[Hard Times Illustrated](#) Jun 22 2019 Hard Times - For These Times (commonly known as Hard Times) is the tenth novel by Charles Dickens, first published in 1854. The book surveys English society and satirises the social and economic conditions of the era. Hard Times is unusual in several ways. It is by far the shortest of Dickens' novels, barely a quarter of the length of those written immediately before and after it. Also, unlike all but one of his other novels, Hard Times has neither a preface nor illustrations. Moreover, it is his only novel not to have scenes set in London. Instead the story is set in the fictitious Victorian industrial Coketown, a generic Northern English mill-town, in some ways similar to Manchester, though smaller. Coketown may be partially based on 19th-century Preston.

[Bioinformatics](#) Mar 31 2020 As more species' genomes are sequenced, computational analysis of these data has become increasingly important. The second, entirely updated edition of this widely praised textbook provides a comprehensive and critical examination of the computational methods needed for analyzing DNA, RNA, and protein data, as well as genomes. The book has been rewritten to make it more accessible to a wider audience, including advanced undergraduate and graduate students. New features include chapter guides and explanatory information panels and glossary terms. New chapters in this second edition cover statistical analysis of sequence alignments, computer programming for bioinformatics, and data management and mining. Practically oriented problems at the ends of chapters enhance the value of the book as a teaching resource. The book also serves as an essential reference for professionals in molecular biology, pharmaceutical, and genome laboratories.

[Neural Generation of Textual Summaries from Knowledge Base Triples](#) Jun 14 2021 Most people need textual or visual interfaces to help them make sense of Semantic Web data. In this book, the author investigates the problems associated with generating natural language summaries for structured data encoded as triples using deep neural networks. An end-to-end trainable architecture is proposed, which encodes the information from a set of knowledge graph triples into a vector of fixed dimensionality, and generates a textual summary by conditioning the output on this encoded vector. Different methodologies for building the required data-to-text corpora are explored to train and evaluate the performance of the approach. Attention is first focused on generating biographies, and the author demonstrates that the technique is capable of scaling to domains with larger and more challenging vocabularies. The applicability of the technique for the generation of open-domain Wikipedia summaries in Arabic and Esperanto – two under-resourced languages – is then discussed, and a set of community studies, devised to measure the

usability of the automatically generated content by Wikipedia readers and editors, is described. Finally, the book explains an extension of the original model with a pointer mechanism that enables it to learn to verbalise in a different number of ways the content from the triples while retaining the capacity to generate words from a fixed target vocabulary. The evaluation of performance using a dataset encompassing all of English Wikipedia is described, with results from both automatic and human evaluation both of which highlight the superiority of the latter approach as compared to the original architecture.

Nineteen Eighty-Four Oct 31 2022 "Nineteen Eighty-Four: A Novel", often published as "1984", is a dystopian social science fiction novel by English novelist George Orwell. It was published on 8 June 1949 by Secker & Warburg as Orwell's ninth and final book completed in his lifetime. Thematically, "Nineteen Eighty-Four" centres on the consequences of totalitarianism, mass surveillance, and repressive regimentation of persons and behaviours within society. Orwell, himself a democratic socialist, modelled the authoritarian government in the novel after Stalinist Russia. More broadly, the novel examines the role of truth and facts within politics and the ways in which they are manipulated. The story takes place in an imagined future, the year 1984, when much of the world has fallen victim to perpetual war, omnipresent government surveillance, historical negationism, and propaganda. Great Britain, known as Airstrip One, has become a province of a totalitarian superstate named Oceania that is ruled by the Party who employ the Thought Police to persecute individuality and independent thinking. Big Brother, the leader of the Party, enjoys an intense cult of personality despite the fact that he may not even exist. The protagonist, Winston Smith, is a diligent and skillful rank-and-file worker and Outer Party member who secretly hates the Party and dreams of rebellion. He enters into a forbidden relationship with a colleague, Julia, and starts to remember what life was like before the Party came to power.

PERSUASION Jan 28 2020 Persuasion is a novel written by a famous British writer Jane Austen. It is a story about the life of Anne Elliot, a middle daughter of baronet Sir Walter, a spender and bluffer. Due to these features of his character, he found himself in a difficult financial position. He has to rent a family estate Kellynch Hall in order to pay his debts. Meanwhile, his most smart and considerate daughter Anne goes to Uppercross to look after a sick sister. In the days of her youth she was mutually in love with Frederick Wentworth, but because of a fear of a poor marriage, "reasons of conscience" and on the insistence of a "family friend" Lady Russel Anne stopped her relationship with him. But now after eight years, some incredible coincidence happens. The family that rents Kellynch Hall is related to Frederick Wentworth. Is the old-time love still alive in the hearts of Anne and Frederick?

Christian Social Witness and Teaching: The modern social teaching : contexts, summaries, analysis Oct 26 2019 The second volume of Rodger Charles' two volume presentation of the Catholic Tradition from Genesis to Centesimus Annus addresses the Modern Social Teaching of the Church from the reign of Pope Leo XIII. The encyclical Rerum Novarum(1891) was a response to the problems of liberal capitalism and the industrial revolution in the Western world. Leo's successors were largely concerned with the ongoing problems of that programme, though Pius XI (1922-39) and more markedly Pius XII (1939-58) were also concerned with international problems. The years following the end of the Second World War demanded even more attention to these. Meanwhile many Western intellectuals doubted the viability of capitalism and some liberation theologians from the 1970s used Marxist social analysis as an integral part of their search for justice. As it happened, the 1980s brought about the collapse of real socialism and the resurgence of liberal capitalism. From the time of John XXIII (1953-63), the pastors of the Church have been responding to these new needs and with the advent of John Paul II, the controversies over liberation theology and the collapse of socialism, the pace of that response has quickened. Rodger Charles, Lecturer and Tutor in Moral and Pastoral Theology at Campion Hall, Oxford, has spent over thirty years researching, lecturing and writing in London, Oxford and San Francisco on the social teaching of the Church and its application. His book provides a masterly and an unrivalled introduction to this topic.

The Time Traveler's Wife Sep 05 2020 Rediscover the extraordinary love story that inspired the major new Sky TV series. Clare and Henry met when Clare was just six and Henry thirty-six, and were married when Clare was twenty-two and Henry thirty. Impossible but true. The Time Traveler's Wife is the international bestselling novel of a time-altering love. Henry is a librarian who suffers from a rare condition where his genetic clock periodically resets, finding himself pulled suddenly into his past or future.

Meanwhile, Clare is an artist waiting all her life for her great love Henry to appear. In the face of this force neither can prevent nor control, Henry and Clare's struggle to lead normal lives is both intensely moving and entirely unforgettable. 'Dark, unpredictable, incredibly clever and a modern romance' Grazia

The War of the Worlds Illustrated Dec 09 2020 The War of the Worlds is a science fiction novel by English author H. G. Wells, first serialized in 1897 by Pearson's Magazine in the UK and by Cosmopolitan magazine in the US. The novel's first appearance in hardcover was in 1898 from publisher William Heinemann of London. Written between 1895 and 1897, [2] it is one of the earliest stories to detail a conflict between mankind and an extraterrestrial race.[3] The novel is the first-person narrative of both an unnamed protagonist in Surrey and of his younger brother in London as southern England is invaded by Martians. The novel is one of the most commented-on works in the science fiction canon

The House of Mirth Jul 28 2022 The House of Mirth tells the story of Lily Bart, a well-born but impoverished woman belonging to New York City's high society around the turn of the last century. Lily is a woman of a stunning beauty who, though raised and educated to marry well both socially and economically, is reaching her 29th year, an age when her youthful blush is drawing to a close and her marital prospects are becoming ever more limited. The House of Mirth traces Lily's slow two-year social descent from privilege to a tragically lonely existence on the margins of society.

My Ántonia Aug 17 2021 'My Ántonia' was originally published in 1918 and was praised as a masterpiece of Willa Cather. It evokes the life of Willa Cather's childhood, and commemorates the spirit and courage of immigrant pioneers in America. One of Cather's earliest novels, it is the story of Ántonia Shimerda, who arrives on the Nebraska frontier as part of a family of Bohemian emigrants. Her story is told through the eyes of Jim Burden, a neighbor who will befriend Ántonia, teach her English, and follow the remarkable story of her life. Working in the fields of waving grass and tall corn that dot the Great Plains, Ántonia forges the durable spirit that will carry her through the challenges she faces when she moves to the city. But only when she returns to the prairie does she recover her strength and regain a sense of purpose in life. In the quiet, probing depth of Willa Cather's art, Ántonia's story becomes a mobbing elegy to those whose persistence and strength helped build the American frontier.

A Tale of Two Cities Illustrated Aug 29 2022 A Tale of Two Cities (1859) is a historical novel by Charles Dickens, set in London and Paris before and during the French Revolution. The novel tells the story of the French Doctor Manette, his 18-year-long imprisonment in the Bastille in Paris and his release to live in London with his daughter Lucie, whom he had never met. The story is set against the conditions that led up to the French Revolution and the Reign of Terror.

The Picture of Dorian Gray May 14 2021 Is the price of eternal youth worth a man's soul? The exceptionally handsome Dorian Gray is a model—and the muse—for a young artist, Basil Hallward. Through Basil, Dorian meets Lord Henry Wotton, who values only the pleasurable things in life with no regard for morality. He makes Dorian realize that one day his famed beauty will fade, and he will be left with nothing. Dorian decides to sell his soul so that a portrait of him will age in his place. As he indulges in every vice and selfish whim, his portrait grows increasingly hideous. But will he learn the true cost of his corruption in time to change his ways? This unabridged edition of British playwright Oscar Wilde's only novel, first published in 1891, begins with his famous preface, in which he justifies his artistic philosophy.

Holes Apr 12 2021 Stanley Yelnat's family has a history of bad luck going back generations, so he is not too surprised when a miscarriage of justice sends him to Camp Green Lake Juvenile Detention Centre. Nor is he very surprised when he is told that his daily labour at the camp is to dig a hole, five foot wide by five foot deep, and report anything that he finds in that hole. The warden claims that it is character building, but this is a lie and Stanley must dig up the truth. In this wonderfully inventive, compelling novel that is both serious and funny, Louis Sachar has created a masterpiece that will leave all readers amazed and delighted by the author's narrative flair and brilliantly handled plot.

this Instaread Summary: • Overview of the entire book • Introduction to the important people in the book • Summary and analysis of all the chapters in the book • Key Takeaways of the book • A Reader's Perspective Preview of this summary: Chapter 1 In 2007, stock brokers were frustrated by the varying speed of communication between the Chicago Mercantile Exchange and the data center beside the Nasdaq stock exchange in Carteret, New Jersey. A former stock broker, Dan Spivey, researched the situation and discovered that most fiber optics buried between the two cities followed train tracks and major cities. The problem lay in the fact that this route was not straight, as was ideal for speed of communication, but made many twists and turns. Spivey studied maps and found a route following small paved roads and dirt roads that were straighter. Spivey traveled the route with a construction man, looking for obstacles. They were unable to find any. Spivey founded a company with Jim Barskdale, the former CEO of Netscape Communications, called Spread Networks. Through this company they began the complicated process of laying the fiber. This included more than four hundred deals that had to be arranged with the many towns the route transected. Spivey contacted construction engineer Steve Williams, and asked him to supervise the laying of fifty miles of fiber, starting in Cleveland. Williams did such a good job, Spivey and Barskdale hired him to supervise the complete installation. Williams and Spivey disagreed on the route on many occasions. Spivey was frustrated with Williams' attempts to avoid obstacles by deviating from the route and Williams did not understand why the straight route was so important. A full year after Spread began burying the fiber, their project remained a secret. Even their workers were kept in the dark to protect the project from being blown out of the water by unwanted competition. Then it was time to begin selling the line to Wall Street. Unfortunately, it was difficult to prove the value of their product, let alone prove that it existed. To solve this, Spivey went to sales meetings with a large map that showed the route of the fiber as well as pictures of the amplifiers built inside maximum security bunkers along the route. The reception was not always good. Many disliked the language of the contract Spread wanted them to sign, especially the language that kept the companies from sharing the line with their clients. Spread ran into multiple problems finishing their project. One held them up for some time while they struggled to find a way to bury cable under a river. They eventually found a tunnel that worked perfectly for their purposes. Another was the hostility they faced in a small town in Pennsylvania when they attempted to get permission to dig under a parking lot that blocked their route.....

Summary and Analysis of A History of God: The 4,000-Year Quest of Judaism, Christianity, and Islam Feb 29 2020 So much to read, so little time? This brief overview of A History of God tells you what you need to know—before or after you read Karen Armstrong's book. Crafted and edited with care, Worth Books set the standard for quality and give you the tools you need to be a well-informed reader. This short summary and analysis of A History of God by Karen Armstrong includes: Historical context Chapter-by-chapter summaries Detailed timeline of important events Important quotes Fascinating trivia Supporting material to enhance your understanding of the original work About A History of God by Karen Armstrong: A History of God is a rich and comprehensive account of the concept of God across thousands of years of human history. Karen Armstrong, a former nun, focuses on Judaism, Christianity, and Islam, with insights into the work of Western history's great theologians and philosophers. Can humanity persist without some idea of God? Far from moving into an era of pure atheism, Armstrong believes that God as a construct is more crucial now than ever. God is not "dead," God has not abandoned us, God merely shape-shifts to adapt to new contexts, whether that context is medieval agrarianism, nineteenth-century romanticism, or twenty-first-century post-modern techno-urbanism. Armstrong's in-depth examination of monotheism provides a foundation for the curious novice while not holding back on academic concepts and obscure but fascinating historical accounts. The summary and analysis in this ebook are intended to complement your reading experience and bring you closer to a great work of nonfiction.
