**Auto Repair For Dummies Mar 29 2022** Auto Repair For Dummies, 2nd Edition (9781119543619) was previously published as Auto Repair For Dummies, 2nd Edition (9780764599026). While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.

**Unmasking Ideology in Imperial and Colonial Archaeology Oct 31 2019** This volume addresses the entanglement between archaeology, imperialism, colonialism, capitalism, and war. Popular sentiment in the West has tended to embrace the adventure rather than ponder the legacy of archaeological explorers; allegations by imperial powers of "discovering" archaeological sites or "saving" world heritage from neglect or destruction have often provided the pretext for expanding political influence. Consequently, citizens have often fallen victim to the imperial war machine, seeing their lands confiscated, their artifacts looted, and the ancient remains in their midst commercialized. Spanning the globe with case studies from East Asia, Siberia, Australia, North and South America, Europe, and Africa, sixteen contributions written by archaeologists, art historians, and historians from four continents offer unusual breadth and depth in the assessment of various claims to patrimonial heritage, contextualized by the imperial and colonial ventures of the last two centuries and their postcolonial legacy.

**Sadar + Vuga Jan 03 2020** Sadar + Vuga is a Slovenian architecture office that caused an international sensation even with its first building, the quarters of the Slovenian Chamber of Commerce and Industry, realized in Ljubljana in 1999. Since then, the office--with its unmistakable and charismatic architectural language--has secured a place for itself in the international architecture scene. Having been able to realize the majority of their projects in Ljubljana, Sadar + Vuga have made a strong impact on the contemporary urban texture of the Slovenian capital city like very few architects before them. Even so, their projects quite consciously forego adhering to a homogeneous formal language. Rather, each of them develops its expression from a precise interpretation of its particular contextual and programmatic circumstances. Instead of simply creating spaces for objects representing pre-formulated lifestyles, Sadar + Vuga's buildings make systematic pinpricks that stimulate our aesthetic power of judgement. Sadar + Vuga see their architecture as a perceptual catalyst for the formation of our weltanschauung, the way we look at the world. And they want to make us look at the world--especially the one

between buildings--in a different way, so that we can also act differently in it.
