American Multiculturalism After 9/11 Nov 04 2022 This provocative and rich volume charts the post-9/11 debates and practice of multiculturalism, pinpointing their political and cultural implications in the United States and Europe.

Ten Years After 9/11 - Rethinking the Jihadist Threat Sep 21 2021 Ten years after the 9/11 attacks this book reassesses the effectiveness of the "War on

Terror", considers how al-Qaeda and other jihadist movements are faring, explores the impact of wider developments in the Islamic world such as the Arab Spring, and discusses whether all this suggests that a new approach to containing international, especially jihadist, terrorism is needed. Among the book's many richly argued conclusions are that the "War on Terror" and the invasions of Afghanistan and Iraq have brutalised the United States; that the jihadist threat is not one, but rather a wide range of separate, unconnected struggles; and that al-Qaeda's ideology contains the seeds of its own destruction, in that although many Muslims are content to see the United States worsted, they do not approve of al-Qaeda's violence and are not taken in by the jihadists' empty promises of utopia.

The United States and the Taliban before and after 9/11 Oct 23 2021 This book tells the story of the United States' relationship with the Taliban from the start of the Taliban movement until its retreat from Kabul in the face of the US invasion of Afghanistan in 2001. The US and the Taliban held countless meetings, but could never come to a workable arrangement, and this book examines both why diplomatic recognition was so important to the Taliban government and why the US refused to recognize it. It presents a concise, readable, and interesting perspective on US/Taliban relations from the fall of Kabul in 1996 until the fall of Kabul in 2001.

Deconstruction After 9/11 Jun 18 2021 In this book Martin McQuillan brings Derrida's writing into the immediate vicinity of geo-politics today, from the Kosovan conflict to the war in Iraq. The chapters in this book follow both Derrida's writing since Specters of Marx and the present political scene through the former Yugoslavia and Afghanistan to Palestine and Baghdad. His 'textual activism' is as impatient with the universal gestures of philosophy as it is with the complacency and reductionism of policy-makers and activists alike. This work records a response to the war on thinking that has marked western discourse since 9/11.

Moral Philosophy After 9/11 Jan 14 2021 Were the perpetrators of the 9/11 attacks courageous &"freedom fighters&" or despicable terrorist murderers? These opposing characterizations reveal in extreme form the incompatibility between different moral visions that underlie many conflicts in the world today, conflicts that challenge us to consider how moral disputes may be resolved. Eschewing the resort to universal moral principles favored by traditional Anglo-American analytic philosophy, Joseph Margolis sets out to sketch an alternative approach that accepts the lack of any neutral ground or privileged normative perspective for deciding moral disputes. This &"second-best&" morality nevertheless aspires to achieve an &"objectively&" valid resolution through a dialectical procedure of reasoning toward a modus vivendi, an accommodation of prudential interests that are rooted in the customs and practices of the societies in conflict. In working out this approach, Margolis engages with a wide range of thinkers, from Plato, Aristotle, Kant, and Hegel through Nietzsche, Heidegger, Levinas, Rawls, Habermas, MacIntyre, Rorty, and Nussbaum, and his argument is enlivened by

reference to many specific moral issues, such as abortion, the control of Kashmir, and the continuing struggle between the Muslim world and the West.

The Later Works of John Dewey, Volume 9, 1925 - 1953 Apr 16 2021 This volume brings together sixty items from 1933 and 1934, including Dewey's Terry Lectures at Yale University. With the publication of the lectures as *A Common Faith*, Dewey encouraged his readers to see religion as human experience in a naturalistic and humanistic setting. He proposed that institutional religions would do well to focus on ideal possibilities in the present time and place rather than relying on the supernatural and the hereafter. Book jacket.

9/11 Ten Years After Nov 11 2020 Ten years on, what have been the principal impacts of the terrorist attacks of 11 September 2001 on the external policies and international outlooks of the world's major powers, the range and scope of the international security agenda and on the capacity for states and international organisations to work together to combat the dangers of international terrorism? This book investigates a range of international responses to the events of 9/11, to evaluate their consistency over time; to analyse their long-term significance and impact and to consider both their implications for the international security agenda and the prospects for international cooperation in addressing the challenges posed. In particular, the book considers the perspectives of some of the world's major powers and international organisations on the question of international terrorism, and on its perpetrators, comparing their interpretations and responses and examining how these have changed over the course of a decade of conflict. This book is primarily directed at an academic market, and especially towards undergraduate and taught postgraduate students on courses in international politics, international relations, security studies, terrorism studies, and contemporary international history.

Muslims in the West after 9/11 May 30 2022 This book is the first systematic attempt to study the situation of European and American Muslims

after 9/11, and to present a comprehensive analysis of their religious, political, and legal situations. Since 9/11, and particularly since the Madrid and London bombings of 2004 and 2005, the Muslim presence in Europe and the United States has become a major political concern. Many have raised questions regarding potential links between Western Muslims, radical Islam, and terrorism. Whatever the justification of such concerns, it is insufficient to address the subject of Muslims in the West from an exclusively counter-terrorist perspective. Based on empirical studies of Muslims in the US and Western Europe, this edited volume posits the situation of Muslim minorities in a broader reflection on the status of liberalism in Western foreign policies. It also explores the changes in immigration policies, multiculturalism and secularism that have been shaped by the new international context of the 'war on terror'. This book will be of great interest to students of Critical Security Studies, Islamic Studies, Sociology and Political Science in general. Jocelyne Cesari is an Associate at Harvard's Center for Middle Eastern Studies and the Center for European Studies, teaching at Harvard Divinity School and the Government Department, specializing in Islam and the Middle East.

Habeas Corpus after 9/11 Feb 12 2021 The U.S. detention center at

Guantánamo Bay has long been synonymous with torture, secrecy, and the abuse of executive power. It has come to epitomize lawlessness and has sparked protracted legal battles and political debate. For too long, however, Guantánamo has been viewed in isolation and has overshadowed a larger, interconnected global detention system that includes other military prisons such as Bagram Air Base in Afghanistan, secret CIA jails, and the transfer of prisoners to other countries for torture. Guantánamo is simply—and alarmingly—the most visible example of a much larger prison system designed to operate outside the law. Habeas Corpus after 9/11 examines the rise of the U.S.-run global detention system that emerged after 9/11 and the efforts to challenge it through habeas corpus (a petition to appear in court to claim unlawful imprisonment). Habeas expert and litigator Jonathan Hafetz gives us an insider's view of the detention of "enemy combatants" and an accessible explanation of the complex forces that keep these systems running. In the age of terrorism, some argue that habeas corpus is impractical and unwise. Hafetz advocates that it remains the single most important check against arbitrary and unlawful detention, torture, and the abuse of executive power.

Managing Ethnic Diversity after 9/11 Dec 13 2020 America's approach to terrorism has focused on traditional national security methods, under the assumption that terrorism's roots are foreign and the solution to greater security lies in conventional practices. Europe offers a different model, with its response to internal terrorism relying on police procedures. *Managing Ethnic Diversity after 9/11* compares these two strategies and considers that both may have engendered greater radicalization--and a greater chance of home-grown terrorism. Essays address how transatlantic countries, including the United Kingdom, the United States, France, Germany, Spain, Italy, and the Netherlands have integrated ethnic minorities, especially Arabs and Muslims, since 9/11. Discussing the "securitization of integration," contributors argue that the neglect of civil integration has challenged the rights of these minorities and has made greater security more remote.
