A Book That Takes Its Time Dec 10 2020 Take time to breathe. Take time to create. Take time to reflect, take time to let go. A book that's unique in the way it mixes reading and doing. A Book That Takes Its Time is like a mindfulness retreat between two covers. Created in partnership with Flow, the groundbreaking international magazine that celebrates creativity, beautiful illustration, a love of paper, and life's little pleasures, A Book That Takes Its Time mixes articles, inspiring quotes, and what the editors call "goodies"—bound-in cards, mini-journals, stickers, posters, blank papers for collaging, and more—giving it a distinctly handcrafted, collectible feeling. Read about the benefits of not multitasking, then turn to "The Joy of One Thing at a Time Notebook" tucked into the pages. After a short piece on the power of slowing down, fill in the designed notecards for a Beautiful Moments jar. Make a personal timeline. Learn the art of hand-lettering. Dig into your Beginner's Mind. Embrace the art of quitting. Take the writing cure. And always smile. Move slowly and with intention through A Book That Takes Its Time, and discover that sweet place where life can be both thoughtful and playful.

The Noble Rot Book: Wine from Another Galaxy Feb 09 2021 Winner of the Guild of Food Writers Drinks Book Award 2021 Shortlisted for the André Simon Food and Drink Book Awards 2020 "Noble Rot manages to unravel the mysteries of wine with insight and humour. A wonderful - and essential - read for anyone interested in the world of wine, or even for those, like me, who just drink it." — Nigella Lawson "The Noble Rot guys have the ability to describe wines as if they're either future friends, or rock-stars coming to blow your mind." — Caitlin Moran "Noble Rot has brought originality, humour and now space travel to the very serious business of drinking wine. About time too." — Brian Eno "Dan and Mark do that thing that only crazy knowledgeable enthusiasts can do, they make you a crazy enthusiast too. If they said, 'We've found a wine like no other, a wine that actually lights up the sky, but you can only drink it in the desert at midnight, are you coming? I'd be off, and I'd be confident of meteor showers. They provoke curiosity - 'how does anyone make this extraordinary drink just with grapes?' - excitement, joy, and a longing for knowledge. Now, in this book, they're sharing the knowledge." — Diana Henry "To really know and love a wine one should know the grower and the vineyard. This isn't always or even often possible, which is why the Rotters introduce these wines at source. You learn that making wine, as cooking should be, is an act of love. You will come to love this book too." — Rowley Leigh Choosing wine in a restaurant or shop can seem an unfathomable business. But, according to Dan Keeling and Mark Andrew, the duo behind London's Noble Rot, it needn't be that way. In Wine from Another Galaxy they'll help you to understand how it is made, where to buy it, what to look for when you drink it, and how to talk about it. And once you've mastered the basics, they'll take you on a journey through the best of European wine culture, meeting the people and places behind their favourite bottles. Indeed, Dan and Mark have spent years visiting growers that you probably haven't heard of, from the original thinkers of the natural wine movement to the iconic estates of Burgundy and Bordeaux. This is the alternative, accessible, no-holds-barred guide to wine, where the usual clichés and rules don't apply.

Have I Got a Cartoon for You! Mar 13 2021 Bob Mankoff grew up Jewish in Queens, NY in the 1950s and 1960s. As a kid, he visited the Borscht Belt and reveled in the hilarious performances of some of the best Jewish comedians such as Jerry Lewis, Buddy Hackett, and Rodney Dangerfield, among others. These early experiences helped shape Mankoff's view of life and led him to become a creative master practitioner of humor and cartoons. He started his career unexpectedly by quitting a Ph.D. program in experimental psychology at The City University of New York in 1974 and submitting his cartoons to the New Yorker. Three years and over 2,000 cartoons later, he finally made the magazine and has since published over 950 cartoons. He has devoted his life to discovering just what makes us laugh and seeks every outlet to do so, from developing The New Yorker's web presence to founding The Cartoon Bank, a business devoted to licensing cartoons for use in newsletters, textbooks, magazines and other media. In this new book, Have I Got a Cartoon for You! this successful cartoonist, speaker and author, presents his favorite Jewish cartoons. In his foreword to this entertaining collection, Mankoff shows how his Jewish heritage helped him to become a successful cartoonist, examines the place of cartoons in the vibrant history of Jewish humor, and plumbs Jewish thought, wisdom and shtik for humorous insights. Mankoff has written: "I always think that it is strange that the Jews, The People of the Book, eventually became much better known as The People of the Joke. Strange because laughter in the Old Testament is not a good thing: When God laughs, you're toast. If you say, 'Stop me if you've heard this one,' he does for good." A major influence on his cartoons about religion derives from Jewish culture's disputatiousness, the questioning everything just for the hell of it and then the questioning of the questioning to be even more annoying. He recalls: "When, I was first dating my wife, who is not Jewish, we once were having what I thought was an ordinary conversation and she said, 'Why are you arguing with me?' I replied, 'I'm not arguing, I'm Jewish.' I thought that was clever. She didn't. Some humor scholars claim this stems from the practice in the Talmud of pilpul, which Leo Rosten has described as 'unproductive hair-splitting that is employed not so much to radiate clarity ... as to display one's own cleverness.' I go along with that except I like to think that some clarity and cleverness are not mutually exclusive. Anyway, that's my aim in cartoons like these. Now, am I worried that these jokes will bring His wrath down upon me down with a bolt from the blue. Not really, but every time there's a thunderstorm, I hide in the cellar."

The Vice Photo Book Dec 22 2021 After 13 years of cutting-edge gonzo journalism (or immersionism), Vice Magazine has amassed a world-famous collection of photographs - including never before-seen work by Terry Richardson, Richard Kern, Juergen Teller and Vice alumni including Ryan McGinley and Dash Snow. The first section of the photo book juxtaposes big names with newcomers, the second contains photojournalistic highlights from Vice, the third contains Vice's novel take on fashion and the final two are a collage of Vice favourites - new and old.

Sheikh 'n' Vac Jan 11 2021 Tiré du site Internet de Book Works: "In Yara El-Sherbini's new book her drawings and jokes, which play with stereotypes and provocatively satirize representations of Muslims, are offset by an apparently indecipherable stream of consciousness. Exploring the nuances of language, dialect, speech and comedy, El-Sherbini playfully buries coded messages into a stream of mis-spelt words, which, juxtaposed with visual puns, quips and malapropisms confront the reader with the tensions of religious and racial identities."

Sustainability Sep 06 2020 The heightening impact of ecological and societal crises makes sustainability an increasingly urgent imperative, requiring a fundamental shift in how we understand and practice management and business. In this book, the authors set out the key characteristics of sustainability such as its temporal and multilevel effects and highlight the complex array of sustainability risks and opportunities for business and management. Setting business within a systems perspective, the authors outline different sustainability discourses that frame how business responds to the sustainability imperative. They call for the normative and scientific approaches to sustainability to be merged so that a new transdisciplinary approach that brings together the material and relational traditions in sustainability management is developed. Sustainability work is understood as the reframing of tools, technologies, practices and business strategies to respond to the imperative. The book concludes by highlighting dynamic features of the imperative as it is shaped by the urgent need to restore and regenerate social and ecological systems. Sustainability transitions such as the Circular Economy and Net Zero are suggested as inspiration for profound business transformation. By facing the intractable complexity associated with sustainability, this book challenges students and scholars to draw from across the sciences and social sciences to understand, reflect upon and deliver responsible business outcomes in contemporary society.

The Book of Big Science Ideas Nov 08 2020 A beautifully illustrated celebration of science from the clever people who bring you AQUILA magazine. Ideas are important. They change things. A single idea can start a war, save billions of lives, even rearrange whole planetary systems, or simply make a person giggle until they pee a little bit. They can be totally wrong but widely believed, or undoubtedly right and completely ignored. What's more, they're free, and anyone can have one—including you! The Book of Big Science Ideas looks at 15 brilliant science ideas and more than 50 ingenious thinkers who have helped shape our understanding of the world - whether they were right or wrong! Thinkers include, Wang Zhenyi, Louis Pasteur, Marie Curie, James Joule, Rosalind Franklin, Charles Darwin, Aristotle, Edith Clarke, Isaac Newton, Grace Hopper, Alan Turing, Ada Lovelace and many, many more! From established ideas like atoms, electricity and the solar system, and ideas that are still evolving such as gravity, energy and classification, right up to recent discoveries like AI and genetics - this jam-packed book takes a fresh approach to science.

The Jet Age Compendium Apr 25 2022 "From 1967, up until his death, Eduardo Paolozzi was involved with the innovative British literary magazine *Ambit*, using its pages as a space for some of his most experimental and innovative creations, pushing at the boundary between text and image. Collages, visual essays and fragments from novels, drawing on pop culture images from newspapers, magazines and advertisements. Reprinted in their entirety for the first time, Paolozzi's works for *Ambit* tackle the war in Vietnam, the acceleration of Japanese technology, and the utopias of mass advertising. The *Jet Age Compendium* reproduces the Paolozzi pages from *Ambit* along with magazine covers, poems and advertisements that originally appeared alongside the artist's work. The book is housed in a day-glo pink sleeve that also contains an essay written by David Brittain which puts Paolozzi's work for the magazine into context"-- Publisher's website.

The Smashing Book #4 Mar 25 2022

Racquet May 27 2022 Racquet was founded in 2016 to be the voice of a new tennis boom. When the popularity of tennis peaked in the late 070s and early 080s, the sport was populated by buccaneering talents with outside personas, such as Borg, Evert, McEnroe, Navratilova, Gerulaitis, Austin, King, and Connors. The game was played in every park, and tennis clothes became appropriate attire for cocktails as well as for a match. With success, however, came polish, and tennis is not the game itself, then how it came to be represented in the culture is boring. Having a big personality was no longer a virtue. Tennis went back to being a bastion of the elite. Racquet is a place for those who knew all along that the spirit of the tennis boom was alive. Tennis has always been present in the arts, in the popular culture, in the skateboarding, hip-hop, and fashion worlds. That side of tennis was not obscured by the tightly controlled messaging of the athletes, the corporate gleam of the major tournaments, and the all-white attire of the country-club scene. Racquet was launched to represent the latent, diverse, and large constituency of tennis that has not been embraced by the sport writ large. Featuring the work of some of today's finest writers, the quarterly independent magazine highlights the art, culture, and style that are adjacent to the sport and just enough of the pro game to keep the diehards satisfied. This collection features some of the best writing from the first four years of Racquet and tackles such immediate topics as: How should tennis smell? What's the deal with Andre Agassi's private jet? What can a professional tennis player learn from Philip Roth? Why is tennis important in Lolita? How was Arthur Ashe like Muhammad Ali? And, crucially, what lessons have we learned from the implosion of that first tennis boom?

Gothic Chapbooks, Bluebooks and Shilling Shockers, 1797-1830 Jun 23 2019 This study breaks new ground surveying the origins of the Gothic chapbook, its publishers and authors, in order to establish conclusively the impact these pamphlets had on the development of the Gothic genre. Considered the illegitimate offspring of the Gothic novel, the lowly chapbook flooded the market in the late eighteenth century, creating a separate and distinct secondary market for tales of terror. The trade was driven by a handful of individuals who were booksellers and dealers, circulating library proprietors, stationers, and small publishers - what they produced were more than four hundred chapbooks, bluebooks and shilling shockers containing Gothic tales from magazines, redactions of popular novels, extractions of entire inset tales, and original tales of terror. This book responds to the urgent and pressing need to contextualise the Gothic chapbook in ascertaining a more concise and comprehensive view of the entire Gothic genre.

The Colour Code May 03 2020 How many colours are there? In the West we see seven, but the Chinese see five, while the Pirahã tribe in the Amazon have no words for the spectrum. Colour isn't something we see: it's something we think. In this popular culture miscellany, Paul Simpson takes eleven key colours and explores how they have shaped our evolution as a species, persuaded us in politics and culture and allowed us to express or oppress personal freedoms. His book investigates such issues as the shifting gender of pink, the poisonous potential of green, the decadence of yellow, the performance-diminishing impact of grey and the ways in which orange has shaped power in Europe.

The Business of Books Oct 08 2020 In 1450 very few English men or women were personally familiar with a book, by 1850, the great majority of people daily encountered books, magazines, or newspapers. This book explores the history of this fundamental transformation, from the arrival of the printing press to the coming of steam. James Raven presents a lively and original account of the English book trade and the printers, booksellers, and entrepreneurs who promoted its development. Viewing print and book culture through the lens of commerce, Raven offers a new interpretation of the genesis of literature and literary commerce in England. He draws on extensive archival sources to reconstruct the successes and failures of those involved in the book trade—a cast of heroes and heroines, villains, and rogues. And, through groundbreaking investigations of neglected aspects of book-trade history, Raven thoroughly revises our understanding of the massive popularization of the book and the dramatic expansion of its markets over the centuries.
