**The Palgrave Handbook of Asian Cinema** Jul 29 2019 This collection offers new approaches to theorizing Asian film in relation to the history, culture, geopolitics and economics of the continent. Bringing together original essays written by established and emerging scholars, this anthology transcends the limitations of national borders to do justice to the diverse ways in which the cinema shapes Asia geographically and imaginatively in the world today. From the revival of the Silk Road as the “belt and road” of a rising China to historical ruminations on the legacy of colonialism across the continent, the authors argue that the category of “Asian cinema” from Turkey to the edges of the Pacific continues to play a vital role in cutting-edge film

research. This handbook will serve as an essential guide for committed scholars, students, and all those interested in the past, present, and possible future of Asian cinema in the 21st century.

**Two Kings And A Leader** May 07 2020 “Two Kings and a Leader is a book about the phenomenal story of the First Foreign Minister of Afghanistan Sardar Mahmud Tarzi, his family, and his relationship with the two notorious kings in the 1900s- Amir Habibullah Khan and King Aman Ullah. It is a vibrant depiction of Mahmud Tarzi’s struggles and efforts for the independence of Afghanistan. More elucidating is the fact that these stories are told by Mahmud Tarzi’s great-grandson Ömer Tarzi. An important segment of the book is dedicated to Afghanistan’s struggle with two of the great powers of the time (Britain and Russia) and the vital achievements of Afghanistan’s First Foreign Minister, Sardar Mahmud Tarzi, in international political affairs. “Of course, at the fore there was always a king, but the leader standing behind was very important.”

*Data Visualization* Aug 22 2021 An accessible primer on how to create effective graphics from data This book provides students and researchers a hands-on introduction to the principles and practice of data visualization. It explains what makes some graphs succeed while others fail, how to make high-quality figures from data using powerful and reproducible methods, and how to think about data visualization in an honest and effective way. Data Visualization builds the reader’s expertise in ggplot2, a versatile visualization library for the R programming language. Through a series of worked examples, this accessible primer then demonstrates how to create plots piece by piece, beginning with summaries of single variables and moving on to

more complex graphics. Topics include plotting continuous and categorical variables; layering information on graphics; producing effective “small multiple” plots; grouping, summarizing, and transforming data for plotting; creating maps; working with the output of statistical models; and refining plots to make them more comprehensible. Effective graphics are essential to communicating ideas and a great way to better understand data. This book provides the practical skills students and practitioners need to visualize quantitative data and get the most out of their research findings. Provides hands-on instruction using R and ggplot2 Shows how the “tidyverse” of data analysis tools makes working with R easier and more consistent Includes a library of data sets, code, and functions

The Holocaust's Jewish Calendars May 19 2021 Calendars map time, shaping and delineating our experience of it. While the challenges to tracking Jewish conceptions of time during the Holocaust were substantial, Alan Rosen reveals that many took great risks to mark time within that vast upheaval. Rosen inventories and organizes Jewish calendars according to the wartime settings in which they were produced—from Jewish communities to ghettos and concentration camps. The calendars he considers reorient views of Jewish circumstances during the war and show how Jews were committed to fashioning traditional guides to daily life, even in the most extreme conditions. In a separate chapter, moreover, he elucidates how Holocaust-era diaries sometimes served as surrogate Jewish calendars. All in all, Rosen presents a revised idea of time, continuity, the sacred

and the mundane, the ordinary and the extraordinary even when death and destruction were the order of the day. Rosen's focus on the Jewish calendar—the ultimate symbol of continuity, as weekday follows weekday and Sabbath follows Sabbath—sheds new light on how Jews maintained connections to their way of conceiving time even within the cauldron of the Holocaust.

**Flying Legends** Dec 14 2020 The Second World War triggered the greatest technological leap in aviation since manned flight began. In the short space of six years, military aircraft were taken from open cockpit biplanes on a summer's day to fighters that were encountering the compressibility problems associated with the sound barrier, while conquering the skies of 40,000 + feet. The necessities of the conflict focused the industries of the global powers, which achieved dazzling results. Represented in this splendid volume are images of these aircraft—the last of the gladiatorial steeds. The award winning air to air photography of John Dibbs is complemented by a selection of breathtaking archives from the conflict, which can only truly illustrate the spirit and humanity behind these "Flying Legends."
