The Labour of Literature in Britain and France, 1830-1910 Nov 15 2020 This volume examines the anxieties that caused many nineteenth-century writers to insist on literature as a laboured and labouring enterprise. Following Isaac D'Israeli's gloss on Jean de La Bruyère, it asks, in particular, whether writing should be 'called working'. Whereas previous studies have focused on national literatures in isolation, this volume demonstrates the two-way traffic between British and French conceptions of literary labour. It questions assumed areas of affinity and difference, beginning with the labour politics of the early nineteenth century and their common root in the French Revolution. It also scrutinises the received view of France as a source of a 'leisure ethic', and of British writers as either rejecting or self-consciously mimicking French models. Individual essays consider examples of how different writers approached their work, while also evoking a broader notion of 'work ethics', understood as a humane practice, whereby values, benefits, and responsibilities, are weighed up.

The Women in the Room Sep 25 2021 In February 1900 a group of men representing trade unionists, socialists, Fabians and Marxists gathered in London to make another attempt at establishing an organisation capable of getting working-class men elected to Parliament. The body they set up was the Labour Representation Committee; six years later when 29 of its candidates were elected to the House of Commons, it changed its name to the Labour Party. No women took part in that first meeting, but several watched from the public gallery. Amongst them was Isabella Ford, an active socialist and trade unionist who would have been familiar to most of the men assembled below. She had been asked by her friend, Millicent Fawcett, to attend and report back on what happened. A few years later she would become the first woman to speak at a Labour Party conference, moving a resolution on votes for women but, at the Party's inception in 1900, she and every other woman in the hall was silent. Throughout Labour's history, even in its earliest years, women were present in the room, but they were not always recorded or remembered. They came from many different backgrounds and they worked for the causes they believed in as organisers, campaigners, negotiators, polemicists, public speakers and leaders. They took on the vested interests of their time; sometimes they won. Yet the vast majority of them have been forgotten by the Labour

movement that they helped to found. Even Margaret Bondfield, who became Britain's first woman cabinet minister, often barely merits a footnote. Women made real and substantial contributions to Labour's earliest years and had a significant impact on the Party's ability to attract and maintain women's votes after World War I. In addition to Margaret and Isabella, in many of the rooms in which the Labour Party found its feet, remarkable women wait to be rediscovered. This book tells their story.

Individual preferences and labour market outcomes of women and men in Germany Oct 03 2019 Master's Thesis from the year 2018 in the subject Sociology - Work, Profession, Education, Organisation, grade: 1,3, , language: English, abstract: Objective of this paper is to find answers to the following research questions: 1. Do preferences, and to what extent, lead to variation in labour market success between women and men, within the group of women and within the group of men? 2. Can preferences explain the remaining of a pay gap between women and men? Furthermore, it makes the attempt to test the long-term effect of preferences and their proclaimed stability over the life course, try-ing to find answers to the questions: 3. If preferences persist over the life course and remain unaffected by labour market factors? And 4. If preferences at one timepoint influence the labour market success at the next time point? Inequalities in labour market success between women and men have often been topic of analysis in the social sciences, attributing differences to various factors like involvement in unpaid work, differences in occupation choice, job characteristics or responsibility for children. A new, but controversially discussed approach, is the so-called preference theory proposed by Catherine Hakim, who sees preferences regarding work and family as the mayor determinant of women's employment choices in the 21st century. Proceeding from earlier studies, this paper aims at enhancing the current state of research in three ways. First, in contrast to previous research, which relied on general attitudes to measure preferences, the utilised data set here, allows for the usage of items capturing actual prefer-ences measured as the importance of work and family for the respondents' own life. Secondly, this study does not only focus on women, but also includes men as a target group, an ap-proach which has been rather neglected in previous research. This offers the possibility to not only analyse differing effects of preferences on labour market outcomes within the group of women, but tests the same for men and further offers the possibility to compare women and men with one another, also with respect to the gender pay gap. Thirdly, this study focusses on Germany which, to my knowledge, was not yet object of an in-depth analysis regarding Hakim's preference theory and its connection to labour market success. .

Labour's Economic Ideology Since 1900 Aug 25 2021 This book traces the economic ideology of the UK Labour Party from its origins to the current day. Through its analysis, the book emphasises key crises, including the 1926 General Strike, the 1931 Great Depression, the 1979 Winter of Discontent and the 2007/2008 economic crisis. In analysing this history, the ideology of the Labour Party is examined through four core themes: • the party's definition of socialism; • the role of the state in economic decision making; • the party's understanding of inequalities; and • its relationship with the trade union movement. The result is a systematic exploration of the drivers and key ideas behind the Labour Party's economic ideology. In demonstrating how crises have affected the party's economic policy, the book presents a historical analysis of the party's evolution since its formation and offers insights into how future changes may occur.

Techniques for Asking Sensitive Questions in Labour Market Surveys May 22 2021 Um Antwortverzerrungen bei der Erhebung von sozial unerwünschtem Verhalten in Arbeitsmarktsurveys zu reduzieren, können spezielle Befragungstechniken eingesetzt werden. Die Arbeit untersucht die Wirksamkeit dieser alternativen Fragetechniken - wie Randomized Response Technique (RRT) und Item Count Technique (ICT) - zur Erhebung des Ausmaßes von Schwarzarbeit und Arbeitslosengeld-II-Bezug in Deutschland. Außerdem wird eine neue Methode zur Erhebung von quantitativen heiklen Merkmalen entwickelt und angewendet: die Item Sum Technique (IST). Die Befunde zeigen, dass die häufig angenommene Wirkung der RRT oder der ICT auf die Bereitschaft der Befragten, sozial unerwünschtes Verhalten zu berichten, nicht eindeutig ausfällt. Die Ergebnisse der IST fallen hingegen positiver aus.

Labour and the Politics of Disloyalty in Belfast, 1921-39 Feb 16 2021 This book provides the first 'history from below' of the inter-war Belfast labour movement. It is a social history of the politics of Belfast labour and applies methodology from history, sociology and political science. Christopher J. V. Loughlin questions previous narratives that asserted the centrality of religion and sectarian conflict in the establishment of Northern Ireland. Labour and the Politics of Disloyalty in Belfast, 1921-39 suggests that political division and violence were key to the foundation and maintenance of the democratic ancien régime in Northern Ireland. It examines the relationship between Belfast Labour, sectarianism, electoral politics, security and industrial relations policy, and women's politics in the city.

The Internationalisation of the Labour Question Feb 28 2022 This edited collection is a global history of workers' organisations since 1919, the year when the International Labour Organisation (ILO), the Comintern and the International Federation of Trade Unions were formed. This historical moment represents a caesura in labour history as it epitomises the beginning of what the editors and the contributors in this book call the internationalisation of the labour question. The case studies in this centenary volume analyse the relationship between global workers' organisations and the new ideological confrontation between liberal capitalism, socialism and communism since the Bolshevik Revolution in Russia. Workers' organisations, trade unions in particular, grew in

importance and managed to organise internationally, forming alliances cemented by ideology and sustained by international institutional bodies or centrals. In the nascent capitalist versus communist struggle, trade unions thrived. Is it mere coincidence that today's decline of unionism coincides with the end of ideological antagonism? This book emphasises important global labour issues such as gender as well as international workers' histories from Latin America, Asia and Africa.

Five Year Mission Aug 05 2022 In May 2010, Labour suffered one of its worst ever election defeats. A few months later it chose Ed Miliband as its new leader. His task? To win back power after just one term in opposition - a tall order given how many voters had come to blame Labour for the economic mess the country was in, and to see the party as a soft-touch when it came to immigration and welfare. Even those who were more sympathetic had their doubts. Was Ed Miliband really leadership material? Would he be able to overcome defeating his elder brother to get to the top? Would he have to do as he was told by the trade union leaders who had helped him win? Could he resolve the tensions between Blairites and Brownites, Blue Labour and New Labour? Might his desire to keep his colleagues united mean Labour stayed stuck in its comfort zone? Would he, in seeking to break from the party's recent past, take it too far to the left? Could he offer the electorate something really radical in 2015 or would he instead choose something safer but ultimately less inspiring? And what should twenty-first social democracy look like now that the money had run out? This book, by one of the country's foremost experts on party politics, seeks to answer all those questions and, in the run up to the 2015 general election, to ask one more: will Ed Miliband's five year mission turn out to be 'mission impossible'?
