BNVR Jan 30 2022 The BNVR Test is a unique non-linguistic approach for identifying whether a cognitive (problem-solving) deficit as well as a linguistic deficit exists in individuals with acquired aphasia. Recognising cognitive deficits in terms of problem-solving may be a key factor in understanding why some individuals overcome their communication difficulties better than others. Failure to recognise problem-solving difficulties may lead to unrealistic expectations of therapeutic intervention and thus inappropriate management and goal setting. The BNVR requires the client to solve 10 everyday problems, presented in full-colour photographic format. It is short, requires minimal linguistic input, contains real-life situations and is likely to be suitable for non-English speaking individuals. It will be useful to speech language therapists, occupational therapists and psychologists who need to ascertain whether problem-solving skills are affected and to assist in multi-disciplinary team decision-making in acute and rehabilitation settings.

Confidence: Practice Exam Papers Practice is the key to success. Pupils need experience in deciding and documenting their answers efficiently. They need total familiarity with the spectrum of multiple choice questions, and with the layout of question papers and response sheets. The Eureka! 11+ Confidence series of Exam Papers provides: Question papers laid out in modern, multiple-choice format Answer sheets laid out in modern format (in places requiring digit-by-digit entry) Full answers with explanations Supplementary books giving very detailed methods, tips and tricks on the more challenging aspects of Numerical Reasoning In supporting your child's preparation for the exam: Do as much exam paper practice as possible. Variety helps retain attention. Cut out the multiple choice answer sheet and use it to record the answers. Maximizing authenticity now minimizes exam-day anxiety. Do these practice exams formally: seated alone, away from television and radio. Immediately afterwards, encourage the pupil to mark their own work. Insist on discussing the questions which were not answered correctly. Do not set aside any errors as "silly mistakes." All mistakes are silly. The key to 11+ is attention to seemingly small details. Doing exam papers is a learning opportunity. Underline the importance of discovering how errors were made and how they may be prevented in future. Tips, tricks and (most of all) systematic approaches for avoiding the major traps at 11+ are given in the associated "Eureka! Challenging Maths and Numerical Reasoning Exam Questions for 11+ " series of books. Thoughtful support from parents can be crucial for pupils in the run-up to examinations. Use the Eureka! Practice Exam Papers and Numerical Reasoning training books to help them reach their full potential.
