The Bookshop of the World Mar 13 2021 The untold story of how the Dutch conquered the European book market and became the world's greatest bibliophiles--"an instant classic on Dutch book history" (BMGN - Low Countries Historical Review) "[An] excellent contribution to book history."--Robert Darnton, New York Review of Books The Dutch Golden Age has long been seen as the age of Rembrandt and Vermeer, whose paintings captured the public imagination and came to represent the marvel that was the Dutch Republic. Yet there is another, largely overlooked marvel in the Dutch world of the seventeenth century: books. In this fascinating account, Andrew Pettegree and Arthur der Weduwen show how the Dutch produced many more books than pictures and

bought and owned more books per capita than any other part of Europe. Key innovations in marketing, book auctions, and newspaper advertising brought stability to a market where elsewhere publishers faced bankruptcy, and created a population uniquely well-informed and politically engaged. This book tells for the first time the remarkable story of the Dutch conquest of the European book world and shows the true extent to which these pious, prosperous, quarrelsome, and generous people were shaped by what they read. *Secrets of the World's Worst Matchmaker* Nov 08 2020 Colton is Juno's best friend. He'd usually be the one she goes to for advice on what do you do when you fall in love with your best Imagine you're a matchmaker and you realize too late you're in love with your childhood best

friend. You only have yourself to blame—you're the one who matched him and now he's engaged to be married. When you find yourself in this position there's a few secrets you're going to need to keep... Secret #1 - Smile when he tells you the happy news, even if your heart cracks in half. Secret #2 - Don't compare yourself to his beautiful French fiancée. You're just as beautiful. Secret #3 - Don't tag along to the tux fitting with him alone. Just no. Secret #4 - Don't help him learn to dance to his wedding song. Secret #5 - Erase all memories of the two of you through the years when lines blurred for even the briefest of moments. And the one you never saw coming... Secret #6 - Definitely, don't stand and object—someone else might just do it for you.

Tomorrow, the World Aug 18 2021 A new history explains how and why, as it prepared to enter World War II, the United States decided to lead the postwar world. For most of its history, the United States avoided making political and military commitments that would entangle it in European-style power politics. Then, suddenly, it conceived a new role for itself as the world's armed superpower—and never looked back. In *Tomorrow, the World*, Stephen Wertheim traces America's transformation to the crucible of World War II, especially in the months prior to the attack on Pearl Harbor. As the Nazis conquered France, the architects of the nation's new foreign policy came to believe that the United States ought to achieve primacy in international affairs forevermore. Scholars have struggled to explain the decision to pursue global supremacy. Some deny that American elites made a willing choice, casting the United States as a reluctant power that sloughed off "isolationism" only after all potential competitors lay in ruins. Others contend that the United States had always coveted global dominance and realized its ambition at the first opportunity. Both views are wrong. As late as 1940, the small coterie of officials and experts who composed the U.S. foreign policy class either wanted British preeminence in global affairs to continue or hoped that no power would dominate. The war, however, swept away their assumptions, leading them to conclude that the United States should extend its form of law and order across the globe and back it at gunpoint.

Wertheim argues that no one favored "isolationism"—a term introduced by advocates of armed supremacy in order to turn their own cause into the definition of a new "internationalism." We now live, Wertheim warns, in the world that these men created. A sophisticated and impassioned narrative that questions the wisdom of U.S. supremacy, *Tomorrow, the World* reveals the intellectual path that brought us to today's global entanglements and endless wars.

All That's Left in the World Feb 21 2022 Jamie and Andrew are strangers, but they're two of the last people left alive. They don't know what they'll find on their dangerous journey ... but they may just find each other. A queer romance about courage, hope and humanity for fans of *They Both Die at the End*, *The Hunger Games* and *Simon vs the Homo Sapiens Agenda*. When the Superflu wipes out most of the population, Jamie finds himself completely alone in a cabin in the woods - until an injured stranger crosses his path. Life is dangerous now and, armed with a gun, Jamie goes to pull the trigger. But there's something about Andrew ... something that stops Jamie in his tracks. Jamie takes him in, and as Andrew heals and they eventually step out into the strange new world, their relationship starts to feel like more than just friendship ... But trouble isn't far behind. As the boys make a perilous journey south, they'll come face to face with a world torn apart and society in ruins. And who, or what, will they find waiting for them at the end of it all? "Tense, exciting, sometimes heartbreaking and always romantic, *All That's Left in the World* explores what it means to hold onto hope and humanity when the worst case scenario becomes reality. With characters you'll adore, and a fast-paced, mysterious plot that keeps you turning the pages as fast as you can devour them, this book is not to be missed." - Sophie Gonzales, author of *ONLY MOSTLY DEVASTATED* "Brown has somehow achieved a book that is romantic, hilarious, warm-hearted, hopeful, and page-turningly thrilling all at once. I was hooked from beginning to end." - Dahlia Adler, author of *COOL FOR THE SUMMER* "A timeless love story that could not be more appropriate for this moment, *All That's Left in the World* is a thrilling, heartfelt, and beautifully written

debut." - Tom Ryan, author of *I HOPE YOU'RE LISTENING* "Survival is core to the queer experience, and in *All That's Left In the World*, Brown takes that to apocalyptic extremes with the story of Andrew and Jamie. This is quintessentially brave, dangerous-in-the-best-way queer storytelling!" - Adam Sass, author of *SURRENDER YOUR SONS* "All That's Left in the World is unfailingly riveting and hopeful. A timely exploration of survival, trauma, and love stitched together with sharp wit and bone-deep emotion. Erik J. Brown is an invigorating voice to watch out for." - Julian Winters, award-winning author of *RUNNING WITH LIONS*

A Day in the World Jul 17 2021 One

Day—millions of perspectives. On May 15, 2012, people from around the globe will pick up their cameras to record their lives, *A Day in the World* will be the result. Professionals and amateur shutterbugs alike are featured in this beautiful edition, the most comprehensive photographic documentation of daily life ever made. Tribal areas and urban sprawl, intimate portraits and riotous events, *A Day in the World* captures a global scope with the candor only a photograph can capture. The book was the brainchild of the movement *Aday.org*, a unique project that celebrates the power of photography to encourage cultural understanding. Based on the philosophy that everyone's life matters, contributors come from areas as varied as the Earth itself—farmers, fishermen, office workers, and award-winning photo-journalists. Harnessing the reach of the Web, an interactive site was the hub for the project, and then the best 1000 images were selected by an international jury. Ultimately, *A Day in the World* is not only an around-the-globe ticket for the armchair traveler—it is an invaluable record of the people on our planet, sure to spark reflections on humankind for generations to come. *A Day in the World* launches from *Aday.org*, a branch of the foundation *Expressions of Humankind*. The foundation's council includes Archbishop Desmond Tutu, Sir Richard Branson, singer/songwriter Robyn, and a host of other luminaries and advocates for the project.

The Only Girl in the World Jun 23 2019 For readers of *Damaged* and *Running with Scissors*, a chilling exploration of psychological control

that ends with a glorious escape. Maude still remembers the sound of the gate being locked behind her. She was three years old when they moved into the secluded manor and in the coming years, she would only be allowed out a handful of times. Her parents belonged to a fanatical Masonic order. She followed a strict schedule of study, hard labour and endless drills designed to 'eliminate weakness', such as holding an electric fence without flinching and sitting in a rat-infested cellar. But despite their chilling psychological control, her parents could not control her inner life. Befriending animals on the lonely estate and characters in the books she read, Maude nurtured in herself the compassion and love her parents forbade.

Home in the World Feb 09 2021 The extraordinary early life in India and England of one of the world's leading public intellectuals Where is 'home'? For Amartya Sen, home has been many places - Dhaka in modern Bangladesh, the little university town of Santiniketan, where he was raised as much by his grandparents as by his parents, Calcutta where he first studied economics and was active in student movements, and Trinity College, Cambridge, to which he came aged 19. Sen brilliantly recreates the atmosphere in each of these. He remembers his river journeys between Dhaka and his parents' ancestral homes and wonderfully explores the rich history and culture of Bengal. In 1943 he witnessed the disastrous unfolding of the Bengal Famine, and the following year the inflaming of tensions between Hindus and Muslims. In the years before Independence, some of his family were imprisoned for their opposition to British rule. Central to Sen's formation was the intellectually liberating school in Santiniketan founded by Rabindranath Tagore (who gave him his name Amartya) and exciting conversations in the Coffee House on College Street in Calcutta. In Cambridge, he engaged with many of the leading economists and philosophers of the day, especially with the great Marxist thinker Piero Sraffa, who provided a direct connection not only to Wittgenstein, but to Antonio Gramsci and the anti-fascist battles in Italy in the 1920s. After years in Europe and America, the book ends when he returns to Delhi in 1963. *Home in the World* shows how Sen's experience shaped his

ideas - about economics, philosophy, identity, community, famines, gender inequality, social choice and the power of discussion in public life. The joys of learning and the importance of friendship are powerfully conveyed. He invokes some of the great thinkers of the past and his own time - from Ashoka in the third century BC and Akbar in the sixteenth, to David Hume, Adam Smith, Karl Marx, John Maynard Keynes, Maurice Dobb, Kenneth Arrow and Eric Hobsbawm. Above all, Sen emphasises the importance of enlarging our views as much as we can, of human sympathy and understanding across time and distance, and of being at home in the world.

The Mushroom at the End of the World Dec 30 2019 What a rare mushroom can teach us about sustaining life on a fragile planet Matsutake is the most valuable mushroom in the world—and a weed that grows in human-disturbed forests across the northern hemisphere. Through its ability to nurture trees, matsutake helps forests to grow in daunting places. It is also an edible delicacy in Japan, where it sometimes commands astronomical prices. In all its contradictions, matsutake offers insights into areas far beyond just mushrooms and addresses a crucial question: what manages to live in the ruins we have made? A tale of diversity within our damaged landscapes, *The Mushroom at the End of the World* follows one of the strangest commodity chains of our times to explore the unexpected corners of capitalism. Here, we witness the varied and peculiar worlds of matsutake commerce: the worlds of Japanese gourmets, capitalist traders, Hmong jungle fighters, industrial forests, Yi Chinese goat herders, Finnish nature guides, and more. These companions also lead us into fungal ecologies and forest histories to better understand the promise of cohabitation in a time of massive human destruction. By investigating one of the world's most sought-after fungi, *The Mushroom at the End of the World* presents an original examination into the relation between capitalist destruction and collaborative survival within multispecies landscapes, the prerequisite for continuing life on earth.

Will in the World Jul 05 2020 Stephen Greenblatt's *Will in the World* is widely recognised to be the fullest and most brilliant account ever written of Shakespeare's life, his work and his age. Shakespeare was a man of his time, constantly engaging with his audience's deepest desires and fears, and by reconnecting with this historic reality we are able to experience the true character of the playwright himself. Greenblatt traces Shakespeare's unfolding imaginative generosity - his ability to inhabit others, to confer upon them his own strength of spirit, to make them truly live as independent beings as no other artist has ever done. Digging deep into the vital links between the playwright and his world, *Will in the World* provides the fullest account ever written of the living, breathing man behind the masterpieces.

Self in the World Jul 25 2019 Eminent anthropologist Keith Hart draws on the humanities, popular culture and his own experiences to help readers explore their own place in history. We each embark on two life journeys - one out into the world, the other inward to the self. With these journeys in mind, anthropologist, amateur economist and globetrotter Keith Hart reflects on a life of learning, sharing and remembering to offer readers the means of connecting life's extremes - individual and society, local and global, personal and impersonal dimensions of existence

and explores what it is that makes us fully human. "This is a work of great originality. Keith Hart has had an unorthodox academic career and it has liberated him in many ways from academic pieties. His background in African ethnography gives him a fascinating angle on all sorts of things, not least the possibility of a more African-influenced global future. The book is full of surprises and mind-shifting observations. I actually couldn't put it down."—Sherry B. Ortner, UCLA From the introduction: People have many sides, but I will focus here on two. Each of us is a biological organism with a historical personality that together make us a unique individual. But we cannot live outside society which shapes us in unfathomable ways. Human beings must learn to be self-reliant (not self-interested) in small and large ways: no-one will brush your teeth for you or save you from being run over while crossing the street. We each must also learn to belong to others, merging personal identity in a plethora of social relations and categories. Modern ideology insists that being individual and mutual is problematic. The culture of capitalist societies anticipates a conflict between them. Yet they are inseparable aspects of human nature.
