B Is for Bad Cinema Jun 22 2021 Considers films that lurk on the boundaries of acceptability in taste, style, and politics. B Is for Bad Cinema continues and extends, but does not limit itself to, the trends in film scholarship that have made cult and exploitation films and other "low" genres increasingly acceptable objects for critical analysis. Springing from discussions of taste and value in film, these original essays mark out the broad contours of "bad" that is, aesthetically, morally, or commercially disreputable cinema. While some of the essays share a kinship with recent discussions of B movies and cult films, they do not describe a single aesthetic category or represent a single methodology or critical agenda, but variously approach bad cinema in terms of aesthetics, politics, and cultural value. The volume covers a range of issues, from the aesthetic and industrial mechanics of low-budget production through the terrain of audience responses and cinematic affect, and on to the broader moral and ethical implications of the material. As a result, B Is for Bad Cinema takes an interest in a variety of film examples overblown Hollywood blockbusters, faux pornographic works, and European art house films to consider those that lurk on the boundaries of acceptability.

Genre and Hollywood Aug 01 2019 Genre and Hollywood provides a comprehensive introduction to the study of genre. In this important new book, Steve Neale discusses all the major concepts, theories and accounts of Hollywood and genre, as well as the key genres which theorists have written about, from horror to the Western. He also puts forward new arguments about the importance of genre in understanding Hollywood cinema. Neale takes issue with much genre criticism and genre theory, which has provided only a partial and misleading account of Hollywood's output. He calls for broader and more flexible conceptions of genre and genres, for more attention to be paid to the discourses and practices of Hollywood itself, for the nature and range of Hollywood's films to be looked at in more detail, and for any assessment of the social and cultural significance of Hollywood's genres to take account of industrial factors. In detailed, revisionist accounts of two major genres - film noir and melodrama - Neale argues that genre remains an important and productive means of thinking about both New and old Hollywood, its history, its audiences and its films.

The Complete Guide to Finding the Mammals of Australia Jun 03 2022 Australia has a rich and unique array of animals, including the largest diversity of marsupials on earth. The recent growth in ecotourism has increased the popularity of mammal-spotting, particularly whale and dolphin-watching, but also spotting of perennial tourist favourites such as koalas and kangaroos. Birdwatchers have for many years known of sites where special or difficult-to-see species may be reliably located. However, despite their comparative abundance and spectacular diversity, many of Australia's unique mammals remain under-appreciated because there has been little available information on where to see them - until now. For the first time ever, The Complete Guide to Finding the Mammals of Australia advises interested amateurs and professionals where to locate many of Australia's mammals. The book describes Australia's best mammal-watching sites state-by-state. It also includes a complete, annotated taxonomic list with hints on finding each species (or why it won't be easy to see); sections on travel and logistics in Australia; and appendices with hints on finding and photographing mammals. This book will be of interest to anyone wanting to observe or photograph Australian mammals in the wild, mammal enthusiasts, biological field workers and volunteers, tourists and ecotourists.

The Guns of Independence May 10 2020 In early 1781, after his victories in the Southern Colonies, Lord Cornwallis marched his army north into Virginia. He believed the Americans could be decisively defeated in Virginia and the war brought to an end. George Washington believed Cornwallis's move was a strategic blunder, and he moved vigorously to exploit it. Feinting against General Clinton and the British stronghold of New York, Washington marched his army quickly south. With the assistance of Rochambeau's infantry and a key French naval victory at the Battle off the Capes in September, Washington trapped Cornwallis on the tip of a narrow Virginia peninsula at a place called Yorktown. And so it began. Operating on the belief that Clinton would arrive with reinforcements, Cornwallis confidently remained within Yorktown's inadequate defenses. Determined that nothing short of outright surrender would suffice, his opponent labored day and night to achieve that end. Washington's brilliance was on display as he skillfully constricted Cornwallis's position by digging entrenchments, erecting redoubts and artillery batteries, and launching well-timed attacks to capture key enemy positions. The nearly flawless Allied campaign sealed Cornwallis's fate. Trapped inside crumbling defenses, he surrendered on October 19, 1781, effectively ending the war in North America.

Solway Country Jan 18 2021 The Solway Country - the lands surrounding the inner Solway Firth - constitutes one of the many small regional worlds of the British Isles that are remarkable for the ways in which their landscapes evoke a powerful sense of territorial identity rooted not only in their physical appeal, but also in the richness and distinctiveness of their human history and geography. The Solway Country is an archetypical but hitherto little known exemplar of places like these. This book captures the spirit and substance of the Solway Country's allure by means of a series of layered narratives dealing with its natural milieu, its past social and political turmoil, its changing forms of rural and agrarian life, and its responses to the industrial and urban forces that were unleashed in Britain after the eighteenth century. The Solway Country has the added charm of being partly in England and partly in Scotland, so that its personality partakes of elements of both. At the same time, the region exhibits a composite geographic unity derived from the central physical feature of the Solway Firth itself and from the many common aspects of local life and livelihood that have left deep imprints on the landscape. This unity is expressed symbolically in the peculiar hybrid culture of ballads and songs that emerged alongside the theft, murder, and mayhem that raged in the Anglo-Scottish marchlands in the days of the border reivers.

The Gest of Robyn Hode: A Critical and Textual Commentary Sep 25 2021 The "Gest" is the earliest major writing about Robin Hood — although it tells a tale very different from that found in most modern retellings. This version attempts to produce a more accurate text of the long-lost original; it also provides a modernized parallel. To this is added an extensive historical introduction, line-by-line commentary, vocabulary study, and a selection of other texts which clarify the context of the "Gest." Dedicated to Patricia Rosenberg.

Writing Wales, from the Renaissance to Romanticism Nov 27 2021 Writing Wales explores representations of Wales in English and Welsh literatures written across a broad sweep of history, from the union of Wales with England in 1536 to the beginnings of its industrialization at the turn of the nineteenth century. The collection offers a timely contribution to the current devolutionary energies that are transforming the study of British literatures today, and it builds on recent work on Wales in Renaissance, eighteenth-century, and Romantic literary studies. What is unique about Writing Wales is that it cuts across these period divisions to enable readers for the first time to chart the development of literary treatments of Wales across three of the most tumultuous centuries in the history of British state-formation. Writing Wales explores how these period divisions have helped shape scholarly treatments of Wales, and it asks if we should continue to reinforce such period divisions, or else reconfigure our approach to Wales' literary past. The essays collected here reflect the full 300-year time span of the volume and explore writers canonical and non-canonical alike: George Peele, Michael Drayton, Henry Vaughan, Katherine Philips, and John Dyer here feature alongside other lesser-known authors. The collection showcases the wide variety of literary representations of Wales, and it explores relationships between the perception of Wales in literature and the realities of its role on the British political stage.
