A Sarong for Clio Aug 05 2022 A Sarong for Clio testifies to an ongoing intellectual dialogue between its ten contributors and Craig J. Reynolds, who inspired these essays. Conceived as a tribute to an innovative scholar, dedicated teacher, and generous colleague, it is this volume's ambition to make a concerted intervention on Thai historiography—and Thai studies more generally—by pursuing in new directions ideas that figure prominently in Reynolds's scholarship. The writings gathered here revolve around two prominent themes in Reynolds's scholarship: the nexus of historiography and power, and Thai political and business cultures—often so intertwined as to be difficult to separate. The chapters examine different types of historical texts, Thai political discourse and political culture, and the media production of consumer culture. Contributors: Chris Baker; Patrick Jory, University of Queensland, Brisbane; Tamara Loos, Cornell University; Yoshinori Nishizaki, National University of Singapore; James Ockey, University of Canterbury; Maurizio Peleggi, National University of Singapore; Pasuk Phongpaichit, Chulalongkorn University, Bangkok; Kasian Tejapri, Thammasat University, Bangkok; Villa Vilaithong, Chulalongkorn University, Bangkok; Thongchai Winichakul, University of Wisconsin–Madison

America's obsession with controversy. This encyclopedia covers 100 events in world history from the 17th century to the present--moments that alone were major and minor, but ones that exploded in the public eye when the media stepped in. Topics covered include yellow journalism, the War of the Worlds radio broadcast, the Kennedy-Nixon debates, JFK's assassination, the Pentagon papers, and Hurricane Katrina. These are events that changed the way the media is used--not just as a tool for spreading knowledge, but as a way of shaping and influencing the opinions and reactions of America's citizens. Thanks to the media's representations of these events, history has been changed forever. From classified military plans that leaked out to the public to the first televised presidential debates to the current military tortures caught on tape, "100 Media Moments That Changed America" will demonstrate not only an ever-evolving system of news reporting, but also the ways in which historical events have ignited the media to mold news in a way that resonates with America's public. This must-have reference work is ideal for journalism and history majors, as well as for interested general readers. Chapters are in chronological order, beginning with the 17th century. Rereading the Black Legend Jan 06 2020 The phrase "The Black Legend" was coined in 1912 by a Spanish journalist in protest of the characterization of Spain by other Europeans as a backward country defined by ignorance, superstition, and religious fanaticism, whose history could never recover from the black mark of its violent conquest of the Americas. Challenging this stereotype, Rereading the Black Legend contextualizes Spain's uniquely tarnished reputation by exposing the colonial efforts of other nations whose interests were served by propagating the "Black Legend." A distinguished group of contributors here examine early modern imperialisms including the Ottomans in Eastern Europe, the Portuguese in East India, and the cases of Mughal India and China, to historicize the charge of unique Spanish brutality in encounters with indigenous peoples during the Age of Exploration. The geographic reach and linguistic breadth of this ambitious collection will make it a valuable resource for any discussion of race, national identity, and religious belief in the European Renaissance.

Art and Crime: Exploring the Dark Side of the Art World Apr 08 2020 Through the use of case examples and careful examination, this book presents the first interdisciplinary essay collection on the study of art crime, and its effect on all aspects of the art world. Contributors discuss art crime subcategories, including vandalism, iconoclasm, forgery, fraud, peace-time theft, war looting, archaeological looting, smuggling, submarine looting, and ransom. The contributors offer insightful analyses coupled with specific practical suggestions to implement in the future to prevent and address art crime. This work is of critical importance to anyone involved in the art world, its trade, study, and security. Art crime has received relatively little attention from those who study art to those who prosecute crimes. Indeed, the general public is not well-aware of the various forms of art crime and its impact on society at large, to say nothing of museums, history, and cultural affairs. And yet it involves a multi-billion dollar legitimate industry, with a conservatively-estimated \$6 billion annual criminal profit. Information about and analysis of art crime is critical to the wide variety of fields involved in the art trade and art preservation, from museums to academia, from auction houses to galleries, from insurance to art law, from policing to security. Since the Second World War, art crime has evolved from a relatively innocuous crime, into the third highest-grossing annual criminal trade worldwide, run primarily by organized crime syndicates, and therefore funding their other enterprises, from the drug and arms trades to terrorism. It is no longer merely the art that is at stake.
