Built for Speed May 14 2021 Go on the ride of your life with the racing legend himself **with a thrilling NEW CHAPTER on John's dramatic 2017 crash** 'Then I was there myself, just another face in the crowd, watching the bikes fly by. The smells, the noise and the speed were all there for me to experience. It was like a massive injection in my head and it just blew my mind. I knew within seconds that I was going to be a TT racer. I didn't know how or what I was going to have to do to achieve this, and my dad wasn't going to be keen. Everyone around me was aware of the dangers, but from that moment I knew I had to do it.' John McGuinness is one of the all-time giants of road racing, with a huge host of victories to his name. But his easy humour and down-to-earth attitude off the bike have always kept people guessing: what's the truth about the man inside the helmet, that has kept him at the top of such a sport for over 20 years? His autobiography tells the whole story, from his humble beginnings in Morecambe and getting his first bike at the age of 3, to working as a bricklayer and cockle fisherman before deciding to follow his dream, and finally to his many victories in the most dangerous sporting event on the planet. He tells of what it takes to be a champion in such an exacting sport, and to keep winning even though all logic tells you to stop – and when so many of your fellow racers are paying the ultimate price for doing it. This thrilling autobiography gets into the head of the man who stares death in the face, and doesn't even flinch.

Service Feb 29 2020 Marcus Luttrell, author of the #1 bestseller Lone Survivor, share war stories about true American heroism from himself and other soldiers who bravely fought alongside him. Navy SEAL Marcus Luttrell returned from his star-crossed mission in Afghanistan with his bones shattered and his heart broken. So many had given their lives to save him -- and he would have readily done the same for them. As he recuperated, he wondered why he and others, from America's founding to today, had been willing to sacrifice everything-including themselves-for the sake of family, nation, and freedom. In Service, we follow Marcus Luttrell to Iraq, where he returns to the battlefield as a member of SEAL Team 5 to help take on the most dangerous city in the world: Ramadi, the capital of war-torn Al Anbar Province. There, in six months of high-intensity urban combat, he would be part of what has been called the greatest victory in the history of U.S. Special Operations forces. We also return to Afghanistan and Operation Redwing, where Luttrell offers powerful new details about his miraculous rescue. Throughout, he reflects on what it really means to take on a higher calling, about the men he's seen lose their lives for their country, and the legacy of those who came and bled before. A thrilling war story, Service is also a profoundly moving tribute to the warrior brotherhood, to the belief that nobody goes it alone, and no one will be left behind.

The Motorbike Book Aug 17 2021 Set your pulse racing with this stunning visual guide to over 1000 pin-up machines - iconic symbols of wanderlust, speed, and the open road. From Gottlieb Daimler's gas-powered "engine on a bicycle" which set fire to the seat on its first outing, to superbikes such as the Ducati 916, The Motorbike Book takes you on an enthralling tour of the bike's history. It shows you bikes that appeal to the head - practical forms of transport - and to the heart - a parade of classic pin-ups including cult machines such as the Honda RC30, the Triumph Bonneville and the Harley-Davidson XR750. The Motorbike Book shows the brilliance and impracticality of different designs and features detailed cross-sections of engines such as the air-cooled two-stroke. It explains how the great marques such as the Royal Enfield, the "legendary" Indian Scout, Vespa, and Norton all became household names. Whether you are a hardcore enthusiast, or looking forward to your first machine, this is one title you cannot be without.

Mastering Uncertainty Jan 28 2020 What separates the world's most successful founders, entrepreneurs and business leaders from the rest? It's not visionary ideas or superhuman intelligence. It's something more fundamental—their relationship with uncertainty. Most people are blown off-course by unexpected events. Top performers, by contrast, know how to navigate our unpredictable world. Not just that: they know how to thrive in it. You can acquire this essential skill, too. In Mastering Uncertainty, investor and serial entrepreneur Csaba Konkoly and award-winning business author Matt Watkinson reveal the shortcomings of conventional business thinking and the advantages of developing a 'probabilistic' mindset that turns uncertainty from a source of fear into an incredible and exciting advantage. They offer superbly practical advice on everything from how to handle setbacks and expand your network, to how to spot business opportunities and shape them into successful, growing businesses. Above all, they show how to think and operate like a great entrepreneur.

Riding in the Zone Jan 22 2022 Riding motorcycles is fun, but author Ken Condon maintains that there is a state of consciousness to be achieved beyond the simple pleasure of riding down the road. Riding in the Zone helps riders find that state of being. It's the experience of being physically and mentally present in the moment, where every sense is sharply attuned to the ride. Your mind becomes silent to the chatter of daily life, and everyday problems seem to dissolve. You feel a deeper appreciation for life. Your body responds to this state of being with precise, fluid movements, you feel in balance, your muscles are relaxed, and it seems as though every input you make is an expression of mastery. This is "the Zone." Condon identifies all of the factors that affect entering the Zone and addresses each one individually, from the development of awareness and mental skills to mastering physical control of the motorcycle. At the end of each chapter are drills designed to transform the book's ideas into solid, practical riding skills. Riding in the Zone takes riders to the next level in their skill set.
