The day I stumbled on a four-legged critter with human eyes, the rightness of my revenge begun to unravel, leading me to a clan of two-natured shifters what'd been living under my nose the whole time. And when the two-natured started showing up in odd places, stalking humans in a very unnatural way, weren't nothing I could do but dig to the bottom of it. And what I found turned my world and ever thing I knowed upside down. A Magic, Mayhem & Monsters Story.

Suspicions are the Assassin was involved with the Iranians Presidents plan to destroy Israel. Iran had developed high powered microwave weapon that would kill all living things exposed to the blast but would only cause minimal property damage. Israels new X-brand missile radar system had to be compromised with Irans new non-nuclear electromagnetic pulse warhead for up to thirty minutes so that 56-Iranian missiles could be fired into Israel from Syria and Jordan. Hanley, Vadim, and Newton are unable to stop the missile attack on Israel. The blasts from the war heads eradicate most of the living beings in Israel. That's 85% of all workers with nothing set aside specifically for old age. Social Security represents 39% of all elderly income. For 65% of 33 million retired workers Social Security makes up more than half their income. Maybe that's you. For 22% Social Security is their only income. That's me. Could be that's you too. "Live to ride, ride to live." For many motorcycle riders, these words express life's guiding principle. Just take a look at the patch emblazoned on the jackets of legions of riders. Wayne Johnson, a lifelong motorcycle-lover and acclaimed writer, takes us around the globe and onto the terrain where the most extreme, thrilling forms of riding happen. Johnson shows where it all began more than a hundred years ago when the first motorcycle evolved from the bicycle and lands us on the track today with some of the world's highest-paid athletes— professional motorcycle road racers. From there we go inside radically different competitions like the vertigo-inspiring "Widowmaker Hillclimb" and the fastest land racing on the planet at the Bonneville Salt Flats. Johnson also offers an inside look at the legendarily secretive culture of biker clubs with firsthand accounts of his own wild rides with an outlaw club. In every one of these venues, you aren't just passing through as an observer—you are on a bike, racing across new and undiscovered country, the horizon your only destination. If you have ever wondered what it's like to climb on a motorcycle and feel its engine roar to life, or have actually done it and felt the rush of flying off into the wild blue yonder, or have simply been intrigued by this iconic part of American culture and history, hold on tight for this irresistible, one-of-a-kind journey into motorcycling.

*Down and Out in Patagonia, Kamchatka, and Timbuktu* Nov 17 2021 The first-ever firsthand chronicle of Dr. Gregory W. Frazier's never-ending motorcycle ride. A little over 40 years ago, a man named Gregory W. Frazier got on his motorcycle, went for a ride, and never returned. He's still out there, circumnavigating the globe: exploring the jungles of Asia in the winter, trout fishing in Alaska in the summer, and covering all points in between during the rest of the year. He's been shot at by rebels, jailed by unfriendly authorities, bitten by snakes, run over by Pamplona bulls, and smitten by a product of Adam's rib. He's circled the globe five times and has covered well over one million miles (and counting). During those past four decades, Dr. Frazier has been chronicling and photographing his around-the-world adventures, publishing 13 books on the subject (including one previous title for Motorbooks), the majority of which have been manuals for touring specific locations or general how-to-tour-by-motorcycle books. He has also produced 9 documentary DVDs on the same subject. But until now, nothing in print has encompassed the entirety of his worldwide motorcycle adventures. Now, for the first time, he has written his on-the-road autobiography that captures the whole of his extraordinary travels in words and images. Down and Out in Patagonia, Kamchatka, and Timbuktu tells the amazing ongoing story of Dr. Frazier, one of the world's single most well-traveled motorcyclists.

This book also collects the book reviews of one scholar: Max J. Skidmore, Sr. into one volume, using his ideas and themes to illustrate how reviews have a life of their own, evolving and developing beyond the original work covered.
