents of fragile X patients and considering how genes interact with family dynamics. She interweaves the personal narratives and family histories of the people affected by fragile X disorders with clear and accessible explanations of the science behind them. Skomorowsky unpacks the latest research on the fragile X mutation and explores the history of its discovery. She highlights the roles of women as carriers, caregivers, and researchers who have made astonishing scientific breakthroughs over the last three decades. *The Carriers* is an essential book for fragile X families, including those just learning they are carriers, and for all readers interested in the complexities of heredity, the ethical dilemmas of genetic medicine, and the relationship between genes and personality.

Peninsula of Lies Apr 29 2022 *Peninsula of Lies* is a nonfiction mystery, set in haunting locales and peopled with fascinating characters, that unwraps the enigma of a woman named Dawn Langley Simmons, a British writer who lived in Charleston, South Carolina, during the 1960s and became the focus of one of the most unusual sexual scandals of the last century. Born in England sometime before World War II, Dawn Langley Simmons began life as a boy named Gordon Langley Hall. Gordon was the son of servants at Sissinghurst Castle, the estate of Vita Sackville-West, where as a child he met Vita's lover Virginia Woolf. In his twenties, Gordon made his way to New York, where he became an author of society biographies and befriended such grandes dames as the actress Margaret Rutherford and the artist and heiress Isabel Whitney, who left him a small fortune. The money allowed Gordon to buy a mansion in Charleston and fill it with period furniture, providing a stage for him to entertain more

great ladies and to climb the social ladder of the Southern gentry to its heights. However, Gordon's world changed instantly in 1968, when at The Johns Hopkins Hospital he underwent one of the first sex-reassignment surgeries, returning to Southern society and scandalizing Charleston as the new Dawn Langley Hall. Dawn Hall furthermore announced that her surgery had been corrective, because she'd actually been misidentified as a boy at birth. Three months later, Dawn raised the stakes in still-segregated Charleston when she arranged her very public marriage to a young black mechanic, John-Paul Simmons. In due course, Dawn appeared around town pregnant; finally, she could be seen pushing a baby carriage with a child -- her daughter, Natasha. National Book Award-winning author Edward Ball (*Slaves in the Family*) has written a detective story that deciphers the riddle of Dawn Simmons, a once rich and infamous changeling who died in 2000, her sexual identity never determined. *Peninsula of Lies* is an engrossing narrative of a person who tested every taboo, as well as the confidence of observers in their own eyes.

The Sweet Hell Inside May 31 2022 From National Book Award winner Edward Ball comes *The Sweet Hell Inside*, the story of the fascinating Harleston family of South Carolina, the progeny of a Southern gentleman and his slave, who cast off their blemished roots and prospered despite racial barriers. Enhanced by recollections from the family's archivist, eighty-four-year-old Edwina Harleston Whitlock -- whose bloodline the author shares. *The Sweet Hell Inside* features a celebrated portrait artist whose subjects included industrialist Pierre du Pont; a black classical composer in the Lost Generation of 1920s Paris; and an orphanage founder who created the famous Jenkins Orphanage Band, a definitive force in the development of ragtime and jazz. With evocative and engrossing storytelling, Edward Ball introduces a cast of historical characters rarely seen before: cultured, vain, imperfect, rich, and black -- a family of eccentrics who defied social convention and flourished.

Embracing Survival Sep 30 2019 *Embracing Survival*, a memoir by Dydine Umunyana, tells the story of the Rwandan Genocide against the Tutsis at the hands of the Hutu perpetrators in Rwanda (1994) through the eyes of the four-year-old-child that she was when the horrific massacre occurred. Separated from her family, she barely survived the conflict. While the physical killing finally stopped, the mental and emotional 'killing' continued, affecting her and her family. She writes that "I have learned that we cannot do for others what we cannot do for ourselves. By nourishing the light within ourselves, we find strength we never knew was there....I came to realize that one's own life experiences are not theirs to keep but ours to teach."

Flight of Remembrance Sep 10 2020 Now an Award-Winning Finalist in the Non-Fiction: Narrative category of The 2012 USA Best Book Awards, sponsored by USA Book News. Obtain a free 40-page excerpt on www.kirschstonebooks.com. Against the backdrop of World War II tragedy and devastation in Latvia, Poland and Germany and three decades of European history, this true narrative provides a window into the palpitating heart of wartime upheaval through the lives of Rolf Dutzmann and Lilo Wassull-two people fatefully positioned "on the other side." In December of 1939, swept along on a tide of dire necessity and circumstance due to the imminent Soviet takeover of his homeland, Rolf, a young Latvian aeronautical engineering student, flees with his family to Germany, a country fully under Hitler's control and already engaged in a brutal war. While the account chronicles Rolf's pursuit of his technical dream against daunting wartime odds, it is first and foremost a poignant love story that plays out against a panorama of worldwide chaos and destruction. It is also a story of the seen and unseen forces that coalesce to keep Rolf and Lilo alive after they meet in 1940 Berlin, leading them through a chain of cataclysmic events including Rolf's draft into the Luftwaffe and his father's assignment as chief inspector of V-2 rocket production; the bombing of Berlin; the destruction of their homes; their numerous desperate, cross-country escapes from the bombing, the advancing Soviet troops from the east, and other Allied forces from the west; the POW camp hardships; and the deprivation of the postwar years. Despite the immeasurable evil, suffering and desolation of World War II, a synchronistic chain of events provides an uplifting reminder that love and hope may take wing even out of the ashes of life's most terrifying adversities.

A Complicated Legacy Jun 07 2020 If movies and books like Belle, Twelve Years a Slave, The Butler, The Help, A Time to Kill, and Amistad have moved you, you'll love A Complicated Legacy, a novel by Baltimore writer Robert H. Stucky based on the true story of Elijah Willis, a white South Carolina planter, and Amy- the love of his life, the mother of his children, and his slave. Taking place in the decade leading up to the Civil War, it is written with a cinematic eye for atmosphere and setting, a linguist's ear for dialogue, and a historian's grasp of the powerful social forces and momentous events of the time. It is a riveting tale of personal transformation in facing the tide of sweeping

social change. Elijah Willis fought family opposition, public opinion, and the law to free his family of choice and leave them his entire inheritance. In so doing, his and Amy's story becomes a microcosm of the human struggles that made the Civil War and the Abolition of Slavery both necessary and inevitable. Set in rural South Carolina, Baltimore, and Cincinnati, this vivid saga weaves history and humanity in a compelling testimony to the power of relationships to shape our destinies, even a century and a half later.

American Tapestry Jan 27 2022 A remarkable history of First Lady Michelle Obama's mixed ancestry, *American Tapestry* by Rachel L. Swarns is nothing less than a breathtaking and expansive portrait of America itself. In this extraordinary feat of genealogical research—in the tradition of *The Hemmingses of Monticello* and *Slaves in the Family*—author Swarns, a respected Washington-based reporter for the *New York Times*, tells the fascinating and hitherto untold story of Ms. Obama's black, white, and multiracial ancestors; a history that the First Lady herself did not know. At once epic, provocative, and inspiring, *American Tapestry* is more than a true family saga; it is an illuminating mirror in which we may all see ourselves.

Slaves in the Family Nov 05 2022 Fifteen years after its hardcover debut, the FSG Classics reissue of the celebrated work of narrative nonfiction that won the National Book Award and changed the American conversation about race, with a new preface by the author The Ball family hails from South Carolina—Charleston and thereabouts. Their plantations were among the oldest and longest-standing plantations in the South. Between 1698 and 1865, close to four thousand black people were born into slavery under the Balls or were bought by them. In *Slaves in the Family*, Edward Ball recounts his efforts to track down and meet the descendants of his family's slaves. Part historical narrative, part oral history, part personal story of investigation and catharsis, *Slaves in the Family* is, in the words of Pat Conroy, "a work of breathtaking generosity and courage, a magnificent study of the complexity and strangeness and beauty of the word 'family.'"
