With Barely TWO NICKELS to Rub Together Oct 20 2021 This true story documents the extraordinary life of an "Every Man" who came from humble beginnings to realize substantial accomplishment in spite of harrowing experiences and difficult circumstances. Ed Freeman's birthright family trials and tribulations begin when his great-grandfather is abandoned at as a newborn on a pastor's doorstep in North Carolina in 1833. The baby boy grew into a young man and ended up fighting in the US Civil War, later migrating to the Great Plains where the family made a living connected to all things turning up dirt, tilling and plowing the rolling hills of Nebraska. At the end of the 1930s Dust Bowl the baby boy's great-grandson, young Ed Freeman, escaped a forced arrangement during the Great Depression in the middle of a freezing cold winter night by hopping on a railcar headed west, joining the ranks of hoboes and eventually settling in the coastal mountains of Oregon where he could be his own man in a land of opportunity. Leveraging the work ethic, skill sets, and accumulation of life experiences that typified the high quality tradesmen they had become, in 1969 Ed Freeman and his son Dugie formed a company that would build custom all welded commercial fishing boats in the small Pacific Coastal town of Gold Beach, Oregon. During the 1970s they were constructing the biggest aluminum boats built in the United States and specialized in markets of the Pacific Northwest including Alaska. The Freemans found dignity in taking on the jobs nobody else wanted and made things work no matter what. Over the course of the little firm's short life (12 years), the boats they built had a combined length of nearly four football fields and a total vessel weight of more than a

million pounds. This is a straight-forward American story, both interesting and instructive, that is neither simple nor complex. It puts a face to personal struggles, applies respect that effort, creativity, hard work, absorption, reflection, striving, and persistence deserves, and connects a larger sphere of influencers that contributed to their success.

Loose-Leaf Edition Understanding Business: The Core Aug 18 2021 You asked for it - you got it! Based on the market leading gold standard product, Nickels, Understanding Business 12e, Understanding Business: The Core 2e provides a fully revised product with fewer chapters. Reviewers asked for fewer chapters and to include a chapter on using technology, particularly social media. Understanding Business: The Core 2e is now 16 chapters. Here's how we did it: • Chapter 1, Taking Risks and Making Profits within the Dynamic Business Environment, and Chapter 2, Understanding Economics, were condensed and combined to create Chapter 1, Exploring the Business Environment and Economics. The coverage of current trends was deleted since it is covered in other chapters. • Chapter 11, Human Resource Management: Finding and Keeping the Best Employees, and Chapter 12, Dealing with Employee-Management Issues, were condensed and combined to create Chapter 10, Human Resource Management: Finding and Keeping the Best Employees. • Chapter 16, Financial Management, was combined with Chapter 17, Using Securities Markets for Financing and Investing Opportunities, to create Chapter 15, Financial Management. This revised chapter retains the material about selling stocks and bonds to raise capital. The content about investing in stocks and bonds was moved to Bonus Chapter C Managing Personal Finances and Investing. • Bonus Chapter B, Using Technology to Manage Business, was expanded and promoted to the main text as Chapter 13, Using Technology to Manage Information. • Bonus Chapter C, Managing Personal Finance and Investing, was expanded to include a condensed version of the content regarding investing in stocks and bonds that was moved from the former Securities Markets chapter.

Unmasking Administrative Evil Apr 13 2021 The modern age with its emphasis on technical rationality has enabled a new and dangerous form of evil--administrative evil. Unmasking Administrative Evil discusses the overlooked relationship between evil and public affairs, as well as other fields and professions in public life. The authors argue that the tendency toward administrative evil, as manifested in acts of dehumanization and genocide, is deeply woven into the identity of public affairs. The common characteristic of administrative evil is that ordinary people within their normal professional and administrative roles can engage in acts of evil without being aware that they are doing anything wrong. Under conditions of moral inversion, people may even view their evil activity as good. In the face of what is now a clear and present

danger in the United States, this book seeks to lay the groundwork for a more ethical and democratic public life; one that recognizes its potential for evil, and thereby creates greater possibilities for avoiding the hidden pathways that lead to state-sponsored dehumanization and destruction. What's new in the Fourth Edition of Unmasking Administrative Evil: UAE is updated and revised with new scholarship on administrative ethics, evil, and contemporary politics. The authors include new cases on the dangers of market-based governance, contracting out, and deregulation. There is an enhanced focus on the potential for administrative evil in the private sector. The authors have written a new Afterword on administrative approaches to the aftermath of evil, with the potential for expiation, healing, and reparations.

Five Nickels Jan 23 2022 On February 15, 1991, Captain Steve Phillis was leading his wingman, Lieutenant Rob Sweet, on their thirtieth combat mission of Desert Storm flying the A-10 Warthog. They were tasked with attacking Iraq's vaunted Medina Division of the Republican Guards—by far their most dangerous mission of the war. Near the end of their attacks, Rob was forced to eject from his aircraft and began a five-minute parachute ride down to the troops he and Steve had just finished bombing. Steve, an experienced

combat search and rescue pilot and distinguished graduate of the Air Force Fighter Weapons School, immediately sprang into action to save the life of his wingman. After spending three minutes and forty-five seconds circling Sweet, Steve's A-10 was hit by an enemy surface-to-air missile. *Five Nickels: True Story of the Desert Storm Heroics and Sacrifice of Air Force Captain Steve Phillis*, is a love story. Steve loved his family, fiancée, fellow fighter pilots, country, wingman, and life. Yet he was willing to risk them all to fight—and if necessary, die—for what he believed in. Steve's story—from Rock Island, Illinois to the Air Force Academy, to his life as an A-10 fighter pilot—is the stuff of heroes. As Steve's Academy classmate and

boxing partner, fellow fighter pilot and "Top Gun" graduate, Jim "Boots" Demarest is uniquely qualified to tell Steve's story. A gifted storyteller, Boots shares his experience with Steve from the Academy Boxing Team to paint a complete picture of the man who had so much to live for, yet was willing to risk it all to do the right thing. *Five Nickels* is filled with the details of Steve's life and loves that will capture, enchant, and pull readers in. His story of combat heroics in the face of incredible danger will captivate and inspire all who read it.
