Story Maps Oct 30 2019 Learn the secrets to writing a GREAT screenplay from a major Hollywood movie studio Story Analyst who will show you how to BLOW AWAY THE READER! Master the structure and principles used by 95% of commercial movies by studying detailed breakdowns, or "Story Maps," of several recent hit movies in all different genres, including The Hangover, The Dark Knight, The Wrestler, Juno, The Social Network, Black Swan, How to Lose a Guy in 10 Days and Drag Me To Hell. "STORY MAPS: How to Write a GREAT Screenplay" cites examples from hundreds of hit films, several television series and includes samples from actual produced screenplays to show you HOW TO DO IT. Detailed lessons on format, capturing voice and tone on the script page and developing great characters with powerful dialogue are SHOWN IN ACTION in classic films such as Sunset Boulevard, The

Godfather, Gladiator and As Good As It Gets, to name just a few of the hundreds of great movies analyzed in the book. The book also includes EXCLUSIVE insights from major industry professionals with whom the author has interacted with at events in Los Angeles and New York City, including Robert Zemeckis... the screenwriters of Final Destination, Limitless, Armageddon, Antwone Fisher, Speed, Justified and Blade Runner... Louis C.K.... Elijah Wood... and the President of Production of Columbia Pictures. This approach is simple: you learn from the PROS by studying their work and reading their advice. This is NOT a formula or just another structure paradigm - it is the view from behind the desk of the people evaluating your screenplay, what they want to read and what they will buy. With all the competition in the Hollywood marketplace, your script can't just be good, it must be GREAT. "There is a lot of great advice here... Most important, as I read Calvisi s "Story Maps," I was inspired to rethink my current project. And that s what it s all about, right -SCRIPT MAGAZINE Daniel Calvisi s "Story Maps" is readable, insightful and exciting. It focuses on the hard work and narrative strategies the screenwriter needs to adopt to write a commercially viable screenplay, and is up to date and strategic in the clearest way. Dan s book will help you do what you must do to succeed with your screenplay. -Ken Dancyger, best-selling author of "Broadcast Writing, Alternative Scriptwriting" and "Writing the Short Film" "Loved it! Should be required reading in every film school. -Daniel Fazel, sold screenwriter and VFX Artist ("Alice in Wonderland, Benjamin Button, I Robot") "Writing a great screenplay is not easy. This book provides a simple way to approach your idea or rewrite for maximum results...and helpful to evaluate your work in whatever stage it's at so you can make necessary improvements that will allow your unique story and vision to shine!" -Laurie Lamson, co-editor "Now Write! Screenwriting" "Dan has a no-nonsense approach to screenplay analysis that cuts through the bull and delivers the goods. A must read for serious screenwriters. -J. Stephen Maunder, writer/director ("Tiger Claws I, II, III, The Veteran, Shadows in Paradise")

Wham! Teaching with Graphic Novels Across the Curriculum Dec 01 2019 Graphic novels are an excellent medium to motivate today's youth to become independent learners and thinkers. This practical guide shows secondary school teachers how to incorporate graphic novels into content area instruction as a tool for meeting the needs of diverse learners and achieving the goals of the Common Core State Standards.

The authors provide instructional guidelines with classroom examples that demonstrate how graphic novels can be used to expand content knowledge and literacy in science, social studies, math, and English/language arts. Teachers will appreciate the book's specific suggestions for selecting graphic novels and for employing responsive practices that will build students' reading, writing, speaking, listening, and media competencies. "The range and complexity of graphic novels being published right now is simply amazing to me. . . . They are part of what should be a balanced array of texts that all can read, enjoy, and learn from. In this volume, the authors point to this proliferation, as well as the educative potential of graphic novels. After reading its pages, I feel others will agree with me that they have done an excellent job pointing out how graphic novel creators such as Jim Ottaviani and Larry Gonick communicate much about history, science, and mathematics while also making connections to comprehension and thinking skills that accompany both literacy and content-specific learning." —From the Foreword by Stergios Botzakis, assistant professor of adolescent literacy in the Theory and Practice in Teacher Education Department at The University of Tennessee, Knoxville "The authors have set forth on a task I feel long is overdu—connecting the literacy potential of graphic novels to the content areas. This book is a wonderful contribution to the field of content area literacy studies." —Michael D. Boatright, assistant professor, Department of English, Western Carolina University Book Features: Advice for selecting and evaluating graphic novels. Teaching strategies for each of the four major content domains. Guidance for aligning instruction with the Common Core State Standards. A list of educational graphic novels organized by content area. Study group questions.And more! William G. Brozo is a professor of literacy in the Graduate School of Education at George Mason University in Fairfax, Virginia, and author of RTI and the Adolescent Reader. Gary Moorman is professor emeritus at Appalachian State University in Boone, North Carolina. Carla K. Computer-Assisted Language Learning: Concepts, Methodologies, Tools, and Applications Feb 12 2021 In a diverse society, the ability to

cross communication barriers is critical to the success of any individual personally, professionally, and academically. With the constant acceleration of course programs and technology, educators are continually being challenged to develop and implement creative methods for engaging English-speaking and non-English-speaking learners. Computer-Assisted Language Learning: Concepts, Methodologies, Tools, and Applications is a vital reference source that examines the relationship between language education and technology and the potential for curriculum enhancements through the use of mobile technologies, flipped instruction, and language-learning software. This multi-volume book is geared toward educators, researchers, academics, linguists, and upper-level students seeking relevant research on the improvement of language education through the use of technology.

Death and the Maiden Jul 28 2019 "Suspenseful, riveting . . . Achieves a universality that is movingly personal." —The New York Times The explosively provocative, award-winning drama set in a country that has just emerged from a totalitarian dictatorship Gerardo Escobar has just been chosen to head the commission that will investigate the crimes of the old regime when his car breaks down and he is picked up by the humane doctor Roberto Miranda. But in the voice of this good Samaritan, Gerardo's wife, Paulina Salas, thinks she recognizes another man—the one who raped and tortured her as she lay blindfolded in a military detention center years before. Relentlessly paced and filled with lethal surprises, Death and the Maiden is an inquest into the darker side of humanity—one in which everyone is implicated and justice itself comes to seem like a fragile, perhaps ambiguous invention.

Virtual and Classroom Learning in Higher Education: A Guide to Effective Online Teaching Sep 29 2019 The recent COVID-19 pandemic has prompted educators to utilize online learning resources in order to comply with public health and social distancing mandates. The transition to virtual classrooms has created several opportunities and challenges for all stakeholders involved in the educational ecosystem. The ability of the classroom instructor to impart learning to students requires considerable adjustments from both students and teachers, which can be a new experience for educational professionals. Virtual and Classroom Learning in Higher Education serves as a handy guide for instructors to effective online teaching with a focus on higher education. The book presents reviews on different aspects of online teaching, distilling key findings in an easy to understand manner for the reader. It provides educators with knowledge which familiarizes them with online teaching models and concepts (such as micro-learning, synchronous and asynchronous learning, online pedagogy, dynamic learning experience and more). Chapters are contributed by experts in online learning and cover the topic from different angles, giving the reader a broad perspective on virtual classrooms. Virtual and Classroom Learning in Higher Education is an essential read for administrators and educators involved in higher education settings, and general readers who are interested in widening their view of the online teaching model.

Blended Learning in Practice Nov 23 2021 A guide to both theory and practice of blended learning offering rigorous research, case studies, and methods for the assessment of educational effectiveness. Blended learning combines traditional in-person learning with technology-enabled education. Its pedagogical aim is to merge the scale, asynchrony, and flexibility of online learning with the benefits of the traditional classroom—content-rich instruction and the development of learning relationships. This book offers a guide to both theory and practice of blended learning, offering rigorous research, case studies, and methods for the assessment of educational effectiveness. The contributors to this volume adopt a range of approaches to blended learning and different models of implementation and offer guidelines for both researchers and instructors, considering such issues as research design and data collection. In these courses, instructors addressed problems they had noted in traditional classrooms, attempting to enhance student engagement, include more active learning strategies, approximate real-world problem solving, and reach non-majors. The volume offers a cross-section of approaches from one institution, Georgia Tech, to provide both depth and breadth. It examines the methodologies of implementation in a variety of courses, ranging from a first-year composition class that incorporated the video game Assassin's Creed II to a research methods class for psychology and computer science students. Blended Learning will be an essential resource for educators, researchers, administrators, and policy makers. Contributors Joe Bankoff, Paula Braun, Mark Braunstein, Marion L. Brittain, Timothy G. Buchman, Rebecca E. Burnett, Aldo A. Ferri, Bonnie Ferri, Andy Frazee, Mohammed M. Ghassemi, Ashok K. Goel, Alyson B. Goodman, Joyelle Harris, Cheryl Hiddleson, David Joyner, Robert S. The Boy At the Back of the Class Jul 08 2020 A World Book Day 2020 Author WINNER OF THE BLUE PETER BOOK AWARD 2019 WINNER OF THE WATERSTONES CHILDREN'S BOOK PRIZE 2019 SHORTLISTED FOR THE JHALAK PRIZE 2019 Told with heart and humour, The Boy at the Back of the Class is a child's perspective on the refugee crisis, highlighting the importance of friendship and kindness in a world that doesn't always make sense. There used to be an empty chair at the back of my class, but now a new boy called Ahmet is sitting in it. He's nine years old (just like me), but he's very strange. He never talks and never smiles and doesn't like sweets - not even lemon sherbets, which are my favourite! But then I learned the truth: Ahmet really isn't very strange at all. He's a refugee who's run away from a War. A real one. With bombs and fires and bullies that hurt people. And the more I find out about him, the more I want to help. That's where my best friends Josie, Michael and Tom come in. Because you see, together we've come up with a plan. . . With beautiful illustrations by Pippa Curnick

Pedagogy of Entanglement Apr 04 2020 In this hyperconnected, dynamic world we live in, permeated by profound challenges and transformations, the awareness of complexity is unequivocally on the rise. This monograph argues that it is high time that our educational institutions and pedagogical approaches come to mirror this growing awareness, to assist and inspire humanity to embrace complexity, to learn to move within it with increasing sensitivity and wisdom. Doing so is necessary, for if there is one thing that the years behind us bear witness of, it is that the tendency and attempt to simplify, separate, control, and indeed exploit has – as the dark side of the advancements of modern life – brought upon us unprecedented ecological and humanitarian crises. Schools, notably, are not closed spaces separated from society but open places within society, and as such they are inevitably complicit in the (re)shaping of our shared world. This book, therefore, proposes an ambitious pedagogical agenda. Specifically, it explores the relational ontological premise of entanglement in the context of pedagogical theory, raising the question of how, as teachers, we might meaningfully and responsibly engage with the myriad ways in which students are simultaneously shaped-by and shapers-of contemporary societal challenges. In close collaboration with twelve teachers as co-researchers, the book offers six ''helpful perspectives'' for teachers seeking to embrace such complexity in their own practices, referred to as: (1) entanglement-orientedness, (2) entanglement-awareness, (3) hopeful action, (4) inquiry within entangled phenomena, (5) practicing perceptiveness, and (6) practicing integrity.

Assessment in Online and Blended Learning Environments Mar 28 2022 Online and blended learning requires the reconstruction of instructor and learner roles, relations, and practices in many aspects. Assessment becomes an important issue in non-traditional learning environments. Assessment literacy, i.e., understanding assessment and assessment strategies, is critical for both instructors and students in creating online and blended environments that are effective for teaching and learning. Instructors need to identify and implement assessment strategies and methods appropriate to online or blended learning. This includes an understanding of the potential of a variety of technology tools for monitoring student learning and improving their teaching effectiveness. From the students' perspective, good assessment practices can show them what is important to learn and how they should approach learning; hence, engaging them in goal-oriented and self-regulatory cognitions and behaviors. The book targets instructors, instructional designers, and educational leaders who are interested in understanding and implementing either summative or formative assessment in online and blended learning environments. This book will assist the relevant audience in the theory and practice of assessment in online and blended learning environments. Providing both a research and practice perspective, this book can help instructors make the connection between pedagogy and technology tools to maximize their teaching and student learning. Among the questions addressed in this book are: • What assessment strategies can be used in online or blended learning? • How can instructors design effective assessment strategies? • What methods or technology tools can be used for assessment in online or blended learning? • How does peer-assessment work in online or blended learning environments?
